LETTER

FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

*Estimates of Appropriations required for the service of the fiscal year
ending June 30, 1897.*

TREASURY DEPARTMENT,

December 2, 1895.

SIR: In conformity with the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, and act of July 7, 1884 (23 Stat., page 254), I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1897, as furnished by the several Executive Departments; also, statements of the proceeds of sales of Government property, and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1895.

I have the honor to be,

Very respectfully, your obedient servant,

JOHN G. CARLISLE,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

ESTIMATES FOR 1897.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Secretary of the Treasury—Continued.</i>							
<i>Miscellaneous division—Continued.</i>							
Two clerks of class one.....	Mar. 3, 1875	R. S.	27	167-9	\$2,400 00		
	Aug. 5, 1882	18	396-8	2			
	Mar. 2, 1895	22	225,'6	1			
One clerk.....	Same acts.....	28	774,'5	1	1,000 00		
One clerk.....	do.....				900 00		
One assistant messenger.....	do.....				720 00		
Total.....						\$14,520 00	
Division of stationery, printing, and blanks:							
Chief of division.....	do.....				2,500 00		
Four clerks of class four.....	do.....				7,200 00		
Two clerks of class three.....	do.....				3,200 00		
Three clerks of class two.....	do.....				4,200 00		
Two clerks of class one.....	do.....				2,400 00		
Two clerks, at \$900 each.....	do.....				1,800 00		
Two messengers, at \$840 each.....	do.....				1,680 00		
Two assistant messengers, at \$720 each.....	do.....				1,440 00		
Foreman of bindery, at \$5 per day (increase of \$1 per day submitted.) (See note).....	do.....				1,565 00		
Four binders, at \$3.20 per day.....	do.....				4,006 40		
Two sewers and folders, at \$2.50 per day (one additional submitted).....	do.....				1,565 00		
Total.....						\$31,556 40	
NOTE.—The increase submitted in salary of foreman of bindery is intended as a restoration of salary as it existed prior to fiscal year 1896, which is less than the compensation allowed assistant foremen in the bindery of the Government Printing Office.							
Division of mail and files:							
Chief of division.....	do.....				2,500 00		
One clerk of class three.....	do.....				1,600 00		
Five clerks of class two (\$200 additional to one in charge of documents).....	do.....				7,200 00		
Two clerks of class one.....	do.....				2,400 00		
One mail messenger.....	do.....				1,200 00		
Six clerks, at \$1,000 each.....	do.....				6,000 00		
Three clerks, at \$900 each (reduction of one).....	do.....				2,700 00		
Two assistant messengers, at \$720 each.....	do.....				1,440 00		
Two laborers, at \$600 each (one additional submitted).....	do.....				1,200 00		
Total.....						\$26,240 00	
NOTE.—In view of the additional work in wrapping and mailing documents required to be performed in this division by the act of January 12, 1895, "Providing for the public printing and binding and the distribution of public documents," I deem it necessary that a laborer be provided for in lieu of a clerk, and I recommend the following changes in the estimates of appropriations for this division for the year ending June 30, 1897:							
Three clerks at \$900 each, instead of four as now provided.							
Additional to one clerk of class two as document clerk, per annum.....\$200 00							
One additional laborer, per annum.....600 00							
It will be observed that this arrangement provides for the same number of persons with a saving of \$100 per annum.							
Division of special agents:							
Assistant chief of division.....	do.....				2,400 00		
One clerk of class three.....	do.....				1,600 00		
One clerk of class two (in lieu of one clerk of class one, to be dropped).....	do.....				1,400 00		
Two clerks of class one (former appropriation three clerks of class one—one dropped as above).....	do.....				2,400 00		
One clerk of class one (additional, submitted).....	do.....				1,200 00		
Two clerks, at \$1,000 each (the one additional, in lieu of one clerk at \$900, to be dropped).....	do.....				2,000 00		
Two clerks, at \$900 each (one dropped as above).....	do.....				1,800 00		
One messenger.....	do.....				840 00		
Total.....						\$13,640 00	
Office of disbursing clerks:							
Two disbursing clerks, at \$2,500 each.....	do.....				5,000 00		
One clerk of class four.....	do.....				1,800 00		
One clerk of class three.....	do.....				1,600 00		
One clerk.....	do.....				1,000 00		
Total.....						\$9,400 00	
Miscellaneous:							
One clerk of class two.....	do.....				1,400 00		
One clerk.....	do.....				1,000 00		
Two clerks, at \$900 each.....	do.....				1,800 00		
Total.....						\$4,200 00	
						\$529,185 40	\$522,602 20

One compositor and pressman, at \$3.20 per diem (313 days).....	do.....				1,001 60	\$289,841 60	\$264,764 80
<p>NOTE No. 1.—In explanation of the request for increase in the number of certain employees it may be stated that thirty-two clerks and messengers engaged in the redemption of mutilated currency were withdrawn from such duty by the abolishment of the roll employed under the act of July 14, 1890. The prompt redemption of mutilated currency (the volume of which is constantly increasing), in accordance with the law and the Treasury regulations, renders it necessary that the services of at least twenty-four employees be secured in lieu of the thirty-two formerly so engaged.</p> <p>NOTE No. 2.—The mail messenger of this Bureau is on duty long before and after the regular business hours. He has entire charge of the registered mail, amounting to tens of thousands of letters annually, and containing millions in value. In view of the grave responsibility of the duties, the increase submitted is earnestly recommended.</p> <p>NOTE No. 3.—The estimate for additional force submitted is to enable the office to man an extra press and separating machine, which is rendered necessary by the increased deliveries of sheet currency by the Bureau of Engraving and Printing.</p>

<i>Salaries, Office of Secretary of War—Continued.</i>							
<p>in his present position his work is of more value to the Department than if he were to be returned to his original duties and for this reason he is now, for the first time, regularly estimated for in the office of the Secretary of War. A corresponding reduction of one clerk of class two has been made in the salary estimate of the Chief of Engineers, so that the transfer does not involve any increase in the aggregate amount to be appropriated</p> <p>One additional assistant messenger is estimated for herein in lieu of a messenger dropped from the estimate of the Inspector-General, who has been provided in the estimates with a laborer.</p> <p>One of the two hostlers heretofore appropriated for under the title "Salaries, Office of Secretary of War," has been dropped in the above estimate and provision made for an additional laborer, whose services are required in this office.</p> <p>In compliance with the requirements of section 7, of the legislative, executive, and judicial appropriation act, approved March 2, 1895, a statement of the condition of business in the several bureaus and divisions of the War Department, together with a statement of the number and compensation of employees appropriated for in one bureau or office who have been detailed to another bureau or office for a period exceeding one year will be found in Appendix E.</p>

One messenger.....	Same acts.....				840 00		
One assistant messenger.....	do.....				720 00		
						15,460 00	13,660 00
NOTE.—The clerical force of this office is inadequate for the work required of it. It is especially desirable that the fourth-class clerkship asked for be authorized, there being none of that grade in this office, and the duties of some of the clerks require of them a knowledge of law and a degree of proficiency which should place them on the same footing, at least, with the clerks of other bureaus in which fourth-class clerkships exist.—G. Norman Lieber, Judge-Advocate General.							
SIGNAL OFFICE.

Two laborers, at \$660 each	Same acts.....				1,440 00			
						1,320 00		
NOTE.—This office is by official order of the War Department separated into two divisions. The principal clerk of one of these divisions is the one fourth-class clerk allowed the office by past annual appropriation acts, while the principal clerk of the other is, of necessity, a clerk of class three. These two principal clerks should, in equity, be of the grade of fourth class; and an item for an additional clerkship of that grade is accordingly submitted in the above estimate. The following table shows the inequitable distribution of clerkships of that grade, so far as this office is concerned, when various offices of the War Department are contrasted:						42,760 00	42,760 00	
	Adjutant-General.	Quartermaster-General.	Surgeon-General.	Paymaster-General.	Chief of Engineers.	Chief of Ordnance.	Commissary-General.	Commissary-General proposed.
Chief clerk	1	1	1	1	1	1	1	1
Class IV	12	11	14	5	4	2	1	2
Class III.....	14	9	12	5	2	2	3	3
Class II	13	20	27	7	3	2	4	4
Class I	58	36	32	2	3	20	14	14
Class \$1,000	7	12	8		1	2	9	9
Totals.....	105	89	94	20	14	29	32	33
Percentage Class IV..	.114	.123	.149	.25	.285	.069	.031	.060
The number of clerkships of the higher grades in this office are so few and the chances of promotion so small that existing conditions are not promotive of the best interests of the service. There has not been a promotion to the fourth grade in this office								

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Commissary-General—Continued.</i>							
for over 21 years; during that time there have been 8 such promotions in the office of the Adjutant-General, 10 in the office of the Quartermaster-General, 13 in the office of the Surgeon-General, 4 in the office of the Paymaster-General, 2 in the office of the Chief of Engineers, and 1 in the office of the Chief of Ordnance. Justice to this Bureau and the clerks thereof demands more than I have asked for, and my views upon the subject are sustained by the reiterated recommendations of this office for 19 years. It is therefore with little diffidence that I again press the matter upon official attention, with the hope that the additional clerkship of class 4 asked for may be granted. The estimate is made for such numbers in the subordinate grades as not to increase the appropriation over that of previous years if the additional clerkship of class four is granted.— <i>M. E. Morgan, Commissary-General of Subsistence.</i>

<i>Contingent Expenses, Public Buildings and Grounds under Chief of Engineers—</i>							
Contingent and incidental expenses.....	Mar. 2, 1895	28	790	1	\$500 00	\$500 00
NOTE.—The necessity for the above increase of the estimates over the appropriations for the present fiscal year is explained in the statement of the officer in charge of public buildings and grounds in Appendix G.—W. P. Craighill, Brigadier-General, Chief of Engineers.							
OFFICE OF SUPERINTENDENT OF STATE, WAR, AND NAVY DEPARTMENT BUILDING.							
<i>Salaries, Office of Superintendent of State, War, and Navy Department Building—</i>							
One clerk of class one.....	Mar. 3, 1883	R. S. 22	553	167-9 1	} \$1, 200 00		
	Mar. 2, 1895	28	790	1			
One chief engineer.....	Same acts.....					1, 200 00	
Eight assistant engineers, at \$1,000 each.....	do.....					8, 000 00	
One captain of watch.....	do.....					1, 200 00	
Two lieutenants of watch, at \$840 each.....	do.....					1, 680 00	
Fifty-eight watchmen, at \$720 each.....	do.....					41, 760 00	
One carpenter.....	do.....					1, 000 00	
One plumber.....	do.....					900 00	
One machinist.....	do.....					900 00	
One painter.....	do.....					900 00	
Four skilled laborers, at \$720 each.....	do.....					2, 880 00	
Twenty-eight firemen, at \$720 each.....	do.....					20, 160 00	
Ten elevator conductors, at \$720 each.....	do.....					7, 200 00	
Twenty laborers, at \$660 each.....	do.....					13, 200 00	
Eighty charwomen, at \$240 each.....	do.....					19, 200 00	
						121, 380 00	121, 380 00
<i>Fuel, Lights, etc., State, War, and Navy Department Building—</i>							
Fuel, lights, repairs, and miscellaneous items (an increase of \$17,500 over 1895, which was reduced \$2,150 on account of fall in price of coal. See Note.).....	Mar. 2, 1895	28	790	1	57, 120 00	37, 500 00
NOTE.—A great deal of damage is being done to the building, records, and furniture, as well as much annoyance to the occupants of the east and south wings by the dust from the unpaved roadway on the east and south of this building. An estimate of \$15,000 is therefore submitted to pave this roadway with asphalt. Two of our steam boilers are much worn, unsafe, and liable to give out; they are 60 H. P. each. They will not be safe for two years' further use. I can install the boilers asked for, in the meantime. An estimate of \$2,500 is therefore submitted.

Professional and scientific books, periodicals, engravings, photographs, and fixtures for the library.....	Same acts.....				1,000 00		
Apparatus and instruments, and for the repairs of the same.....	do.....				2,500 00		
Repairs to buildings, fixtures, and fences; furniture, gas, chemicals, and stationery; freight (including transmission of public documents through the Smithsonian exchange), foreign postage, and expressage; plants, fertilizers, and all contingent expenses (increase of \$500 submitted).....	do.....				3,000 00		
Fuel, oil, grease, tools, pipe, wire, and other materials needed for the maintenance and repair of boilers, engines, heating apparatus, electric-lighting and power plant, and water-supply system; purchase and maintenance of teams; material for boxing nautical instruments for transportation; paints, telegraph and telephone service, and incidental labor	do.....				7,500 00		
						\$15,200 00	\$14,700 00
NOTE.—Repairs * * * and all contingent expenses: The amount asked for (\$3,000) is \$1,550 less than that appropriated for 1892. The amount appropriated for 1896 (\$2,500) is not much more than is required for the above items other than repairs, leaving a very small amount available for current repairs, the want of which is leading to deterioration that, if further overlooked, will soon make extensive and costly repairs necessary. This necessity may be avoided by the judicious annual expenditures of the increase asked for.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Special Examiners, Pension Office—</i>							
One hundred and fifty special examiners, at \$1,300 each.. {	Mar. 2, 1895	R. S. 28	27 797	169 1	}	\$195,000 00	\$195,000 00
<i>Investigation of Pension Cases, Pension Office—</i>							
Per diem, when absent from home and traveling on duty outside the District of Columbia, for special examiners, or other persons employed in the Bureau of Pensions, detailed for the purpose of making special investigations pertaining to said Bureau, in lieu of expenses for subsistence, not exceeding \$3 per day, and for actual and necessary expenses for transportation and assistance, and any other necessary expenses, including telegrams, five hundred thousand dollars	Mar. 2, 1895	28	796	1	500,000 00	500,000 00
<i>Provided, That two special examiners, or clerks detailed and acting as chief and assistant chief of the division of special examiners, may be allowed, from this appropriation, in addition to their salaries and in lieu of per diem and all expenses for subsistence, a sum sufficient to make their annual compensation two thousand dollars, and one thousand eight hundred dollars, respectively, and whenever it may be necessary for either of them to travel on official business outside of the District of Columbia by special direction of the Commissioner, he shall receive the same allowance in lieu of subsistence and for transportation as is herein provided for special examiners and detailed clerks in field service.</i>							
NOTE.—The Commissioner of Pensions reports, under the requirements of section 2 of the act of July 11, 1890 (26 Stat., 267), that there are no employees in his office below a fair standard of efficiency.							
PATENT OFFICE.							
<i>Salaries, Patent Office—</i>							
Commissioner of Patents..... {	Mar. 2, 1895	R. S. 28	80 797	476, 7 1	} \$5,000 00		
Assistant Commissioner, who shall perform such duties pertaining to the office of Commissioner as may be assigned to him by the Commissioner	Same acts.....					3,000 00	
Chief clerk..... {	Mar. 2, 1895	R. S. 28	75 797	440 1	} 2,250 00		
Two law clerks, at \$2,000 each..... {	July 7, 1884	23	187	1	} 4,000 00		
Increase to one law clerk..... {	Mar. 2, 1895	28	797	1	} 500 00		
Three examiners in chief, at \$3,000 each	Submitted						
Chief of classification division	Mar. 2, 1895	R. S. 28	80 797	476, 7 1	} 9,000 00		
	Submitted					2,750 00	
NOTE.—It is generally recognized that a classification division is needed in the Patent Office in which all inventions may be classified according to structure. It is believed that a division organized principally with a view to such work, ably equipped with a chief and a corps of assistants, will greatly facilitate the work of search, make examinations more certain, and prevent the granting of duplicate and invalid patents.							
Examiner of interferences..... {	Mar. 2, 1895	R. S. 28	75 797	440 1	} 2,500 00		
Thirty-two principal examiners, at \$2,500 each.....	Same acts.....					80,000 00	
Thirty-four first assistant examiners, at \$1,800 each.....	do.....					61,200 00	
Increase of two first assistant examiners, at \$1,800 each..	Submitted.....					3,600 00	
Thirty-eight second assistant examiners, at \$1,600 each.. {	Mar. 2, 1895	R. S. 28	75 797	440 1	} 60,800 00		
Increase of two second assistant examiners, at \$1,600 each..	Submitted.....					3,200 00	
Forty-three third assistant examiners, at \$1,400 each ... {	Mar. 2, 1895	R. S. 28	75 797	440 1	} 60,200 00		
Increase of three third assistant examiners, at \$1,400 each..	Submitted					4,200 00	
Fifty-two fourth assistant examiners, at \$1,200 each..... {	Aug. 5, 1882	22	248	1	} 62,400 00		
Increase of thirty-six fourth assistant examiners, at \$1,200 each	Mar. 2, 1895	28	797	1	}		
	Submitted					43,200 00	
NOTE.—The increase in the number of fourth assistant examiners is for the purpose of providing each examining division with an additional assistant to cooperate with the Classification Division in its work, and to make digests of the subject-matter of inventions belonging to each division.							
One financial clerk..... {	Mar. 3, 1875	18	365	1	} 2,000 00		
	June 19, 1878	20	200	1	}		
	Mar. 2, 1895	28	797	1	}

Scientific Library, Patent Office—							
Purchase of books and other publications for the Scientific Library.....	Mar. 2, 1895	R. S. 28	81	486	2,000 00		
Increase.....	Submitted.....			1			
						10,000 00	2,000 00
<p>NOTE.—The act of March 3, 1893, reduced the appropriation for the Scientific Library \$500. The sum annually appropriated from 1879 to 1885 was \$5,000; from 1885 to 1892 it was \$3,000; in each of the two succeeding years the appropriation was reduced \$500. The necessity for providing the Patent Office with scientific publications and books of reference pertaining to the arts and sciences, which are so rapidly developing and expanding, was never more apparent than at the present time. The full amount appropriated in former years should be provided to meet the urgent needs of the office.</p>							
Foreign Exchanges, Patent Office—							
Foreign exchanges, and transporting patents and other publications.....	Submitted.....					2,000 00	
<p>NOTE.—By the act of July 31, 1886, the appropriations for the Scientific Library and for expense of transporting publications of patents to foreign governments were consolidated. Prior to this, \$3,000 was appropriated for the library and \$2,000 for transportation expenses, but under this act only \$3,000 was appropriated for both purposes. The appropriation for each should be distinct and separate. The Patent Office is frequently compelled to decline valuable foreign exchanges because of insufficient appropriation to pay transportation. Many of these foreign publications would be of great value in the examination of pending applications, and the necessary funds should be furnished this office to enable it to accept such of these foreign exchanges as are required for its work.</p>							
Official Gazette, Patent Office—							
Producing the Official Gazette, including weekly, monthly, quarterly and annual indexes therefor, exclusive of expired patents.....	Mar. 2, 1895	28	797	1		95,900 00	99,655 00

		Vol. or R. S.	Page.	Sec.					
Salaries, Offices of Surveyors-General—Continued.									
<p>NOTE.—In the annual report for the fiscal year ending June 30, 1893, this office, concurring in the views expressed by the United States marshal, ex-officio surveyor-general of Alaska, in his annual report for the same year, recommended the enactment of a law creating the office of United States surveyor-general of Alaska, and that provision be made for the necessary clerical service and rent and contingent expenses of his office. The ex-officio surveyor-general, in his report above referred to, states: "The examinations of field notes, plats, and calculations returned by the mineral and nonmineral surveyors to this office involve a great deal of time and the closest inspection, as evinced by the foregoing report for the past fiscal year. Since the mineral fields of Alaska, especially the gold belt of the southeastern portion, are known to be extensive, and are becoming rapidly developed, the work in this office is becoming proportionately varied and extensive, and already demands at the hands of Congress the creation of the office of United States surveyor-general separate from that of marshal. This is a matter of the utmost importance, not only to this office and the Department, but to the general public, whose interest in the prompt and systematic management of all the official business pertaining to the surveys of mineral claims, town sites, and locations for purposes of trade and manufacture is paramount. In this connection I would beg leave to urge the immediate creation of the office of United States surveyor-general for the district of Alaska, and the establishment of an office with a room fitted up with the necessary instruments and furniture for drafting purposes, the surveyor-general to be provided with at least one chief clerk capable of performing the duties of secretary and draftsman. A liberal estimate should be included in the bill to be presented in Congress for the proper establishment and maintenance of the office, in order that the affairs of the Department in this district should be fully and satisfactorily administered, as well as to properly preserve and arrange statistics and compile general maps of the numerous surveys which have already been executed in the field and returned to this office."</p> <p>The recommendation was repeated in my annual report for the fiscal year ending June 30, 1894, and the increase and importance of the work pertaining to surveys in Alaska demands a renewal of the recommendations heretofore made. In view of the recommendation I submit the accompanying estimate of \$2,500 for the salary of surveyor-general and \$1,800 for clerk hire in his office, trusting that favorable action may be taken by Congress.</p>									
Office of surveyor-general of Arizona:									
Surveyor-general.....	{	R. S.	389	2210	} \$2,000 00	\$7,000 00	\$7,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Offices of Surveyors-General—Continued.</i>							
Office of surveyor-general of Florida—Continued.							
NOTE.—The estimate of \$1,800 for clerk hire is submitted as necessary for the current work of the office, for the preparation of copies of township plats to replace those in the surveyor-general's office and in the local land office defaced and mutilated by long and constant use, and to meet such demands for information, plats, and field notes as may be made from time to time by county and local surveyors and others interested in the survey of public lands and private land claims.							
Office of surveyor-general of Idaho :							
Surveyor-general.....	R. S.	389	2210	{ \$2,000 00		
	Appropriated..	28	800	1			
Clerks in his office	R. S.	391	2226	{ 10,000 00		
	Appropriated..	28	800	1			
						\$12,000 00	\$12,000 00
NOTE.—The estimate of \$10,000 for clerk hire is submitted as necessary for the prompt and proper transaction of public business and to bring up arrears of work. Assuming the continuance of the present clerical force, the surveyor-general estimates that the arrearage of work July 1, 1896, will probably be, in the matter of surveying returns to be platted and transcribed, the \$22,000 in contracts recently awarded plus a portion of those to be awarded during the current fiscal year. The surveyor-general also states that there will be a large amount of miscellaneous arrearage, including matters not brought up in former years owing to inadequate funds for clerk hire. This arrearage consists in part of the completion of a large index map or working diagram of Idaho, showing all surveys heretofore made and those under outstanding contracts; the completion of an index to the field notes and the preparation of descriptive list for local land offices in compliance with the provisions of section 2395, Revised Statutes.							
Office of surveyor-general of Louisiana :							
Surveyor-general.....	R. S.	388	2208	{ 1,800 00		
	Appropriated..	28	800	1			
Clerks in his office.....	R. S.	391	2226	{ 8,000 00		
	Appropriated..	28	800	1			
						9,800 00	8,800 00
NOTE.—The estimate of \$8,000 for clerk hire is submitted as necessary for the proper transaction of the public business; continuing and completing the exhibit of private land claims; preparation of patent plats in duplicate for 5,493 located confirmed private land claims; reprotraction of 140 worn and mutilated township plats; examinations and researches to prepare confirmed private land claims for survey and location; preparation of certificate of location for 977 private land claims; indexing records and copying field notes for preservation, a great number of which have become so torn and partly defaced on account of constant use and age as to be almost illegible, and if not soon recorded will become useless.							
Office of surveyor-general of Minnesota :							
Surveyor-general.....	R. S.	388	2208	{ 1,800 00		
	Appropriated..	28	800	1			
Clerks in his office	R. S.	391	2226	{ 3,400 00		
	Appropriated..	28	800	1			
						5,200 00	3,800 00
NOTE.—The estimate of \$3,400 for clerk hire is submitted as necessary for the prompt and proper transaction of the current business and to bring up arrears of work. In submitting his annual estimates, the surveyor-general states: "I consider it necessary in order that the office work may be promptly done, and that large arrears of office work may be avoided, that the appropriation for clerk hire in the office should be sufficient to pay the salaries of chief clerk, one draftsman, and one transcribing clerk for their entire time during the year. The present appropriation, after paying the salary of the chief clerk, whose services for their entire time are indispensable, will only pay a reasonable compensation for one competent draftsman and one transcribing clerk for about one-fourth of the time during the year, and consequently the office work is greatly delayed. With the clerical force which can be employed in the office under the appropriation for 1896, I estimate that at the close of the fiscal year ending June 30, 1896, there will be not less than twelve or fifteen surveyed townships, the preparation of the plats and transcripts of field notes of which will be in arrears."							
Office of surveyor-general of Montana :							
Surveyor-general.....	R. S.	389	2210	{ 2,000 00		
	Appropriated..	28	800	1			
Clerks in his office	R. S.	391	2226	{ 15,000 00		
	Appropriated..	28	800	1			
						17,000 00	13,000 00
NOTE.—The estimate of \$15,000 for clerk hire is submitted as necessary for the prompt and proper transaction of the current business of the office, and for bringing up arrears of work. In submitting his annual estimates, the surveyor-general states: "The agricultural work now confronting this office is the work incident to the working up of the returns of surveys made under various contracts (let since 1891), the aggregate liability of which

Office of surveyor-general of Montana—Continued.							
is \$64,310, to which must be added the work incident to those contracts let during the fiscal year ending June 30, 1896, the liability of which is estimated to be \$30,000; or all returns under contracts, the aggregate liability of which is estimated to be \$95,000, must be worked up by June 30, 1897.							
"I find that my predecessor discontinued sending description lists of soil, timber, etc., and descriptions of corners to local land offices of this district about December 21, 1891. The result is that such lists for contracts, the aggregate liability of which is \$148,208.50, must be prepared. This work, taking into consideration the \$11,000 appropriated for clerk hire and an additional allowance of \$7,000 that will be asked for in the Deficiency Bill next December, I estimate will require an appropriation of \$18,000 for clerk hire for the fiscal year ending June 30, 1897."							
Office of surveyor-general of Nevada:							
Surveyor-general.....	Appropriated..	R. S.	389	2210	{ \$1,800 00		
		28	800	1			
Clerks in his office	Appropriated..	R. S.	391	2226	{ 4,500 00		
		28	800	1			
NOTE.—The estimate of \$4,500 for clerk hire is submitted as necessary for the prompt and proper transaction of the current work of the office, and for arranging and indexing accumulated records.							
Office of surveyor-general of New Mexico:							
Surveyor-general.....	Appropriated..	R. S.	389	2210	{ 2,000 00		
		28	800	1			
Clerks in his office	Appropriated..	R. S.	391	2226	{ 10,000 00		
		28	800	1			
NOTE.—The estimate of \$10,000 for clerk hire is submitted as necessary for the proper transaction of the current office work pertaining to the survey of the public lands; for the increased work on account of the survey of small holding claims filed under the provisions of sections 16 and 17 of the act of March 3, 1891, amended February 21, 1893; for the large amount of work connected with the Court of Private Land Claims, and the survey of private land claims confirmed by said court, and for copying the old Spanish archives and land-grant papers now in a bad state of preservation, and which are in daily demand by the attorney for the court of private land claims and his assistants, also by the attorneys for the petitioners for the confirmation of land grants. The constant daily handling of these old and valuable archives will soon render the original illegible and they should be copied for preservation.							
Office of surveyor-general of North Dakota:							
Surveyor-general.....	Apr. 10, 1890	26	53	2	{ 2,000 00

Clerks in his office	Appropriated..	R. S.	391	2226	{ 8,000 00		
		28	800	1			
NOTE.—The estimate of \$8,000 for clerk hire is submitted as necessary to carry on the current business of the office and to bring up arrears of work. The estimate submitted by the surveyor-general contains a general statement of the large arrears of office work, and referring to this matter he states: "Without specifying each item of arrears it is apparent that the present force, which is the same as provided for in this estimate, will have to be maintained for several years in order to properly bring all the work of this office up to date."

<i>Salaries, Offices of Surveyors-General—Continued.</i>							
<i>Office of surveyor-general of Utah—Continued.</i>							
NOTE.—The estimate of \$7,000 for clerk hire is submitted as necessary for the proper transaction of the current work of the office, and for the preparation of connected maps of the several mining districts for which there is urgent need. It becomes every year, as the number of mining claims in each district increases, more and more difficult to avoid errors in the examination of mining claims. The estimate includes the sum of \$2,000 for the preparation of said connected maps.

Office of ex-officio surveyor-general of Alaska:		R. S.	391	2227	}	1,000 00	
Rent of office for surveyor-general, pay of messengers, fuel, books, stationery, lights, binding of records, furniture, and other incidental expenses.....	May 17, 1884	23	26	8			
	Mar. 3, 1891	26	1100	12-15			
	Submitted.....						
NOTE.—In the annual report of this office for the fiscal year ending June 30, 1893, this office, concurring in the views expressed by the United States marshal, ex-officio surveyor-general of Alaska, in his annual report for the same year, recommended the enactment of a law creating the office of surveyor-general of Alaska, and that provision be made for the necessary clerical service and rent and contingent expenses. This recommendation was renewed in my annual report for the fiscal year ending June 30, 1894, and the increase and importance of the work pertaining to surveys in Alaska suggests and demands a renewal of the recommendation heretofore made, as stated, and in view of said recommendation this estimate of \$1,000 is submitted for the purpose indicated. Bearing upon the question of the necessity for providing proper accommodations for this office I will state that an inspector was detailed to make a thorough examination of the office and I make the following extracts from the report of the inspector: "No allowance has ever been made for the necessary office furniture in which to keep the plats, files, etc., and as a necessary consequence the present incumbent found these either missing or in almost inextricable confusion. * * * In conclusion, I wish to say that not only is the office totally devoid of the furniture necessary to the proper care of the records and files, but that the clerical work is fully as great as that pertaining to the United States marshal's office." * * * The propriety of making proper provisions for the care of the valuable original archives pertaining to the surveys in Alaska is manifest, and I trust that favorable action may be taken by Congress.

<i>Contingent Expenses, Offices of Surveyors-General—Continued.</i>							
Office of surveyor-general of Minnesota: Pay of messenger, stationery, printing, binding, and other incidental expenses.....	Appropriated..	R. S. 28	391 799- 801	2227 1	}	\$750 00	\$500 00
Office of surveyor-general of Montana: Rent of office for surveyor-general, pay of messenger, stationery, plat cases, drafting tables, binding field notes, gas, washing, and other incidental expenses.....	Same acts.....					4,500 00	1,500 00
<p>NOTE.—The surveyor-general of Montana in submitting his annual estimates states that "The three heaviest items to be paid from this fund are office rent, paying the messenger, and payment for stationery supplies from the Department. The former appropriation of \$2,000 was totally inadequate for the service, and last year it became necessary to secure from Congress an additional allowance in the general deficiency bill. Since this appropriation was reduced to \$1,500 about two years ago it has been found to be almost an impossibility to pay the bills that have accumulated against this office. The necessary fixed charges against the contingent account for this district should be: Office rent, six rooms, \$1,380; pay of messenger and janitor, \$600; mineral and agricultural plats and other classes of stationery, \$900; various other items, gas, washing, etc., \$620. Total, \$3,500. * * * During the last three years there has been a large accumulation of original notes of survey, both agricultural and mineral. These should be bound in uniform series with the earlier returns, but it could not be done for lack of funds. The constant reference to these notes has already resulted in much wear and damage, and it is only with the greatest attention and care that we are able to keep these original records from destruction. * * * The old furniture in this office is in a deplorable condition. The plat cases on hand were manufactured in this country about twenty years ago, and on account of constant wear and rough usage in moving the office on three separate occasions have become very badly damaged. They were the crudest kind of affairs when made, and the years of usage since that time have resulted, in many instances, in breaking the drawers and great damage to the entire case. They are worthless at the present time for the purpose for which they were originally intended. They do not keep the dust from the plats, and as their capacity has long since been exhausted, it is impossible to file the new work in these worn-out and dilapidated cases. The new plats, as fast as completed, are piled up on top of the old cases, and as a result much of the original records in this office is fast becoming valueless because of the exposure to dust. It is also necessary that we should have four new drafting tables." * * *</p> <p>The surveyor-general estimates the cost of binding field notes at \$500, and cost of necessary plat case and drafting table at \$1,750, making his total estimate for contingent expenses and furniture for his office \$5,750. This office submits an estimate of \$4,500 for purposes indicated, and trusts that the same will be allowed by Congress.</p>

<i>Salaries and Expenses, Bureau of Animal Industry—</i> For carrying out the provisions of the act of May 29, 1884, establishing the Bureau of Animal Industry, and of the act of August 30, 1890, providing for an inspection of meats and animals, also the provisions of the act of March 3, 1891, providing for the inspection of live cattle, hogs, and the carcasses and products thereof which are the subjects of interstate and foreign commerce, and for other purposes, the sum of \$800,000; and the Secretary of Agriculture is hereby authorized to use any part of this sum he may deem necessary or expedient, in such manner as he may think best in the collection of information concerning live stock, dairy and other animal products, and to prevent the spread of pleuro-pneumonia, tuberculosis, sheep scab, and other diseases of animals, and for this purpose to employ as many persons as he may deem necessary, and to expend any part of this sum in the purchase and destruction of diseased or exposed animals and the quarantine of the same whenever in his judgment it is essential to prevent the spread of pleuro-pneumonia, tuberculosis, or other diseases of animals from one State into another, and for printing and publishing such reports relating to animal industry as he may direct, and the Secretary is hereby authorized to rent a suitable building in the District of Columbia, at an annual rental of not exceeding \$1,200, to be used as a laboratory for said Bureau of Animal Industry: <i>Provided</i> , That section two of the act entitled "An act to provide for the inspection of live cattle, hogs, and the carcasses and products thereof, which are subjects of interstate commerce, and for other purposes," approved March 3, 1891, be amended to read as follows: "Sec. 2. That the Secretary of Agriculture shall also cause to be made, a careful inspection of all live cattle, the meat of which, fresh, salted, canned, corned, packed, cured, or otherwise prepared, is intended for exportation to any foreign country, at such times and places, and in such manner as he may think proper, with a view to ascertain whether said cattle are free from disease, and their meat sound and wholesome, and may appoint inspectors, who shall be authorized to give an official certificate clearly stating the condition in which such cattle and meat are found, and no clearance shall be given to any vessel having on board any fresh, salted, canned, corned, or packed beef being the meat of cattle killed after the passage of this act for exportation to and sale in a foreign country from any port in the United States until the owner or shipper shall obtain from an inspector appointed under the provision of this act, a certificate that said cattle were free from disease and that their meat is sound and wholesome." Also, that section four of said act be so amended as to read as follows: "Sec. 4. That said examination shall be made in the manner provided by rules and regulations to be prescribed by the Secretary of Agriculture, and after said examination, the carcasses and products of all cattle, sheep, and swine found to be free of disease and wholesome, sound, and fit for human food, shall be marked, stamped, or labeled, for identification as	May 29, 1884 Aug. 30, 1890 Mar. 3, 1891 Mar. 2, 1895	23 26 26 28	31 414 1089 731, 2	1-11 1-10 1-7 1	}	800,000 00	800,000 00

SUBSISTENCE DEPARTMENT.							
<i>Subsistence of the Army—</i>							
<p>Purchase of subsistence supplies: For issue, as rations to troops, civil employees when entitled thereto, hospital matrons, general prisoners at posts, prisoners of war (including Indians held by the Army as prisoners, but for whose subsistence appropriation is not otherwise made), estimated for the fiscal year on the basis of 9,746,230 rations; for sales to officers and enlisted men of the Army; for authorized issues of candles; for toilet articles, barbers, laundry and tailors' materials, for use of general prisoners confined at military posts without pay or allowances, and recruits at recruiting stations, to be issued under regulations as prescribed by the Secretary of War; of matches for lighting public fires and lights at posts and stations and in the field; of flour used for paste in target practice; of salt and vinegar for public animals; of issues to Indians visiting military posts, and to Indians employed with the Army, without pay, as guides and scouts. For payments: For meals for recruiting parties and recruits; for hot coffee, canned beef, and baked beans for troops traveling, when it is impracticable to cook their rations; for scales, weights, measures, utensils, tools, stationery, blank books and forms, printing, advertising, commercial newspapers, use of telephones, office furniture; for temporary buildings, cellars, and other means of protecting subsistence supplies (when not provided by the Quartermaster's Department); for extra pay to enlisted men employed on extra duty in the Subsistence Department for periods of not less than ten days, at rates fixed by law; for compensation of civilians employed in the Subsistence Department, not exceeding \$100,000; and for other necessary expenses incident to the purchase, care, preservation, issue, sale, and accounting for subsistence supplies for the Army. For the payment of the regulation allowances for commutation in lieu of rations: To enlisted men on furlough, to ordnance sergeants on duty at ungarrisoned posts, to enlisted men stationed at places where rations in kind can not be economically issued, to enlisted men traveling on detached duty when it is impracticable to carry rations of any kind, to enlisted men selected to contest for places or prizes in department and Army rifle competitions while traveling to and from places of contest; to be expended under the direction of the Secretary of War; in all.....</p>							
	Feb. 12, 1895	28	658	1		1, 754, 321 40	1, 650, 000 00
<p>NOTE.—This estimate is made on the basis of the following numbers to be subsisted, viz:</p>							
	No. entitled to rations.	No. of days.	No. of rations required.				
Enlisted men, including Indian scouts.....	25, 000	365	9, 125, 000	R. S.	224	1293	
				Mar. 3, 1885	23	357	1
				Feb. 12, 1895	28	658	1
Civil employees (A. R., 1392).....	500	365	182, 500	Same acts.			

General object (title of appropriation) and details and explanations.

Subsistence of the Army.—Continued.

	No. entitled to rations.	No. of days.	No. of rations required.
Enlisted men of Hospital Corps.....	752	365	274, 480
Hospital matrons.....	100	365	36, 500
Enlisted men of Signal Corps.....	50	365	18, 250
Military prisoners (at posts)	100	365	36, 500
Prisoners of war, includ- ing Indians for the sub- sistence of whom no other appropriation is made.....	200	365	73, 000
Total.....			9, 746, 230

Estimated at 18 cents per ration.

Losses from wastage in issuing, damage in transportation, shrinkage, and deterioration while on hand, necessary abandonment or destruction in the field, and all expenses indicated in similar appropriation for the fiscal year 1896, have been considered in making this estimate.

The number of civil employees of the Quartermaster's Department estimated for is the number recommended by the Quartermaster-General of the Army; and the numbers of enlisted men of the Hospital Corps and hospital matrons are the numbers estimated for by the Surgeon-General of the Army.—*M. E. Morgan, Commissary-General of Subsistence.*

Establishment of Apache Prisoners upon Military Reservations—

Maintenance and support of the Apache prisoners of war at Fort Sill, Oklahoma, and for the purposes of the erection of buildings, purchase of stock, necessary farming tools, seeds, household utensils, and other necessary articles and expenses absolutely needed for their support and civilization, in addition to the sums herein appropriated, to be expended under the direction of the Secretary of War.....

NOTE.—The Apache prisoners of war formerly confined in Alabama were moved to Fort Sil, Oklahoma, in October, 1894. Their subsistence, medicine, clothing, and draft animals have been provided for from Army appropriations. The special appropriations heretofore made for their removal, support, and maintenance have been applied in providing log houses and other shelter, cooking utensils, farming implements, tools, seeds, range cattle, and a saw mill. The prisoners number 245. All take a lively interest in their work, and have made good progress toward a self-sustaining basis. They are held under strict military control, but are entirely peaceable and well disposed. It is believed that in a few years they will be able to support themselves without aid from the Government. The amount asked is needed in carrying forward the work in progress, and is \$2,500 less than the amount appropriated for the current fiscal year.—*Geo. W. Davis, Major, U. S. A.*

QUARTERMASTER'S DEPARTMENT.

Regular Supplies—

Regular supplies of the Quartermaster's Department, consisting of stoves and heating apparatus, and repair and maintenance of the same ; for heating offices, hospitals, and barracks and quarters, including recruiting stations ; of ranges and stoves, and appliances for cooking and serving food ; of fuel and lights for enlisted men, including recruits, guards, hospitals, storehouses and offices, and for sale to officers ; for post bakeries ; for the necessary furniture, text-books, paper, and equipments for the post schools and libraries ; for the tableware and mess furniture for kitchens and mess halls, each and all for the enlisted men, including recruits ; of forage in kind for the horses, mules, and oxen of the Quartermaster's Department at the several posts and stations and with the armies in the field, including its care and protection, and for the horses of the several regiments of cavalry, the batteries

Revised Army Reg's, 1889, p. 113, par. 1063, '4.							
Feb. 12, 1895	28	660	1				

NOTE.—The amount asked is \$20,000 less than was estimated for 1896, and though \$20,000 in excess of sum appropriated for 1896, is not more than will be needed.—*E. N. Batchelder, Quartermaster-General.*

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Transportation of the Army and its Supplies—Continued.</i>							
and munitions of war and military supplies and property over such aided railroads, shall be paid out of the moneys appropriated by the foregoing provision only on the basis of such rate for the transportation of such troops and munitions of war and military supplies and property, as the Secretary of War shall deem just and reasonable under the foregoing provision, such rate not to exceed fifty per centum of the compensation for such Government transportation as shall at the time be charged to and paid by private parties to any such company for like and similar transportation; and the amount so fixed to be paid shall be accepted as in full for all demands for such service.....							
NOTE.—The amount now asked is \$150,000 less than was estimated for the fiscal year 1896, and though \$50,000 more than was appropriated therefor, is not believed to be in excess of requirements for the fiscal year 1897.— <i>R. N. Batchelder, Quartermaster-General.</i>							
<i>Barracks and Quarters—</i>							
Barracks and quarters for troops, storehouses for the safekeeping of military stores, for offices, recruiting stations, and for the hire of buildings and grounds for summer cantonments, and for temporary buildings at frontier stations, for the construction of temporary buildings and stables, and for repairing public buildings at established posts: <i>Provided</i> , That no more than one million dollars of the sums appropriated by this act shall be paid out for the services of civilian employees in the Quartermaster's Department, including those heretofore paid out of the funds appropriated for regular supplies, incidental expenses, barracks and quarters, army transportation, clothing, camp and garrison equipage; that no employee paid therefrom shall receive as salary more than one hundred and fifty dollars per month, unless the same shall be specially fixed by law; and no part of the moneys so appropriated shall be paid for commutation of fuel and for quarters to officers or enlisted men..... 	Feb. 12, 1895	28	661	1			
<i>Construction and Repair of Hospitals—</i>							
Construction and repairs of hospitals at military posts already established and occupied, including the extra-duty pay of enlisted men employed on the same, and including also all expenditures for construction and repairs required at the Army and Navy Hospital at Hot Springs, Ark., except quarters for the officers....	Feb. 12, 1895	28	661	1		100,000 00	45,000 00
NOTE.—This sum is in accordance with the estimate of the Surgeon-General of the Army, who says: "Owing to the dilapidated condition of a number of old wooden hospitals and the urgent necessity for the erection of modern buildings, the above amount is necessary." "The reduction made in this appropriation for the past few years has necessitated the scaling of estimates; each year finds the buildings more and more in need of extensive repairs and increased estimates result." "The erection of modern brick hospitals at permanent posts is economy and the sum asked for, if allowed, will permit the inauguration of such a policy."— <i>R. N. Batchelder, Quartermaster-General.</i>							
<i>Quarters for Hospital Stewards—</i>							
Construction of quarters for hospital stewards at military posts already established and occupied, including the extra-duty pay of enlisted men employed on the same.....	Feb. 12, 1895	28	661	1		10,000 00	7,000 00
NOTE.—This is in accordance with the estimate of the Surgeon-General of the Army, who says: "This amount is necessary and is the lowest sum which will meet the requirements."— <i>R. N. Batchelder, Quartermaster-General.</i>							
<i>Shooting Galleries and Ranges—</i>							
Shelter, shooting galleries, ranges for small arms target practice, repairs, and expenses incident thereto.....	Feb. 12, 1895	28	661	1		10,000 00	10,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. Clothing, and Camp and Garrison Equipage— Cloth, woollens, materials, and for the manufacture of clothing for the Army, for issue and for sale at cost price according to the Army Regulations; for altering and fitting clothing and washing and cleaning, when necessary; for equipage, and for expenses of packing and handling, and similar necessities. For a suit of citizen's outer clothing to cost not exceeding \$10, to be issued upon release from confinement to each prisoner who has been confined under a court-martial sentence involving dishonorable discharge..... Revised Army Reg's, 1889, p. 113, par. 1063. Feb. 12, 1895	R. S. 28	206 661	1133-5 1	\$1, 100, 000 00	\$1, 100, 000 00
Contingencies of the Army— For all contingent expenses of the Army not provided for by other estimates, and embracing all branches of the military service, to be expended under the immediate orders of the Secretary of War.....	Feb. 12, 1895	28	661	1	15, 000 00	15, 000 00
MEDICAL DEPARTMENT.							
Medical and Hospital Department— For the purchase of medical and hospital supplies, including disinfectants for general post sanitation, expenses of medical-supply depots, pay of employees, medical care and treatment of officers and enlisted men of the Army on duty at posts and stations for which no other provision is made; for the proper care and treatment of cases in the Army suffering from contagious or epidemic diseases, and the supply of the Army and Navy General Hospital at Hot Springs, Ark.; advertising and other miscellaneous expenses of the Medical Department, the amount to be expended for pay of civilian employees not to exceed \$40,000.....	Feb. 12, 1895	28	661	1	\$150, 000 00		
NOTE.—This is \$10,000 less than was appropriated last year, and it is believed that, by economical administration, it will prove to be sufficient.—Geo. M. Sternberg, Surgeon-General U. S. Army.							
Experimental cooking.....	Feb. 12, 1895	28	662	1	500 00	150, 500 00	160, 500 00
Army Medical Museum and Library— Army Medical Museum, preservation of specimens, and the preparation and purchase of new specimens..... Library of the Surgeon-General's Office.....	Feb. 12, 1895do.....	28	662	1	5, 000 00 10, 000 00	15, 000 00	13, 000 00
NOTE.—It has been found by practical experience that an appropriation of less than \$10,000 is insufficient to obtain all the new books and journals pertaining to science and practice of medicine published in the course of a year. This is the most complete medical library in this country and its value depends upon its completeness. If the annual appropriations are insufficient to obtain new books and journals it will soon become hopelessly incomplete, and it will no longer be useful to the medical profession as a source from which full information can be obtained upon any subject relating to medicine and surgery.—Geo. M. Sternberg, Surgeon-General U. S. Army.							
ENGINEER DEPARTMENT.							
Engineer Depot at Willets Point, New York— Incidental expenses of the depot, including fuel, lights, chemicals, stationery, hardware, extra-duty pay to soldiers necessarily employed for periods not less than ten days as artificers on work in addition to and not strictly in the line of their military duties, such as carpenters, blacksmiths, draftsmen, printers, lithographers, photographers, engine-drivers, teamsters, wheelwrights, masons, machinists, painters, overseers, laborers, repairs of, and for materials to repair public buildings, machinery, and unforeseen expenses.....	Feb. 12, 1895	28	662	1	5, 000 00		
Purchase of materials for use of United States Engineer School and for instruction of engineer troops at Willets Point in their special duties as sappers and miners for land and submarine mines, pontoneers, torpedo drill, and signaling, and for purchase of, and for forage for, one team of draft horses required in ponton, sapping, and mining instruction.....do.....				1, 000 00		
Purchase and repair of instruments to be issued to officers of the Corps of Engineers, and to officers detailed and on duty as acting engineer officers for use on public works and surveys.....do.....				3, 000 00		

[illegible]

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.

					5, 175 00		
					26, 455 50		
—T. H. Stanton, Paymaster-General, U. S. Army							

—T. H. Stanton, Paymaster-General, U. S. Army.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	Reference to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—</i>							
Repairs and improvements, namely: Timber, planks, boards, joists, wall strips, laths, shingles, slate, tin, sheet lead, zinc, nails, screws, locks, hinges, glass, paints, turpentine, oils, varnish, brushes, stone, brick, flag, lime, cement, plaster, hair, sewer and drain pipe, blasting powder, fuse, iron, steel, tools, machinery, mantels, and other similar materials, renewing roofs, and for pay of overseer and master-builder and citizen mechanics, and labor employed upon repairs and improvements that can not be done by enlisted men.....	Jan. 16, 1895	28	628,'9	1	\$25,000 00		
<p>NOTE.—This is \$5,000 in excess of the appropriation for the current year. In my opinion this is the least amount that will keep the buildings in a proper state of repair and make the usual improvements. The number of buildings is increasing each year and the amount appropriated for their repair should be correspondingly increased. Since the passage of the eight-hour law more mechanics have been necessary to accomplish the same results. The same law is applied to the Army-Service Detachment, and extra mechanics have to be employed to perform work that could formerly be done by them. The care of the increased number of buildings is a further drain on the detachment which also necessitates more mechanics to do work which the Army-Service Detachment would otherwise do. For these reasons I recommend that the full amount of this estimate, \$25,000, be allowed.—Capt. J. B. Bellinger, A. Q. M., U. S. Army.</p>							
Fuel and apparatus, namely: Coal, wood, charcoal, stoves, grates, heaters, furnaces, ranges and fixtures, fire-bricks, clay, sand, and for repairs of steam-heating apparatus, grates, stoves, heaters, ranges, and furnaces, mica.....do.....					22,000 00		
<p>NOTE.—The new Academy building has been occupied during the past winter, and it is found that the quantity of coal estimated as necessary for its proper heating is not sufficient for the purpose. With the sum asked for herein the Department will be enabled to properly heat this and the other public buildings of the Academy and, in addition, defray the legitimate and necessary expenses pertaining to the above appropriation.—Capt. J. B. Bellinger, A. Q. M., U. S. Army.</p>							
Gas pipes, fixtures, lamp-posts, gasometers and retorts, and annual repairs of the same.....do.....					1,500 00		
Fuel for cadets' mess hall, shops, and laundry.....do.....					3,000 00		
Postage and telegrams.....do.....					250 00		
Stationery, namely: Blank books, paper, envelopes, quills, steel pens, rubbers, erasers, pencils, mucilage, wax, wafers, folders, fasteners, rules, files, ink, inkstands, typewriting supplies, penholders, tape, desk knives, blotting pads, and rubber bands.....do.....					800 00		
Transportation of materials, discharged cadets, and ferriages.....do.....					1,750 00		
Printing: For printing and binding, type, materials for office, including repairs to motor and machinery, diplomas for graduates, annual registers, blanks, and monthly reports to parents of cadets.....do.....					1,000 00		
Clerk to the disbursing officer and quartermaster (increase of \$150 submitted).....do.....					1,500 00		
<p>NOTE.—In this connection I desire to call attention to the following note made by Capt. W. H. Miller, A. Q. M., U. S. Army, for the year 1896: "In connection with this estimate attention is respectfully invited to the recommendations for restoring the pay of this clerk, among others, noted in the Book of Estimates of Appropriations for 1893-94 (p. 111), and to the explanatory note accompanying the estimate submitted last year for pay of this clerk during the current fiscal year. For four years prior to July 1, 1892, the salary of this clerk was \$1,500 per annum. During the fiscal year ending June 30, 1893, it was \$1,200, and for the fiscal year ending June 30, 1894, it was placed at \$1,350, and it is continued at this rate for the current year. As this clerk's work is as important and as onerous as any clerical work performed at the Academy, and as Congress last year and this year restored to \$1,500 the salaries of similar clerks which were reduced in 1893, it seems to me a matter of justice to allow the small increase asked for in this estimate." I strongly indorse what Captain Miller has said, and earnestly recommend that the pay of this clerk be restored to \$1,500.—Capt. J. B. Bellinger, A. Q. M., U. S. Army.</p>							
Clerk to adjutant in charge of cadet records.....do.....					1,500 00		
One clerk to the adjutant (increase of \$200 submitted).....do.....					1,200 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.[illegible]

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Department of natural and experimental philosophy :							
Additions to apparatus to illustrate the principles of mechanics, acoustics, optics, and astronomy.....	Jan. 16, 1895	28	629	1	\$1, 000 00		
Books of reference, scientific periodicals, text-books, stationery, materials, and repairs.....	do.....				400 00		
Repairs to observatory buildings, repairs to clocks, and fittings to lecture room.....	do.....				450 00		
Pay of mechanic assistant.....	do.....				1, 000 00		
<i>NOTE.</i> —In the Military Academy appropriation bill for the fiscal year ending June 30, 1895, the items for apparatus and repairs to observatory buildings, etc., were reduced from \$1,000 and \$450, respectively, to \$800 and \$300. The estimate originally submitted by me were for the former amounts, but in an interview with the Superintendent, he stated that it was very desirable to reduce the estimates for that year. I consented to make application for the reduced amounts for that year only, and have since then always applied for the original amounts heretofore granted.—Prof. P. S. Michte, U. S. M. A.							
Department of instruction in mathematics :							
Repairs and materials for preservation of models and instruments.....	do.....				35 00		
Text-books, books of reference, binding, and stationery....	do.....				125 00		
Tables of logarithms.....	do.....				50 00		
One safe	Submitted.....				68 00		
Contingencies.....	Jan. 16, 1895	28	629, '30	1	25 00		
<i>NOTE.</i> —The changes from the appropriations of the previous year are as follows:							
<i>First.</i> The amount of tables of logarithms is increased from \$25 to \$50 because the tables in use are rapidly wearing out, and a larger number of new ones are required annually than can be purchased for \$25.							
<i>Second.</i> The items of the previous year for one drawing table, one drawing board, one steel ruler, one steel triangle, are omitted because no more are required at present.							
<i>Third.</i> The item for one safe, \$68, is additional, and is necessary for the safe-keeping of the numerous examination subjects and papers which the department has to deal with and for which it is responsible. The safe is a small one with a combination lock, not a thoroughly fire-proof one which would be much more expensive.—Prof. E. W. Bass, U. S. M. A.							
Department of history, geography, and ethics :							
Text-books, books of reference, maps and map fixtures, stationery, and repairs.....	do.....				150 00		
<i>NOTE.</i> —Slight changes are made in the wording of this appropriation in order to enable the department to obtain the exact supplies needed.—Capt. J. B. Bellinger, A. Q. M., U. S. Army.							
Department of chemistry, mineralogy, and geology :							
Chemicals, chemical apparatus, glass and porcelain ware, paper, wire, sheet metal, ores, photographic apparatus and materials.....	do.....				500 00		
Rough specimens, fossils, and for apparatus and material to be used in the practical determinations of mineralogical and geological specimens, pencils and paper for practical instructions in the same branches, and for gradual increase and improvement of the cabinet.....	do.....				900 00		
Repairs and additions to electric, magnetic, pneumatic, thermic, and optical apparatus.....	do.....				800 00		
<i>Provided,</i> That any of the above-named sums for the Department of chemistry, mineralogy, and geology, not expended for the purposes named may be used for fittings of the chemical rooms of the new academy building.							
Pay of mechanic employed in chemical and geological section rooms and in lecture rooms	do.....				1, 000 00		
Models, maps, and diagrams, books of reference, text-books, and stationery for the use of instructors	do.....				180 00		
Contingencies	do.....				100 00		
<i>NOTE.</i> —The estimate is made somewhat higher than that for the fiscal year ending June 30, 1896, in anticipation of certain essential improvements in the mineralogical and geological cabinet and of important additions to the dynamo-electric machinery, an alternate current machine (dynamo) and a motor being very desirable. With the suggested wording of the estimate it will be possible to make most economical use of the appropriation.—Prof. S. E. Tillman, U. S. M. A.							
Department of drawing :							
1. Drawing material for use of instructors, tacks, sponges, brushes, glue, alcohol, tumblers, saucers, towels, soap, ink, paint, stationery, etc., and contingent expenses.....	do.....				250 00		
2. Repairs to desks, stretchers, models, and materials.....	do.....				100 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Department of Drawing—Continued.							
3. Models in flat and relief for topographical, geometrical, mechanical, and free-hand drawing	Jan. 16, 1895	28	629, '30	1	\$250 00		
4. Photographic material and appliances for new gallery and enlarging room	do.				250 00		
5. Slides and apparatus for stereopticon to illustrate lectures	do.				250 00		
6. Books and periodicals.....	do.				100 00		
7. Binding periodicals, pamphlets, and loose sheets.....	do.				50 00		
8. Repair, cleaning, and reglazing of one hundred and thirty-two oak frames, and repair and regilding of picture frames of retained drawings, engravings, and models.	Submitted.....				200 00		
9. Reimbursing contractor for extra labor and material expended upon twenty-three large oak models forms for new drawing academies.....	do.				298 50		
10. Condensing lens for enlarging room	do.				120 00		
11. Objective for enlarging room	do.				108 00		
12. Eighty compasses for new reconnaissance sketching boards.....	do.				228 00		
NOTE.—The above estimates are carefully made with reference to equipping properly the new rooms of this department of instruction for effective work. Every item has been carefully considered, and those of a special nature are the result of much investigation and correspondence.							
The lecture room is essentially designed for illustration work, and it is proposed to complete sets of stereopticon slides for the various lectures of the course.							
The photographic material of item 4 and the objective and lens of items 10 and 11 are for the completion of the photographic and enlarging rooms equipment, and are necessary to make them effective for the reproduction and enlargement of maps and models. Item 12 is very essential to the completion of the new outfit for reconnaissance work in the field.—Prof C. W. Larned, U. S. M. A.							
Slight changes are made in the wording of the estimates under items 1, 2, 3, 4, 5, and 7, to enable the department to obtain the exact supplies and services needed.—Capt. J. B. Bellinger, A. Q. M., U. S. Army.							
Department of modern languages :							
Stationery, text-books, and books of reference for the use of instructors, for repairs of books and apparatus and for office furniture, and for printing examination papers, and for contingencies.....	Jan. 16, 1895	28	630	1	350 00		
Department of law :							
Stationery, text-books, books of reference, and books for use of instructors, and for binding and repairing the same, and furniture for office.....	do.				250 00		
Department of practical military engineering :							
Purchase and repair of instruments; transportation; purchase of tools, implements, and materials, and for extra-duty pay of engineer soldiers, as follows, namely : For instruments for use in instructing cadets in making reconnaissances; photographic apparatus and material for field photography; drawing instruments and material for platting reconnaissances; surveying instruments; instruments and material for signaling and field telegraphy; transportation of field parties; tools and material for the preservation, augmentation, and repair of wooden ponton, and one canvas ponton-bridge train; sapping and mining tools and material; rope; cordage; material for rafts and for spar and trestle bridges; intrenching tools; tools and material for the repair of Fort Clinton and the batteries at the Academy, and extra-duty pay of engineer soldiers, at fifty cents per day each, when performing special skilled mechanical labor in the department of practical military engineering, for models, books of reference, and stationery.....	do.				1,200 00		
The senior assistant instructor of practical military engineering shall have the pay and allowances of captain, mounted.....	Submitted.						
Department of ordnance and gunnery :							
Purchase and repair of instruments, models, and apparatus, and purchase of necessary materials; for the purchase of samples of arms and accouterments other than those supplied to the military service; for books of reference, text-books, stationery, and lithographic printing materials, and for contingencies	Jan. 16, 1895	28	630	1	450 00		

[illegible]

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
<i>Miscellaneous—Continued.</i>							
Extra pay of two enlisted men, employed as clerks in the offices of the adjutant, United States Military Academy, and commandant of cadets, respectively, at fifty cents and thirty-five cents per day.....	Jan. 16, 1895	28	631	1	\$284 25		
Extra pay of four enlisted men as printers, at headquarters United States Military Academy, at fifty cents each per day.....	do.				626 00		
Extra pay of one enlisted man, employed as watchman, at thirty-five cents per day.....	do.				159 60		
Extra pay of one enlisted man employed as trumpeter, at the cadet barracks, at thirty-five cents per day.....	do.				127 75		
Extra pay of one enlisted man, employed in the philosophical department observatory, as mechanic, at fifty cents per day.....	do.				156 50		
Extra pay of one enlisted man, employed in the chemical department, at fifty cents per day.....	do.				156 50		
Extra pay of one enlisted man, employed in the department of drawing, at fifty cents per day.....	do.				156 50		
Pay of twelve civilians, as janitors of public buildings and the several academic departments, at \$50 per month each.....	Submitted.....				7,200 00		
NOTE.—The detail of a sufficient number of men from the detachment of army-service men for the proper care of the increasing number of buildings has depleted the number of this detachment available for other necessary work, and for which civilians have to be employed. These men are required as follows:							
Academic building.....	5						
Headquarters and library.....	1						
Gymnasium.....	2						
Department of philosophy.....	2						
Department of chemistry.....	1						
Department of drawing.....	1						
Total.....	12						
Provided favorable action is taken on this estimate, the extra pay provided for in the three preceding paragraphs, for men detailed for the departments of philosophy, chemistry, and drawing, may be omitted, otherwise it should be retained.— <i>Capt. J. B. Bellinger, A. Q. M., U. S. Army.</i>							
Extra pay of two enlisted men (cavalrymen), when performing special skilled mechanical labor, at fifty cents each per day.....	Jan. 16, 1895	28	631	1	313 00		
Extra pay of one enlisted man employed as saddler, at fifty cents per day.....	do.				156 50		
<i>Provided,</i> That the extra pay provided by the six preceding paragraphs shall not be paid to any enlisted man who receives extra-duty pay under existing laws or Army Regulations.							
Expenses of the Board of Visitors, including mileage.....	do.				3,000 00		
Total of current and ordinary expenses.....						\$94,584 60	\$80,467 10
<i>Miscellaneous Items and Incidental Expenses—</i>							
Gas coal, oil, candles, lanterns, matches, chimneys, and wicking for lighting the Academy building, chapel, library, cadet barracks, mess hall, shops, hospital, offices, stables and riding hall, sidewalks, camp, and wharves.....	Jan. 16, 1895	28	631	1	5,000 00		
Water pipe, plumbing, and repairs.....	do.				2,000 00		
Cleaning public buildings (not quarters).....	do.				1,000 00		
Brooms, brushes, pails, tubs, soap, and cloths.....	do.				200 00		
Chalk, crayons, sponges, slate, rubbers, and card for recitation room.....	do.				300 00		
Compensation of chapel organist.....	do.				200 00		
Compensation of librarian.....	do.				120 00		
Pay of engineer of heating and ventilating apparatus for the academic building, the cadet barracks, and office building, cadet hospital, chapel, and philosophical building, including the library.....	do.				1,500 00		
Pay of assistant engineer of same.....	do.				1,000 00		
Pay of eight firemen.....	do.				4,800 00		
Pay of librarian's assistant (increase of \$300 submitted)....	do.				1,500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
Miscellaneous Items and Incidental Expenses—Continued.							
<p>NOTE.—The present incumbent, Dr. Otto Plate, is a most competent librarian and is fully deserving of this modest salary. He is an accomplished literary man and performs an amount of labor in the library that is more than worth the salary asked for. His predecessor received about \$1,400 per year, and while a worthy and faithful man, he could not be compared in point of usefulness with Dr. Plate. I would regard it as a serious misfortune to the academy if we were deprived of Dr. Plate's services.—<i>Prof. P. S. Michie, U. S. M. A., Librarian.</i></p>							
Pay of one superintendent of gas works	Jan. 16, 1895	28	631	1	\$1,500 00		
Pay of one civilian plumber.....	do.....				900 00		
Pay of assistant plumber	Submitted.....				600 00		
<p>NOTE.—The amount of work which is required to keep in order the plumbing at this post is so great that it is practically impossible for one plumber to do it without assistance. At present and during a great portion of the time an assistant or helper is employed by the day. It is very desirous that a man be employed permanently that he may become familiar with the plumbing and work, and thus enable the plumber to keep the water and sewerage systems in perfect and proper sanitary condition.—<i>Capt. J. B. Bellinger, A. Q. M., U. S. Army.</i></p>							
Pay of one scavenger, at \$60 a month	Jan. 16, 1895	28	631	1	720 00		
Pay of one electrician	do.....				900 00		
Pay of custodian of new academy building	do.....				1,000 00		
Keeper of the post cemetery	Submitted.....				1,000 00		
<p>NOTE.—Under the appropriation for maintaining and improving the grounds of the post cemetery during the last few years, the cemetery has more than doubled in size and the natural beauty of the grounds has been greatly increased. To continue the work and to properly maintain the grounds in their present fine condition requires the services of a person having a knowledge of landscape engineering and the cultivation of trees, shrubs, etc.</p> <p>For the fiscal year ending June 30, 1891, an appropriation of \$1,500 was made for a landscape gardener. For the years 1892, 1893, 1894, and 1895, an appropriation of \$500 was made for "the pay of a landscape gardener for such time as his services might be required." For the year ending June 30, 1896, a keeper of the cemetery was estimated for who was to be a landscape gardener. This appropriation was not made, nor was the usual \$500 provided for the temporary services of a gardener when required. This leaves the cemetery this year without a competent man to superintend improvements and the care of the grounds. His services are greatly missed. In my opinion, the employment of a keeper of the cemetery, as estimated, would be for the best interests of the service, and make it possible to maintain and continue to improve the cemetery in the manner which its location and associations demand. In case, however, this estimate is not approved, then the temporary services of a gardener should be provided for without fail.—<i>Capt. J. B. Bellinger, A. Q. M., U. S. Army.</i></p>							
Increase and expense of library, namely:							
Periodicals, stationery, binding books, and scientific, historical, biographical, and general literature, to be purchased in open market on the written order of the superintendent.....	Jan. 16, 1895	28	632	1	2,000 00		
Repairing books, and for furniture and contingencies.....	do.....				200 00		
<p>NOTE.—A slight change is made in the wording of this estimate from that submitted last year to enable the librarian to obtain the exact supplies needed.—<i>Capt. J. B. Bellinger, A. Q. M., U. S. Army.</i></p>							
Carpets and furniture for cadet hospital, and for repair of damaged articles.....	do.....				100 00		
<p>NOTE.—The amount is the same as appropriated for several years past, a slight change being made in the wording of the estimate in order to cover the articles and services needed.—<i>J. B. Bellinger, A. Q. M., U. S. Army.</i></p>							
Contingencies for superintendent of the Academy.....	do.....				1,000 00

UNDER THE DEPARTMENT OF THE INTERIOR.							
ARMY AND NAVY PENSIONS.							
<i>Army and Navy Pensions—</i>							
Army and navy pensions, as follows: For invalids, widows, minor children, and dependent relatives, army nurses, survivors and widows of the war of 1812 and with Mexico, and the survivors and widows of the Indian wars of 1832 to 1842, inclusive: <i>Provided</i> , That the appropriation aforesaid for navy pensions shall be paid from the income of the navy pension fund, so far as the same shall be sufficient for that purpose: <i>And provided further</i> , That the amount expended under each of the above items shall be accounted for separately.....	Mar. 2, 1895	28	703	1	\$140,000,000 00	\$140,000,000 00
<i>Fees and Expenses of Examining Surgeons—</i>							
Fees and expenses of examining surgeons.....	Mar. 2, 1895	28	703	1	800,000 00	800,000 00
<i>Salaries and Expenses of Pension Agencies—</i>							
Salaries and expenses of the several pension agencies, as follows:							
Salaries of eighteen agents for the payment of pensions, { at \$4,000 each.....	Mar. 3, 1885 Mar. 2, 1895	23 28	362 704	1 1	} \$27,000 00		
Clerk hire.....	Same acts.....					450,000 00	
Fuel.....do.....					750 00	
Lights.....do.....					750 00	
Rents.....do.....					23,070 00	
Rents (increase)	Submitted.....					3,000 00	
NOTE.—The increase in rents is necessary to maintain the efficiency of the Buffalo agency. The present quarters in the public building are inadequate to meet the demands of the service, the rooms in use being overcrowded with clerks and records, and in a generally unsanitary condition. The amount herewith submitted is for use in renting sufficiently commodious quarters in a private building, the Treasury Department being unable to assign any additional room.— <i>Wm. Lochren, Commissioner of Pensions.</i>

NOTE.—List of “* * * the number of persons employed outside of the District of Columbia, as superintendents, clerks, watchmen, and otherwise, and paid from appropriations for the construction of public buildings * * * ” during the fiscal year 1895, in accordance with the sundry civil act approved March 3, 1887 (24 Stat., p. 512), will be found in Appendix N. A statement of the expenditure of the appropriation for repairs and preservation of public buildings for the fiscal year 1895, in accordance with the sundry civil act approved August 30, 1890 (26 Stat., p. 374), will be found in Appendix O.								
Total Public Buildings under the Treasury Department						3,412,899 29	2,468,500 00	
LIGHT-HOUSES, BEACONS, AND FOG SIGNALS.								
NOTE.—The appropriations recommended are arranged for each district under the heads of fixed aids, floating aids, tenders, and other purposes. Under each of these separate heads the appropriations recommended for each district are arranged as nearly as practicable in the order of their necessity.								
First Light-House District.								
Fixed Aids.								
<i>Spring Point Ledge Light and Fog-Signal Station, Maine—</i> Finishing the establishment of a light and fog-signal station on Spring Point Ledge, Portland Harbor, Maine, in addition to the \$20,000, appropriated by the act approved on March 2, 1895.....	Mar. 2, 1895	28	915	1	25,000 00	20,000 00	
NOTE.—By the act approved on March 2, 1895, the sum of \$20,000 was appropriated toward establishing this station, and authority was given to contract therefor, not to exceed \$45,000, the amount the Board estimated it would cost. It is now recommended that the balance, \$25,000, be provided.								
<i>Whitlock's Mill Light-Station, Maine—</i> Establishing a permanent light at or near Whitlock's Mill on the south side of the St. Croix River, Maine.....	Submitted.....					250 00		
NOTE.—A light is needed here to enable steamers plying between Eastport and Calais to make the difficult turn in the Narrows. The main cost will be in meeting the legal expenses of obtaining title to the site.								
<i>Libby Islands Light-Station, Maine—</i> Construction of a keeper's dwelling.....	Submitted.....					6,000 00		
NOTE.—There are three keepers employed at this station. There is but one set of quarters. A double dwelling suitable for the two assistant keepers is urgently needed.								
<i>Boon Island Light-Station, Maine—</i> Construction of a keeper's dwelling	Submitted.....					3,400 00		
NOTE.—Three keepers are employed at this station. There are but two sets of quarters. Another set of quarters is needed.								
<i>Cape Elizabeth Light-Station, Maine—</i> Construction of a keeper's dwelling.....	Submitted.....					2,000 00		
NOTE.—Four keepers are employed at this station. There are now but three sets of quarters. Another set of quarters is needed.								

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
Matinicus Rock Light-Station, Maine— Construction of a keeper's dwelling..... <i>NOTE.</i> —Four keepers are employed at this station. They and their families are the only inhabitants of this rock. There are now but three sets of quarters for the four keepers. Another set is needed.	Submitted.....					\$3,200 00	
Burnt Coat Harbor Light-Station, Maine— Constructing a roadway to connect Burnt Coat Harbor light-station with the public road <i>NOTE.</i> —The light-keepers can not now reach the public road without crossing private property, the owners of which offer to convey right of way to the Government at a nominal price. The cost is thus reduced to the legal expenses of obtaining title and the labor of building the road.	Submitted.....					500 00	
Second District.							
<i>Tender.</i>							
Tender for the Second Light-House District— Constructing, equipping, and outfitting, complete for service, a new steam tender for buoyage, supply, and inspection in the Second Light-House District, Massachusetts; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the tender for which appropriation may be made; such draftsmen to be paid from the appropriation for building said vessel; such employment to cease and determine on or before the date when the plans for such vessel being finished, proposals for building said vessel are invited by advertisement..... <i>NOTE.</i> —The tender Geranium, which it is proposed the new tender shall replace, is so old and so frail that it is dangerous to expose her to rough weather. Thus, she is utterly incapacitated to do the busy work which is expected of her, except in fair weather. The interests of commerce and navigation of the Second Light-House District will suffer until this frail vessel is properly replaced.	Submitted.....					85,000 00	
Third District.							
<i>Fixed Aids.</i>							
Plum Beach Light and Fog-Signal Station, Rhode Island— Finishing the establishment of a light and fog-signal station at or near Plum Beach, Narragansett Bay, Rhode Island, in addition to the \$20,000 appropriated therefor by the act approved on March 2, 1895..... <i>NOTE.</i> —Congress, by the act approved on March 2, 1895, in which an appropriation of \$20,000 was made to begin the work, authorized a contract therefor not to exceed \$60,000.	Mar. 2, 1895	28	915	1		49,000 00	\$20,000 00
Fort Wadsworth Light and Fog-Signal Station, New York— Moving the light now at Fort Tompkins to Fort Wadsworth, both in the Narrows, New York Harbor, New York, and establishing a fog signal at Fort Wadsworth..... <i>NOTE.</i> —This change is needed because this light is now back of the point it is intended to mark. If placed as proposed it would better serve as a mark to the channel leading directly into New York Harbor. The proposed fog signal would be of special service to the large commerce going through the Narrows in thick weather.	Submitted.....					1,500 00	
Jeffreys Hook Light and Fog Bell, New York— Establishing a larger light and a fog bell at Jeffreys Hook, Hudson River, New York	Submitted.....					3,000 00	
Race Rock Light-Station, New York— Establishing a fog signal at Race Rock Light-Station, Long Island Sound, New York..... <i>NOTE.</i> —The enormous commerce of the Sound passes through this narrow race. A fog signal is extremely necessary on Race Rock as a protection to life and property.	Submitted.....					3,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Hog Island Shoal Light and Fog-Signal Station, Rhode Island—</i> Establishing a light and fog-signal station on or near Hog Island Shoal, Narragansett Bay, Rhode Island, to take the place of the light-vessel now there.....						\$35,000 00	
NOTE.—The light-vessel now there is old and weak and can not remain seaworthy for another year. It would cost, say \$70,000, to replace her with another light-vessel. A light-house can be built there for half that sum, and can be maintained when built for less than half the cost of maintaining the light-vessel.							
<i>Floating Aids.</i>							
<i>Fire Island Light-Vessel, New York—</i> Constructing, equipping, and outfitting, complete for service, a first-class steam light-vessel, with steam fog signal; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for this light-vessel for which appropriation may be made; such draftsmen to be paid from the appropriation for building said vessel; such employment to cease on or before the date when, the plans for such vessel being finished, proposals for building said vessel are invited by advertisement.....						80,000 00	
NOTE.—All transatlantic and many coastwise steamers and sailing vessels pass this point, one of the most important on our entire coast. Many wrecks have taken place here. There is no fog signal at Fire Island Light-House. If there was it would be of no use to off-shore vessels. A fog signal on a light-vessel 6 miles off shore would reach passing vessels and give them great assistance in determining their position for entering the harbor of New York.							
<i>Tender and Other Purposes.</i>							
<i>Tender for the Third Light-House District—</i> For a new steam tender for the engineer of the Third Light-House District, New York.....						85,000 00	
NOTE.—This tender is to take the place of an old side-wheel steamer which has been nearly worn out by service in Long Island Sound and on the seacoast of New York.							
<i>Staten Island Light-House Depot, New York—</i> Continuing the construction of the sea wall, rebuilding wharves, and dredging the basin at the general light-house depot at Tompkinsville, Staten Island, New York.....						25,000 00	\$25,000 00
NOTE.—By the act approved on March 2, 1895, \$25,000 was appropriated for continuing this work which has been in progress for several years. The sum of \$25,000 can be profitably expended for continuing the work during the fiscal year 1897.							
<i>Fourth District.</i>							
<i>Fixed Aids.</i>							
<i>Mahon River Light-Station, Delaware—</i> Establishing Mahon River Light-Station, Delaware, on a new site.....						8,500 00	
NOTE.—The constant washing away of the bank has made it necessary to remove and rebuild the light tower four times since 1831. The present station is threatened with early destruction. It is proposed to purchase a new and better site about 1,500 feet away, and place on it a skeleton wooden tower which can be moved when necessary.							
<i>Maurice River Range-Light Station, New Jersey—</i> Establishing a range-light station to mark the entrance to Maurice River from Delaware Bay, New Jersey.....						4,500 00	
NOTE.—It is claimed that some 500 vessels and 1,500 men are engaged in the oyster trade on this river, and that its commerce is constantly increasing.							
<i>Floating Aids.</i>							
<i>Overfalls Shoal Light-Vessel, New Jersey—</i> Constructing, equipping, and outfitting, complete for service, a first-class steam light-vessel, with steam fog signal; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the light-house vessel for which appropriation may be							

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
Overfalls Shoal Light-Vessel, New Jersey—Continued. made; such draftsmen to be paid from the appropriation for building said vessels; such employment to cease and determine on or before the date when, the plans for such vessel being finished, proposals for building said vessel are invited by advertisement..... NOTE. —The entrance to Delaware Bay is shoal on the northern side from Cape May to the Overfalls buoy and "steep to" at Cape Henlopen. This makes it the more necessary that the shoal be well marked by a light-vessel having a powerful fog signal.						\$70,000 00	
Relief Light-Vessel for the Fourth Light-House District— Constructing, equipping, and outfitting, complete for service, a first-class steam light-vessel, with steam fog signal; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the light-house vessel for which appropriation may be made; such draftsmen to be paid from the appropriation for building said vessel; such employment to cease and determine on or before the date when, the plans for such vessel being finished, proposals for building said vessel are invited by advertisement..... NOTE. —There are now four important light-vessels on important outside positions in the Fourth Light-House District. The only relief light-vessel in the district foundered during the cyclone of August, 1893, while on Five-Fathom Bank light-ship station. The Light-House Establishment had to charter a vessel to take her place at a cost of \$120 per day, until the light-vessel which belonged there could be repaired and resume her station. The interests of commerce and navigation urgently require that a new vessel be provided, to replace the wrecked vessel, at the earliest day practicable.						70,000 00	
Other Purposes.							
Edgemoor Light-House and Buoy Depot, Delaware— Repairing Edgemoor Light-House and Buoy Depot, Cherry Island, Delaware River, Delaware..... NOTE. —The wharves are in bad condition. The basin is so filled with mud that half is bare at low water. It should be dredged to a depth of 9 feet. The bulkhead wall should be rebuilt, and other repairs must be made, or the usefulness of the depot will be destroyed.						20,000 00	
Reimbursement of Losses of Seamen in the Light-House Service: Reimbursing the legal representatives of Howard Selover, mate, and George Richardson, mate, for value of clothing and effects lost when they were drowned on the occasion of the foundering of that light-vessel, No. 37, during the cyclone of August, 1893..... NOTE. —These men lost their lives in the service of their country. The least that can be done for their families, and the only thing proposed, is to pay them the value of the clothing and effects of the drowned men.						127 25	
Fifth District.							
Fixed Aids.							
Smiths Point Light-House, Chesapeake Bay, Maryland— Finishing the reestablishment of the light-house at Smith's Point, Chesapeake Bay, Maryland, carried away by ice, in addition to the \$25,000 appropriated by the act approved on March 2, 1895..... NOTE. —This light was at the mouth of the Potomac River. Authority was given in the act approved on March 2, 1895, in which \$25,000 was appropriated to contract for the work at a cost not to exceed \$80,000.	Mar. 2, 1895	28	916	1		55,000 00	\$25,000 00
Rappahannock River, Additional Lights, Virginia— Establishing four additional lights in the Rappahannock River, one to be at or near the entrance to Carters Creek, one on or near Sharp's Wharf, near Suggetts Point, one on or near Tappahannock Wharf, and one on or near Naylor's Wharf..... NOTE. —The river is inadequately lighted. Steamers loaded with fruits and vegetables have to tie up at night for lack of lights.						3,300 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stat. at Large, or to Revised Statutes.			Estimated amt. required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Floating Aids.</i>							
<i>Cape Lookout Shoals Light-Ship, North Carolina—</i> Constructing, equipping, and outfitting, complete for service, a first-class steam light-vessel with a steam fog signal; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the light-house vessel for which appropriation may be made during the Fifty-third Congress; such draftsmen to be paid from the appropriation for building said vessel; such employment to cease and determine on or before the date when, the plans for such vessel being finished, proposals for building said vessel are invited by advertisement.....	Submitted.....					\$70, 000 00	
NOTE.—A more powerful light is needed to warn vessels off these shoals, which extend 12 statute miles out from the pitch of the cape. It is impracticable to extend the light from the light-house much farther, as the tower is now 150 feet high. The establishment of a light-ship with a steam fog signal off the outer end of the shoals is now deemed a necessity.							
<i>Other Purposes.</i>							
<i>Lazaretto Point Light-House Depot, Maryland—</i> Construction of a dwelling for the accommodation of the keeper of the Lazaretto Point Light-House Depot.....	Submitted.....					2, 500 00	
NOTE.—The quarters now occupied by the keeper are in the warehouse; they are unsuitable and uncomfortable. It would cost nearly as much to make the present quarters habitable as it would to build a new dwelling, even if the room thus occupied was not required for other purposes. The depot keeper must be constantly on the spot, and therefore can not live away from the premises.							
<i>Portsmouth Light-House Depot, Virginia—</i> Repairs to the buildings, and for extending the wharf along the water front.....	Submitted.....					15, 000 00	
NOTE.—The buildings are greatly out of repair. The present wharf is in such condition as to make its use dangerous. The wharf and sea wall should be extended so as to cover all the lately acquired water front.							
<i>Sixth District.</i>							
<i>Fixed Aids.</i>							
<i>Cape Fear Light-Station, North Carolina—</i> Establishment of a first-order light-station at or near the pitch of Cape Fear, North Carolina.....	Submitted.....					70, 000 00	
NOTE.—The present Cape Fear (Bald Head) light, because of its inland location and lack of height, is inadequate as a proper aid to navigation. The interests of commerce require that a first-order light be established, on or near the pitch of Cape Fear, at the earliest date practicable.							
<i>Cape Fear River Range Lights, North Carolina—</i> Establishing range lights on the Cape Fear River in addition to those now there to guide through newly dredged channels.....	Submitted.....					3, 105 00	
NOTE.—The channels which the Government has dredged in Cape Fear River at large expense will be of little use at night until these lights are established.							
<i>Inside Passage Beacon Lights, Georgia and Florida—</i> Establishing beacon lights in the Inside Passage from Savannah, Ga., to Fernandina, Fla.....	Submitted.....					4, 000 00	
NOTE.—This passage, which runs nearly parallel with the ocean, is largely used in daylight by river steamers and small craft not strong enough to go to sea. The establishment of some twenty-five post lights would make it almost equally navigable by night.							
<i>Other Purposes.</i>							
<i>Reimbursement of Losses of Light-Keepers in the Sixth Light-House District—</i> Reimbursement of keepers of lights, the officers and crew of a light-vessel, and the keeper of a buoy depot in the Sixth Light-House District for personal losses sustained during the cyclones of August, 1893, while on duty.....	Submitted.....					2, 399 13	
NOTE.—The sworn list of losses has been itemized, approved and indorsed by the Light-House inspector, an officer of the Navy, who, in recommending payment, stated that these men had displayed much devotion to the service and had incurred great personal danger.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Galveston Jetty Light-Station, Texas—Continued.</i> some changes necessary in the means now in use of lighting the entrance. It is proposed to establish a new third-order light with a fog signal near the outer end of the south jetty, and to change the character of the Bolivar Point light from a second-order fixed white light to a five-second flash light, and to change the position of the Galveston light-ship.							
<i>Sand Island Light-Station, Alabama—</i> Protecting the site of Sand Island Light off Mobile Point, Gulf of Mexico, Alabama.....	Submitted.....					\$12,000 00	
NOTE.—The island is being washed away. The tower is in danger of being undermined and overthrown. The site should be protected to save the tower.							
<i>Red Fish Bar Light-Station, Texas—</i> Reestablishing Red Fish Bar Light-Station, Texas, on the edge of Red Fish Bar Cut.....	Submitted.....					8,000 00	
NOTE.—The light as now placed is of little service to commerce. It should be placed on the edge of the dredged channel which has been made since the establishment of the light.							
<i>Horn Island Pass and Round Island Northwest Spit, Mississippi Sound, Mississippi—</i> Establishing beacons at Horn Island Pass and the Northwest Spit of Round Island, Mississippi Sound, Mississippi.....	Submitted.....					1,300 00	
NOTE.—The establishment of day beacons would be of great benefit to the many vessels using the contiguous waters.							
<i>Other Purposes.</i>							
<i>Reimbursement for Losses of Light-Keepers in the Eighth Light-House District—</i> Reimbursing keepers of light-stations in the Eighth Light-House District for losses of personal property sustained while on duty at light-houses during the hurricane of October 1, 1893.....	Submitted.....					2,603 62	
NOTE.—Sworn itemized statements, approved by the officer of the U. S. Navy who was inspector of the Eighth Light-House District at the time the hurricane occurred, were submitted by the Secretary of the Treasury to the Speaker of the House of Representatives, in his letters of March 7 and April 3, 1894, with favorable recommendation.							
<i>Ninth District.</i>							
<i>Fixed Aids.</i>							
<i>Manistique Light-House and Fog Signal, Michigan—</i> Establishing a light-house and fog signal on or near Pointe aux Barques, Lake Michigan, Michigan.....	Submitted.....					32,000 00	
NOTE.—There is a space of 13¾ miles off Pointe aux Barques not covered by any light.							
<i>Menominee Light and Fog-Signal Station, Michigan—</i> Establishing a fog signal at Menominee Light-Station, Green Bay, Lake Michigan, Michigan.....	Submitted.....					5,000 00	
NOTE.—The increase in the number and size of vessels frequenting the harbor makes the establishment of a fog signal here necessary to the safety of navigation.							
<i>Grand Traverse (Cat Head) Light and Fog-Signal Station, Michigan—</i> Establishing a fog signal at Grand Traverse (Cat Head) Light-Station, Lake Michigan, Michigan.....	Submitted.....					5,500 00	
NOTE.—The establishment of a fog signal here is deemed necessary to the safety of the commerce navigating these waters.							
<i>Escanaba Fog Signal, Michigan—</i> Establishing a fog signal at Escanaba Light-Station, on or near Sand Point, Lake Michigan, Michigan.....	Submitted.....					5,000 00	
NOTE.—A fog signal at this station would be a valuable aid to navigation.							
<i>Michigan City Light-Station, Indiana—</i> Establishing a fog signal at Michigan City Light-Station, Indiana.....	Submitted.....					5,500 00	
NOTE.—A fog signal is needed here to supplement the light in thick weather. It will guide vessels by day in fog, as the light does in the darkness of the night.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Grosse Isle South Channel Range-Light Station, Michigan—</i> Building a dwelling for the light-keeper at Grosse Isle Range-Light Station, Detroit River, Michigan.....	Submitted.....					\$5,000 00	
NOTE.—The light-keeper is now living in a dwelling belonging to the Service on Mamajuda Island, which is on the opposite side of the channel, at quite a distance from his station. This is not only inconvenient, but dangerous. A house should be provided for the keeper on Grosse Isle, that he may not have to leave the island.							
Eleventh District.							
<i>Fixed Aids.</i>							
<i>Portage Lake and River Lights, Michigan—</i> Establishing lights on Portage Lake, Portage Lake Ship Canal, and Portage River, Lake Superior, Michigan.....	Submitted.....					10,500 00	
NOTE.—The canal, lake, and river afford a waterway through the Keweenaw peninsula, saving a long and dangerous voyage around it. The canal, heretofore (State) private property, has lately been acquired by the Government, and is being improved by the War Department. These lights are needed to make this waterway available at night. Private lights were heretofore maintained on the canal.							
<i>Big Sable Fog Signal, Michigan—</i> Establishing a steam fog signal at Big Sable Light-Station, Michigan.....	Authorized Feb. 15, 1893	27	453	1		5,500 00	
NOTE.—A steam fog signal is needed to complete this important light-station. The entire traffic of Marquette, claimed in 1890 to be some 1,772,400 tons, passes close to this station. During southerly gales the whole commerce of Lake Superior is forced to hug the southern shore.							
<i>Lake St. Clair Lights, Michigan—</i> Lighting the new dredged channel through Lake St. Clair, Michigan.....	Submitted.....					20,000 00	
NOTE.—This channel, which has been dredged out at the expense of the Government, will be of little use at night, unless it is lighted.							
<i>Devils Island Light-Station, Wisconsin—</i> That the unexpended balance, or so much thereof as may be necessary, not exceeding \$4,000, of the appropriation of \$22,000, made in the act approved March 2, 1895, for constructing a permanent tower at Devils Island Light and Fog-Signal Station, Wisconsin, be applied to the construction of a light-keeper's dwelling at the said Devils Island Light and Fog-Signal Station (authority).....	Mar. 2, 1895	28	916	1			
NOTE.—Several appropriations have been made as needed for the establishment of a light and fog-signal station at Devils Island, Wisconsin. It was intended that they should cover the erection of a light-keeper's dwelling. It is found that the wording of the appropriations preclude this. The balance which will remain will be sufficient. Authority is asked to use it for this purpose.							
<i>Floating Aids.</i>							
<i>Poe Reef Light-Ship, Straits of Mackinac, Michigan—</i> Constructing, equipping, and outfitting complete for service a steam light-vessel with steam fog signal... {	Authorized Feb. 15, 1893	27	453	1		25,000 00	
NOTE.—The entire commerce of the Straits of Mackinac, said in 1890 to amount to 11,222,000 tons of freight, passes dangerously near this reef. It will cost much less to place a light-ship here, which can be removed at the close of navigation. A cheaply built vessel, which is needed elsewhere, is maintained at Poe Reef pending the passage of this act, which was authorized by the act approved on February 15, 1893.							
Twelfth District.							
<i>Fixed Aids.</i>							
<i>Point Arguello Light and Fog-Signal Station, California—</i> Establishing a light and fog-signal station at or near Point Arguello, seacoast of California.....	Submitted.....					35,000 00	
NOTE.—This is a prominent point about 12 miles north of Point Conception, and one of the foggiest regions of the Pacific coast. A sharp bend in the coast here makes it particularly desirable that proper aids should be established.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Battery Point Light and Fog-Signal Station, Puget Sound, Washington—</i> To establish a fog bell with suitable dwelling, including site	Submitted.....					\$6,000 00	
NOTE.—There is a post light here now on a leased site. It is a very foggy place, and is a danger to vessels running between Seattle and Tacoma. The establishment of a fog signal will require the services of a resident keeper, and hence the need for a keeper's dwelling.							
<i>Point Brown Beacon Light and Fog-Signal Station, Puget Sound, Washington—</i> To establish a fog bell with suitable dwelling, including site	Submitted.....					6,000 00	
NOTE.—This beacon light is on a leased site. Heavy fogs close in here at short notice. It is an important turning point for the numerous crafts plying between Tacoma and points down the sound. The establishment of a fog signal here will require the services of a resident keeper, and this will make it necessary to provide for him a suitable dwelling.							
<i>Tongue Point Light-House Depot, Washington—</i> Erecting two isolated houses in which to store coal oil for use in the light-houses of the Thirteenth Light-House District, with a track extending from them to the depot wharf	Submitted.....					2,000 00	
NOTE.—These buildings are needed that the oil may be stored at such distance from the other depot buildings that it may not endanger them.							
<i>Destruction Island Light-Station, Washington—</i> Erecting a keeper's dwelling at Destruction Island, Pacific Coast, Washington.....	Submitted.....					5,000 00	
NOTE.—There are insufficient accommodations for the four light-keepers and their families.							
<i>New Dungeness Light-Station, Washington—</i> Building a light-keeper's dwelling at New Dungeness Light-Station, Strait of Juan de Fuca, Washington.....	Submitted.....					4,000 00	
NOTE.—The present keepers' dwellings are insufficient for the keepers and their families.							
<i>Floating Aids.</i>							
<i>Umatilla Reef Light-Ship, off the Strait of Fuca, Washington—</i> For finishing the construction of, equipping, and outfitting a steam light-ship, with steam fog signal, to be established at or near Umatilla Reef at the Flattery Rocks, off the Strait of Fuca, Washington, in addition to the \$40,000 appropriated therefor by the act approved on March 2, 1895	Mar. 2, 1895	28	916	1		40,000 00	\$40,000 00
NOTE.—Congress, by the act approved on March 2, 1895, in which an appropriation of \$40,000 was made to begin the work, authorized a contract therefor not to exceed \$80,000.							
<i>General.</i>							
<i>Oil Houses for Light-Stations—</i> Establishing isolated oil houses for the storage of mineral oil.....	Mar. 2, 1895	28	917	1		10,000 00	5,000 00
NOTE.—The introduction of mineral oil into general use in the Light-House Service greatly increase the danger from fire and necessitates greater storage capacity. As there are no proper means at present of storing the large quantities for annual supply, it is proposed to erect small buildings entirely separated from any others, thus avoiding the danger from fire as far as possible. (The sum of \$7,500 was appropriated for this object by act of March 3, 1893, for the fiscal year 1894.)							
Total for Light-Houses, Beacons, and Fog Signals.....						1,433,985 00	135,000 00
Total Public Works under Treasury Department....						4,846,884 29	2,603,500 00

<i>Buildings and Grounds, Government Hospital for Insane—Cont'd.</i> for gas heaters where they are in use, and going farther than this, to place one in every dining room in the hospital. They afford a safe and perfect method of keeping the food warm, as they generate the heat only at the point where it is needed; the opposite of which has been the great objection to the use of steam tables in summer time. In two wards of the main building it becomes necessary to renew the floors. In a hospital for the insane the danger from fire should be reduced to a minimum, and if not so in the original structure, then whenever important changes are made. The cost of relaying floor in each ward on steel beams and fireproofing is estimated at \$1,200. Two thousand four hundred dollars is asked for both. With the enlargement of the colony at the new farm on the completion of the new buildings it becomes necessary to provide a kitchen and dining hall large enough for present wants and to admit of some future growth. It is estimated that a suitable kitchen with dining hall attached can be provided for \$2,500 that will be ample for 100 persons.

		Vol. or R. S.	Page.	Sec.			
<i>Watervliet Arsenal, West Troy, N. Y.—Continued.</i> required repairs for some years. The wall sustains the wharf, and its repair should be commenced as soon as practicable.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
<i>Watertown Arsenal, Watertown, Mass.—</i> General care and improvement of buildings, grounds, roads, fences, river shore, sewers, and water supply.....	Submitted.....				\$5,000 00		
NOTE.—This arsenal has become so enlarged and important to the United States that the allowance heretofore made does not suffice to keep it up, and it is not possible to make necessary repairs to the buildings and the required enlargement of sewers, water mains, and roads, to lay pavements, etc. The arsenal has a frontage of about 4,000 feet on Arsenal street, 550 on Prospect street, and 2,100 feet on both sides of North Beacon street, all being main roads. The fencing along these roads requires renewal. The arsenal has a river front a mile in length, which should be put in good condition.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
One double set of noncommissioned officers' quarters for sergeants.....	do.....				3,500 00		
NOTE.—There are now no suitable quarters for married non-commissioned officers at this arsenal. An old wooden building is being used for this purpose, but is so decayed as to be irreparable, and is inconveniently located and unhealthy.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Manufacture and erection of an impact testing machine.....	do.....				5,000 00	\$13,500 00	
NOTE.—Dynamic effects experienced by many classes of materials in actual service have not as yet been systematically investigated, and important results may be expected to follow inquiries in this direction. An impact machine, in order to fully meet the requirements of dynamic testing, should be provided with facilities for determining the resistance of materials subjected to high impact, such as the component parts of railway structures and gun carriages. Such a machine would serve to give data for solution of questions as to what composition of material best enables it to resist shock or impact blows to test the shock resistance of parts of gun carriages, the effect of shock on material at different temperatures. These and other important problems require a much more thorough investigation than they have had, and the machine estimated for would serve to accomplish these objects.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
<i>Testing Machine—</i> Purchase of, labor and material in caring for, preserving, and operating the United States testing machine, including such new tools and appliances as may be required.....	Mar. 2, 1895	28	943	1	10,000 00		
Hire of chemist and maintenance of chemical laboratory..	Submitted.....				1,875 00	11,875 00	\$10,000 00
<i>Powder Depot, Dover, N. J.—</i> Spring wagons for hauling powder, cartridges, and other ammunition, and one pair heavy draft animals.....	Submitted.....					600 00	
NOTE.—The powder is now hauled to and from the magazines in wagons without springs, which subjects it to unnecessary and what might be dangerous jolting. One of our horses and a mule are very old and unfit for the heavy hauling required of them. They should be sold and replaced by a pair of young and strong animals.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
<i>Repairs of Arsenals—</i> Repairs and improvements at arsenals, and to meet such unforeseen expenditures as accidents or other contingencies during the year may render necessary	Mar. 2, 1895	28	943	1		50,000 00	45,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
Armament of Fortifications—Continued.							
its requirement that these one hundred guns should be purchased at a higher price than their cost of production at the gun factory. It is now estimated that the completed capacity of the gun factory will permit the production of all of the above guns remaining to be manufactured in about twelve years. The carriages should be produced as rapidly as the guns, and therefore the annual appropriation that would be required to produce the whole armament in twelve years would be one-twelfth of the above total cost, viz, \$3,718,050.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
For 8, 10, and 12 inch guns manufactured by contract under the provisions of the fortifications acts approved August 18, 1890, and February 24, 1891.....	Mar. 2, 1895	28	704,'5	1	\$497,449 00		
NOTE.—Under its contract of November 7, 1891, the Bethlehem Iron Company should deliver by June 30, 1897, nine 8-inch, nine 10-inch, and four 12-inch guns, the cost of which, with ammunition for proof, will be..... \$697,691 Toward this there has been appropriated under previous fortifications acts 200,242 Leaving a balance to be appropriated of..... 497,449 — <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Necessary expenses, other than for powder and projectiles, incident to the test and inspection of the twenty-five 8-inch, fifty 10-inch, and twenty-five 12-inch guns provided under the fortifications acts of August 18, 1890, and February 24, 1891, and as provided for by said act of February 24, 1891.....	do.....				5,000 00		
NOTE.—By the fortifications act of February 24, 1891, the sum of \$50,000 was set apart for defraying the incidental expenses cited above, and of this amount \$10,000 was appropriated by the fortifications act of July 23, 1892. The latter sum is now about exhausted, a large part of it having been expended for the necessary instruments and gauges required for inspection, and the balance to cover other expenses incident to the inspection or test.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Steel field guns of 3.2-inch caliber.....	do.....				25,000 00		
NOTE.—To manufacture about twenty-five guns, including the steel forgings therefor. The appropriations already made provide about two hundred and fifteen 3.2-inch steel field guns. This estimate is submitted in pursuance of the Department's policy to provide for the manufacture of a limited number of field guns each year, in order that a reserve supply may be thus gradually accumulated, to be available in case of emergency. This appropriation will also prevent the closing up of the very efficient field-gun plant that has been established at the Watervliet Arsenal.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Carriages for field-gun batteries.....	do.....				61,000 00		
NOTE.—To provide about twenty-five carriages, complete, with limbers and caissons each, and six combined battery wagons and forges with tools, for the equipment of the twenty-five 3.2-inch guns under the preceding item. The appropriations made for field carriages by the fortifications acts of July 23, 1892, and August 1, 1894, were sufficient to procure only about half the number of carriages required for the guns provided for by the same acts, thus leaving a deficiency of twenty-five carriages and caissons each and three combined battery wagons and forges. This deficit will remain until the necessary additional appropriation therefor of \$56,000 is made.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Steel field mortars of 3.6-inch caliber.....	do.....				15,040 00		
Carriages and platforms for steel field mortars of 3.6-inch caliber, including implements and equipments.....	do.....				6,060 00		
NOTE.—Estimated to procure about twenty 3.6-inch field mortars with their carriages, complete. The Department has already completed sixteen of these mortars and has ten more now under manufacture. It is very important to procure a sufficient number for issue to the service for the instruction of artillery troops.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Limbers, implements, and equipments for steel breech-loading rifles, siege, of 5-inch caliber, and for steel breech-loading rifled howitzers of 7-inch caliber.	July 23, 1892 Submitted	27	258	1	17,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
Armament of Fortifications—Continued.							
for the purchase of about seven hundred and forty-five of these steel shell. The number now estimated for will make in all sixteen hundred and eighty shell, which will provide twelve shell apiece for each of the mortars now on hand, and those included in these estimates—in all, one hundred and forty mortars. A limited supply of efficient deck-piercing shell should be provided for use, to be held in reserve for emergencies. The ordinary cast-iron shell break up when fired against steel protective decks.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Steel armor-piercing shot for seacoast breech-loading guns. NOTE.—Estimated to purchase about four hundred and two 8-inch, one hundred and twenty-two 10-inch, and fifty 12-inch shot at present contract price of 41 cents per pound. Under the appropriations thus far made, and amounting to \$370,000, the Department has placed contracts with the Midvale & Carpenter Steel Works for the following quantities of these armor-piercing shot: 8-inch shot, 318; 10-inch shot, 526; 12-inch shot, 329. These projectiles, with those now estimated for, will provide twelve armor-piercing shot apiece for as many guns as there are carriages completed, under manufacture, or provided for in these estimates, in all: Sixty 8-inch, fifty-four 10-inch, twenty-nine 12-inch. Projectiles of this type must possess great resistance and hardness to penetrate modern armor, are difficult to make, and a great deal of time is required for their manufacture and test, lots being not infrequently rejected in testing. It is deemed of great importance, therefore, to make timely provision for a sufficient supply to meet emergencies that may arise.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>	Mar. 2, 1895	28	704,5	1	\$98,738 00		
The purchase and erection of armor plates for testing armor-piercing shot..... NOTE.—These plates are for proving the armor-piercing shot provided for under the preceding item. The estimate is sufficient to procure the plates, including their backing and cost of erection. The plates are 1½ calibers thick as respects the projectiles for which they are required. The number of plates required: For 402 8-inch shot, one 9-inch plate; for 122 10-inch shot, one 11¼-inch plate; for 50 12-inch shot, one 13½-inch plate. Total cost.....\$29,949 00 Funds on hand.....17,309 00 Balance12,640 00 The 13.5-inch plate will suffice for testing two more lots of 12-inch shot under a future contract, and the 11.25-inch plate for the same additional number of 10-inch shot.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>do.....				12,700 00		
The services of a chemist in investigating properties of smokeless powders and high explosives, with a view to improving same for adoption in service..... NOTE.—It can hardly be said that any of the numerous varieties of smokeless powders or high explosive compounds at present on the market are wholly satisfactory for military use. Further investigations and improvements are still necessary in order to secure that end. The Department is now engaged in carrying on such investigations, but the work is delayed through lack of proper facilities, particularly from the want of the services of a trained chemist to assist the officers of the Department who are charged with this work, and much of whose time is occupied with other technical questions pertaining to this subject or to their general duties. The above item is to supply this want, and the appropriation, if made by Congress, will greatly facilitate and expedite the solution of the important questions that must be met in establishing a suitable smokeless powder for service and a suitable bursting charge for high-explosive shell.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>	Submitted.....				1,500 00	\$4,876,443 00	\$1,139,150 00
Proving Ground, Sandy Hook, New Jersey—							
Current expenses and maintenance of the ordnance proving ground, Sandy Hook, New Jersey, including general repairs and alterations and accessories incidental to testing and proving ordnance, including hire of assistants for the Ordnance Board, skilled mechanical labor, purchase of instruments and other supplies, building and repairing butts and targets, clearing and grading ranges..... Necessary expenses of officers while temporarily employed on ordnance duties at the proving ground and absent from their proper stations, at the rate of \$2.50 per diem while so employed, and the compensation of draftsmen while employed in the Army Ordnance Bureau on ordnance construction..... In all	Mar. 2, 1895	28	706	1	27,000 00		
do.....				8,000 00		
					\$35,000 00		
NOTE.—The work included under these estimates is of the most important character as respects the development, trial, and proof of guns, carriages, and other material for coast defense, and the investigation of all questions pertaining thereto. It is of the utmost importance that the work at the proving							

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R.S.	Page.	Sec.			
Proving Ground, Sandy Hook, New Jersey—Continued. ground should not be hampered through want of sufficient appropriations, as any delay in the experimental or testing work causes delays in all branches of the department. The increasing volume of work at this post has necessitated a corresponding increase in the annual estimates.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Purchase of ties for repair of railroad tracks.....	Mar. 2, 1895	28	704,'5	1	\$3,000 00	\$38,000 00	\$37,000 00
NOTE. —These ties are for the track purchased from the Central Railroad of New Jersey. The ties now on the tracks are rapidly deteriorating and must be renewed if the railroad is to be maintained. The maintenance of this railroad in good running order by the expenditure of a small sum per annum results in an actual saving to the Government in the cost of transportation of Government stores to and from the proving ground of from \$25,000 to \$50,000 per annum.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Watertown Arsenal, Watertown, Mass.— Enlargement and improvement of gun-carriage plant, including the purchase and setting up of an additional 150-horsepower steam engine, resetting and necessary enlargement of boilers, steam-heating arrangements for new setting-up shop, foundry, and foundry-extension machine shop, and necessary new machine tools and appliances.....	Mar. 2, 1895 Submitted.....	28	706	1	} 31,000 00		
NOTE. —The boilers should, for convenience and economy of labor, be reset perpendicularly to their present location. An additional 150-horsepower engine is needed to replace the present one in case repairs are needed to it, also to supplement its power. The additional power may be required at any time. The foundry, foundry-extension machine shop, and the new erecting shop are insufficiently heated by temporary arrangements. The character of the work at this arsenal is steadily enlarging and changing, requiring new tools and appliances right along at present.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Rebuilding and enlarging the arsenal wharf upon the Charles River.....	do.....				12,500 00	43,500 00	30,000 00
NOTE. —The present wharf was built some seventy-five years ago, and has been in use ever since for the receipt of stores coming from and going to points upon the seacoast where water transportation would be most economical or convenient. It is necessary to maintain facilities for water communication, as our carriages are now at the limit of rail transportation in size, and some of them beyond it for certain points. The wall was built originally of rubble or rough masonry work, except some two or three top courses, and the action of the tide (12 or 14 feet rise and fall) and the freezing of the river in winter have washed all cement from the face of the wharf, leaving the stones hanging loosely one upon another. Last winter particularly weakened it so that the entire wharf may tumble into the river any day. It would not be safe to put any heavy load, as a gun carriage, upon it. In its present condition it is practically useless, and even dangerous. A cofferdam will have to be built about it, the entire wharf torn down and rebuilt with heavy dressed stones, tied here and there. There will be a railroad track from the wharf to the shops, and the wharf should be lengthened to admit of several cars and two or more boats at a time.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Watervliet Arsenal, West Troy, N. Y.— Increasing the present water-service system to supply post and shops with pure drinking water.....	Submitted.....					3,105 00	
NOTE. —An ample system of water supply for manufacturing purposes has been provided, but this water is not suitable for drinking. It is now proposed to erect a new tank and lay a new pipe line to supply drinking water to quarters, shops, offices, barracks, and hospital. This water is to be filtered twice. The proposed new tank and main will allow a complete division of the distribution systems for manufacturing and for domestic purposes. Water for the latter service is now obtained from a well and carried to the quarters, offices, etc., in casks several times daily. It is a precarious source of supply and should be changed without delay.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Benicia Arsenal, Benicia, Cal. Construction of gun platforms, for material, grading, and laying of spur track to platform, and for firing butt.....	Submitted.....					4,500 00	
NOTE. —This item is to provide firing facilities for testing powder, to be received under contract, made on the Pacific Coast.— <i>D. W. Flagler, Brig. Gen., Chief of Ordnance.</i>							
Board of Ordnance and Fortification— To enable the Board to make all needful and proper purchases, experiments, and tests to ascertain, with a view to their utilization by the Government, the most effective guns, small arms, cartridges, projectiles, fuses, explosives, torpedoes, armor plates, and other implements and engines of war, and to purchase or cause to be

One attendant on top floor, at \$60 per month.....	do.....				720 00		
Three night and day watchmen, at \$60 per month each ..	do.....				2,160 00		
<i>Fuel, lights, repairs, contingencies, etc.:</i>							
Fuel, lights, oil, waste, packing, tools, matches, paints, brushes, brooms, lanterns, rope, nails, screws, lead, electric lights, heating apparatus, oil stoves for elevator car and upper and lower floors, repairs to engines, boilers, dynamo, elevator, and repairs of all kinds connected with the Monument and machinery, and purchase of all necessary articles for keeping the Monument, machinery, elevator, and electric-light plant in good order.....	do.....				3,000 00		
						12,060 00	11,520 00
NOTE.—A full explanation of the necessity for the new work and for the increase over the appropriations for the present fiscal year will be found in Appendix G.							
In submitting these estimates, I earnestly recommend that the various items under the heading of "Improvement and Care of Public Grounds" be aggregated under one head, and while each item of work shall be named, the whole shall be covered by a general sum, not a specific sum for each item. This is done in other departments of the Government, particularly the Quartermaster's Department of the Army. It saves quite an amount of clerical labor by permitting the preparation of accounts under one heading, rather than under about thirty; moreover, it permits small balances which might be saved from one item to be used in some other equally necessary and important work.							
This recommendation is based strictly upon business principles and is for the purpose of reducing clerical labor and expediting the progress of the work.—W. P. Craighill, Brig. Gen., Chief of Engineers.

<i>Buildings and Grounds, Military Academy—Continued.</i>							
Cases, materials, fittings, fixtures, and other appliances, for ordnance museum in new Academy building.....	Submitted.....				\$1,000 00		
NOTE.—The Military Academy has belonging to its museum a valuable collection of trophy flags, guns, small arms, etc., from the Revolutionary, Mexican, and Civil wars. A large room has been provided in the new Academy building for the reception of this collection, and in order that these valuable relics may be properly taken care of, exhibited, and arranged, cases, cabinets, stands, etc., are necessary. This work is already in progress, and in order that it may be continued, this appropriation should be immediately available.— <i>Capt. L. L. Bruff, Ord. Dept., U. S. Army, Instructor of Ord. and Gunnery, U. S. M. A.</i>							
Repairs to cadet barracks: For repointing and repairing exterior walls, arca walls, and coping; renewing floors; painting and kalsomining; repairing woodwork; repairing and repainting roof.....	Jan. 16, 1895	28	633	1	3,000 00		
NOTE.—During the past few years Congress has annually appropriated sufficient funds for making ordinary repairs to the cadet barracks. This estimate is similar to others submitted by this Department for the same purpose, and it is based upon the expenditures made in previous years for making needed repairs to the building.— <i>Capt. J. B. Bellinger, A. Q. M., U. S. Army.</i>							
Repairs and improvements, etc., needed at the cadet hospital, as follows: For hard pine flooring for wards, rooms, and halls; for repair of chimneys; for repointing joints of stonework of walls; for repainting of all exterior wood and iron work, two coats; for repainting of walls and interior woodwork, two coats, revarnishing of inside blinds, two coats, and glazing of windows; for repainting roof of annex; for locks for doors; for 300 yards, more or less, of Neufchatel mastic or other suitable pavement; for turpentine and paraffin for polishing floors of wards and halls; for ammon. chloride for telephone batteries; for two iron lamps for posts at bottom of entrance stairway; for bronze for rebronzing radiators; for speaking tube, ends, mouthpieces, and connections; for 50 feet of ironwork screen for dispensary counter; for two iron openwork doors for dispensary; for iron openwork door for entrance hall; and for four benches.....do.....				4,030 50		
NOTE.—The floors of the building have not been renewed since its construction. In many places the surfaces are irregular and nearly all the seams are widely opened, a condition very undesirable in a hospital. The item for the repair of chimneys includes the removal of the upper courses of brick, and the relaying of new work in cement, and two coats of paint over all exposed surfaces of the stacks. The repointing of joints of stonework of walls has been rendered necessary by the deterioration of the mortar between many of the joints of the several courses of stone of the walls of the building. The paint on the exterior of all the sash and window frames, and on the doors and frames, is now scaling, leaving the wood exposed in many places. The galvanized iron cornice extending around the building is rusting badly, and unless it be protected by a good covering of paint, will have to be renewed. The repainting of walls and interior woodwork, revarnishing of inside blinds, and glazing of windows will be necessary in 1897 in order to keep the hospital clean and in good repair. The paint is now scaling from the roof of the annex and will require a protective coat to preserve it. Locks are required to replace worn locks. The measurement of the Neufchatel mastic pavement includes the whole of the area in the rear of the hospital. This pavement is necessary for cleanliness and drainage which is now very defective. The iron lamps are needed for lighting the long flight of steps and also the steep incline leading to the entrance of the hospital. The present arrangement is defective and very unsatisfactory. The speaking tube will extend from the surgeon's office to the dispensary counter and is a very necessary appliance in facilitating the hurried work of the morning sick call. The iron openwork doors for dispensary are to replace wooden doors and secure effective ventilation of dispensary. The iron openwork door for entrance hall is to replace the wooden doors now in use, and the change is recommended to secure better light and ventilation, as it is necessary to keep the door closed at all times. The benches are required by cadets at sick call.— <i>Geo. H. Torney, Major and Surgeon, U. S. Army, Post Surgeon.</i>							
Fitting up an operating room in cadet hospital.....	Submitted.....				2,629 00		
NOTE.—It is proposed to convert the southeast corner room of the third floor into an operating room, and in its reconstruction to make it conform to all the requirements of modern surgical technology in the treatment of diseases and injuries. There is not now in this hospital a place suitable for the performance of surgical work under strict aseptic or antiseptic conditions and in accordance with the higher standard of excellence which surgeons now strive to attain in the repair of injuries and operation wounds.							
The speedy construction of an operating room is so very necessary that it is urgently recommended that the appropriation

		Vol. or R. S.	Page.				
<i>Buildings and Grounds, Military Academy—Continued.</i>							
Necessary repairs to engineer equipment shed.....	Submitted.....				\$920 00		
NOTE.—This building must be repaired without delay to secure it from serious deterioration.— <i>Capt. Jas. L. Lusk, Corps of Engineers, U. S. Army.</i>							
Building iron stairway in halls of engineer barracks, with necessary framing and supports for same.....	Submitted.....				2,800 00		
NOTE.—The existing stairways are old, weak, and untrustworthy.— <i>Capt. Jas. L. Lusk, Corps of Engineers, U. S. Army.</i>							
Completion of repairs and improvements to barracks of the detachment of army-service men, Quartermaster's Department, and for steam heating same.....	Submitted.....				2,000 00		
NOTE.—It will require this amount to complete the work, and it is earnestly recommended that it be allowed.— <i>Capt. J. B. Bellinger, A. Q. M., U. S. Army.</i>							
Repairs and improvements to cavalry barracks, viz: For replacing present soapstone troughs in bathroom with eight enameled lavatories, each 24 inches wide, with patent overflow, rubber stopper, hot and cold water faucets, etc.; for new wooden floor in kitchen; for sliding glass doors to cupboard in pantry, and for bins under same; for one refrigerator; and for painting exterior of barracks.....	Submitted.....				1,000 00		
NOTE.—The eight lavatories are required in place of the present soapstone trough, which is deep, narrow, admits only basins of small diameter, and which is altogether inconvenient and inadequate for the purpose. The wooden floor for kitchen is necessary, as the present concrete floor is badly cracked, broken, and worn-out. Sliding glass doors to cupboard are necessary to keep china free from dust and flies. Bins under cupboard are necessary for storage of rations, they being now kept in barrels. A refrigerator is required for storing beef, the present one being entirely inadequate in size, necessitating that only small cuts of beef be drawn at a time. It is greatly needed for the well-being of the troops.— <i>Capt. James Parker, Fourth Cavalry, Comdg. Det. of Cavalry, U. S. M. A.</i>							
Repairs and improvements to cavalry stable, as follows: For new stable doors, with crossbars, and material for new door frames in the fire entrance to stable; for material for ceiling and for new siding for interior of saddle room; new floor for guardroom; material for new siding for exterior of saddle room and granary, and for painting same; and for material for new watering troughs on outside of central western entrance to stable	Submitted.....				500 00		
NOTE.—The doors and frames in fire entrance to stable are worn-out, dilapidated, and admit air freely, especially in winter, making it impracticable at times to keep the temperature above the freezing point, and causes constant draughts. The saddle room, having no ceiling, admits quantities of dust, hay, and grain from loft above, making it difficult to keep the saddles and bridles clean. The side wall toward the hallway is of rough boards, admitting dust freely. The whole should be ceiled with matched boards. The present boarding outside of saddle room and granary is rough, dilapidated, and unsightly. The old floors in guardroom are in a wretchedly dilapidated condition. The watering troughs are required to expedite watering of horses in summer, the present troughs allowing only eight or ten horses to be watered at a time, thus requiring thirty minutes for watering the whole detachment. It is proposed to do the work with the labor of the detachment. I believe it will be found upon investigation that these repairs are necessary, and can not very well be dispensed with.— <i>Capt. James Parker, Fourth Cavalry, Comdg. Det. of Cavalry, U. S. M. A.</i>							
Repairs to soldiers' chapel, including painting exterior masonry, repairing roof, new ceiling, repairing interior woodwork, repainting exterior and interior woodwork, and papering.....	Submitted.....				800 00		
NOTE.—This building is badly out of repair, and the work specified in the estimate is absolutely necessary to put it in a presentable appearance.— <i>Capt. J. B. Bellinger, A. Q. M., U. S. Army.</i>							
Repairs to ordnance laboratory: Painting and repair of buildings, and material for roads and walks.....	Submitted.....				150 00		
NOTE.—The interior of barrack room and the exterior of shop need painting, and a new floor is required in storeroom. The stone for roads and walks is required to repair wear and wash of rain.— <i>Capt. L. L. Bruff, Ord. Dept., U. S. Army, Instructor of Ordnance and Gunnery, U. S. M. A.</i>							

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stat. at Large, or to Revised Statutes. Buildings and Grounds, Military Academy—Continued.							
One hundred and sixty-eight running feet of light iron porch, with yellow pine floor and tin roof, for south side and east end of the new cavalry barrack.....	Submitted.....				\$4,200 00		
<p>NOTE.—The commanding officer of the U. S. M. A. detachment of cavalry (Capt. Louis A. Craig, Sixth Cavalry) informed my predecessor last year (Capt. W. H. Miller, A. Q. M., U. S. Army) that this addition was included in the original plans of the building, and that it is greatly needed for the comfort and convenience of the men.—Capt. J. B. Bellinger, A. Q. M., U. S. Army.</p>							
Enlarging coal house at boiler house by increasing height of wall, raising and rebuilding roof.....	Submitted....				4,100 00		
<p>NOTE.—Since the Academy building has been added to the buildings heated from the boiler house the capacity of the coal house has been found inadequate to enable the carrying of a sufficient and safe supply of coal.—Capt. J. B. Bellinger, A. Q. M., U. S. Army.</p>							
To begin the work of reconstructing the sidewalks on the post, of artificial stone or other suitable material...	Submitted....				1,000 00		
<p>NOTE.—Most of the sidewalks on the post are now built of stone flagging, or gravel and cinders. The flagging walks are badly out of repair, the flags have settled and broken, making the walks uneven, unsightly, and full of holes, which retain the water after showers. These walks should be relaid with an artificial stone. Such main walks as are now of cinders should be built of the same material—artificial stone. For beginning this work this estimate is submitted.—Capt. J. B. Bellinger, A. Q. M., U. S. Army.</p>							
Laying a water main and appurtenances to connect the reservoir with the existing system of water distribution so as to afford an adequate direct fire pressure.....	Submitted.....				20,000 00		
<p>NOTE.—The laying of this main is a necessity which was dwelt upon by the Board of Visitors for 1894.—Capt. Jas. L. Lusk, Corps of Engineers, U. S. Army.</p>							
Removing a deposit of peat and soil from a portion of the new reservoir.....	Submitted.....				7,500 00		
<p>NOTE.—When last year's estimates were submitted the question of the removal of this peat was under investigation. To test the matter the area concerned was flooded during last winter, drained during the spring, and again flooded during the present summer, with results plainly indicating that the deposit should be removed.—Capt. Jas. L. Lusk, Corps of Engineers, U. S. Army.</p>							
Repairing the south dock and ferry slip and freight house.....	Submitted.....				2,000 00		
<p>NOTE.—The dock is badly out of repair, the timbers, capping, and top planks having rotted away and in many places sunken, making the dock unsafe.—Capt. J. B. Bellinger, A. Q. M., U. S. Army.</p>							
Rebuilding boathouse pertaining to the department of ordnance and gunnery, to replace the one now standing and irreparable.....	Submitted.....				900 00		
<p>NOTE.—A boathouse is necessary to shelter and properly care for a boat which is used in placing targets, etc., in the target practice of cadets. The boathouse now standing has not been repaired for many years, and its condition is such that it can not be repaired with economy, and hence a new one is needed. This estimate was submitted last year, and was incorporated in the bill as originally printed, but was afterwards struck out.—Capt. L. L. Bruff, Ord. Dept., U. S. Army, Instructor of Ordnance and Gunnery, U. S. M. A.</p>							
Rebuilding superstructure of engineer boathouses.....	Submitted.....				1,200 00		
<p>NOTE.—These structures will go to pieces unless soon rebuilt.—Capt. Jas. L. Lusk, Corps of Engineers, U. S. Army.</p>							
Purchase of two six-oared barges and two small row-boats, for instruction of cadets in rowing.....	Submitted.....				500 00		
<p>NOTE.—The barges and boats now on hand have been used for many years; some are almost and others are entirely worn out.—Capt. Jas. L. Lusk, Corps of Engineers, U. S. Army.</p>							
Addition in rear of wing to quarters No. 35.....	Submitted.....				1,900 00		
<p>NOTE.—This addition is desired that a study may be provided for the occupant of these quarters, Prof. E. E. Wood, U. S. M. A.—Capt. J. B. Bellinger, A. Q. M., U. S. Army.</p>

<i>Gettysburg National Park—</i> For continuing the work of establishing the National Park at Gettysburg, Pennsylvania; for the acquisition of lands, providing surveys and maps; opening, constructing, improving, and maintaining avenues, roads, and bridges thereon; making fences and gates, marking the lines of battle with tablets and guns, each tablet bearing a brief legend giving historic facts and compiled without censure and without praise; preserving the features of the battlefield and the monuments thereon; providing for a suitable office for the Park Commissioners in Gettysburg; compensation of three civilian commissioners, clerical and other services; offices, expenses, and labor; the purchase and preparation of tablets and gun carriages and placing them in position, and all other expenses incidental to the foregoing	Feb. 11, 1895	28	651	1-9	\$50,000 00	\$75,000 00
Total Miscellaneous						1,250,000 00	500,000 00
RIVERS AND HARBORS.							
<i>Harbor of Refuge at Point Judith, Rhode Island—</i> Completing improvement	Mar. 2, 1895	28	947	1	400,000 00	300,000 00
<i>Improving Hudson River, New York—</i> Continuing improvement	Mar. 2, 1895	28	946	1	500,000 00	500,000 00
<i>Improving Harbor between Philadelphia, Pa., and Camden, N. J.—</i> Continuing improvement, removal of Smiths Island and Windmill Island, Pennsylvania, and Pettys Island, New Jersey, and adjacent shoals.....	Mar. 2, 1895	28	946	1	850,000 00	850,000 00
<i>Improving Harbor at Charleston, S. C.—</i> Continuing improvement.....	Mar. 2, 1895	28	947	1	100,000 00	500,000 00
<i>Improving Harbor at Galveston, Tex.—</i> Completing improvement	Jan. 25, 1895 Mar. 2, 1895	28 28	638 946	1 1	}	1,140,000 00	1,360,000 00
<i>Improving Channel connecting Waters of the Great Lakes between Chicago, Duluth, and Buffalo—</i> Continuing improvement ..	Mar. 2, 1895	28	947	1	500,000 00	500,000 00
<i>Improving Harbor and Bay at Humboldt, Cal.—</i> Continuing improvement	Mar. 2, 1895	28	947	1	375,000 00	225,000 00
<i>Improving Canal at the Cascades of Columbia River, Oregon—</i> Continuing improvement	Appropriated Mar. 3, 1893	27	603	1	179,597 00	
Total							\$4,044,597 00
NOTE.—The above estimates are for works of improvement which Congress has authorized the Secretary of War to enter into contracts for carrying on continuously until completed. Appropriations for such works have been made in the sundry civil acts and not in the general appropriation acts for rivers and harbors; hence the estimates are submitted on a separate sheet.— <i>W. P. Craighill, Brig. Gen., Chief of Engineers.</i>							
<i>Examinations, Surveys, and Contingencies of Rivers and Harbors—</i> Examinations, surveys, and contingencies, and for incidental repairs for rivers and harbors for which there may be no special appropriation; for expenses connected with the inspection of bridges reported as obstructions to navigation, with the service of notices required in such cases, with the location of harbor lines under the act of September 19, 1890, and with the examinations and reports by officers of the Corps of Engineers and by boards of engineers upon plans for bridges authorized by law to be built, and upon bridge bills, reports on which may be called for by Congress	Appropriated Aug. 17, 1894	28	371	13	200,000 00	
NOTE.—The last appropriation for this purpose was \$125,000. The estimate has been increased for the reason that the act approved July 31, 1894, provided for an additional annual expenditure of \$12,000, for clerical and other services in the office of the Chief of Engineers; and for the further reason that the expenses connected with the inspection and report upon all matters pertaining to bridging navigable waters have greatly increased, and for other special reasons.— <i>W. P. Craighill, Brig. Gen., Chief of Engineers.</i>

<i>Printing and Binding—Continued.</i>							
tage in that it brings to the Museum in exchange a great number of specimens and books each year. The reduction of the edition during the current year has already caused unfortunate results, and it is hoped that permission will be given to print the customary edition of three thousand copies, since the additional cost is but slight. The number of one thousand is entirely inadequate to meet the legitimate demands.							
WAR DEPARTMENT.

Salary of one superintendent for the life-saving and life-boat stations on the coasts of Washington, Oregon, and California (increase of \$200 submitted)do.....				1,800 00		
<p>NOTE.—Previous to the commencement of the current fiscal year, the salaries of all the district superintendents, except those of the first, second, fifth, and seventh districts, were \$1,800 per annum each. The salaries of the superintendents of the excepted districts were \$1,500 each. In the estimate submitted last year the recommendation was made that the salaries of the superintendents of the first, second, and fifth districts be increased to \$1,800 each. The reasons for the recommendation were set forth in a note appended to the estimates, as follows:</p> <p>"NOTE.—The salaries of the superintendents of the first, second, and fifth districts, for an increase in which, of \$300 each, an estimate is submitted, were fixed at the present rates by the act of May 4, 1882. At that time the number of stations in the first district was seven, in the second fifteen, and in the fifth eleven. The bonds which they were then required to give amounted respectively to \$20,000, \$25,000, and \$25,000. Since then the number of stations in these districts has been increased so that there are now in the first district twelve stations, in the second twenty-three, and in the fifth seventeen, and other stations are authorized by law to be established in each. The sums of money which now have to be placed in the hands of these officers for disbursement have made it necessary to exact additional bonds, which now amount respectively to \$30,000, \$50,000, and \$40,000. The fact that the first district includes a smaller number of stations than the other two is fully offset by the greater extent of territory which it embraces, and the additional hardships and privations that must be endured on account of the severity of the winters in this latitude in making the required visits to the stations. The wide separation of the stations from each other and their great distance from the superintending office also largely increase the difficulties of exercising proper supervision. The present compensation of the three superintendents above referred to is entirely inadequate to the duties they perform, and the proposed increase would put them more nearly on an equal footing with the superintendents of the other districts." (See pages 224 and 225, Book of Estimates of Appropriations, 1895-96.)</p> <p>The appropriation bill passed the House of Representatives without changing the salaries of any of the superintendents, while the bill as it passed the Senate placed the salaries of all at the uniform rate of \$1,600 each, and so finally passed both Houses.</p> <p>The duties and responsibilities of these officers, with the exception of the superintendent of the seventh district, are constantly increasing, and the salary of \$1,800 per annum is not thought to be excessive. For the superintendent of the seventh district \$1,500 is considered sufficient.</p>							
Salaries of two hundred and sixty-two keepers of life-saving and lifeboat stations and of houses of refuge.....do.....				228,600 00		
Pay of crews of surfmen employed at the life-saving and lifeboat stations, including the old Chicago station, during the period of actual employment; compensation of volunteers at life-saving and lifeboat stations, for actual and deserving service rendered upon any occasion of disaster, or in any effort to save persons from drowning, at such rate, not to exceed ten dollars for each volunteer, as the Secretary of the Treasury may determine; pay of volunteer crews for drill and exercise; fuel for stations and houses of refuge; repairs and outfits for same; rebuilding and improvement of same; supplies and provisions for houses of refuge, and for shipwrecked persons succored at stations; traveling expenses of officers under orders from the Treasury Department; commutation of quarters for officers of the Revenue Cutter Service detailed for duty in the Life-Saving Service; for carrying out the provisions of sections seven and eight of the act approved May fourth, eighteen hundred and eighty-two; for draft animals and their maintenance; and contingent expenses, including freight, storage, repairs to apparatus, labor, medals, stationery, newspapers for statistical purposes, advertising, and miscellaneous expenses that can not be included under any other head of life-saving stations on the coasts of the United Statesdo.....				1,248,290 00

Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
<i>Plate Printing, Bureau of Engraving and Printing—</i>							
Wages of plate printers, at piece rates to be fixed by the Secretary of the Treasury, not to exceed the rates usually paid for such work, including the wages of printers' assistants, at \$1.25 a day each when employed, to be expended under the direction of the Secretary of the Treasury.....	Mar. 2, 1895	R. S. 28	706 920	3575-7 1	}	\$516, 350 00	\$530, 000 00
<i>Materials and Miscellaneous Expenses, Bureau of Engraving and Printing—</i>							
Engravers' and printers' materials, and other materials, except distinctive paper, and for miscellaneous expenses, to be expended under the direction of the Secretary of the Treasury.....	Mar. 2, 1895	R. S. 28	706 920	3575-7 1	}	166, 650 00	190, 000 00
Total Engraving and Printing.....						1, 114, 000 00	1, 140, 000 00
LIGHT-HOUSE ESTABLISHMENT.							
<i>Supplies of Light-Houses—</i>							
Supplying fog signals, light-houses, and other lights with illuminating, cleaning, preservative, and such other materials as may be required for annual consumption; for books, boats, and furniture for stations, and not exceeding \$300 for purchase of technical and professional books and periodicals for the use of the Light-House Board, and other incidental expenses.....	Mar. 2, 1895	28	917	1	410, 000 00	385, 000 00
NOTE.—The number of lights has been increased. This requires a corresponding increase in supplies with which they must be furnished.							
<i>Repairs of Light-Houses—</i>							
Repairing, rebuilding, and improving light-houses and buildings; for improvements to grounds connected therewith; for establishing and repairing pierhead and other beacon lights; for illuminating apparatus and machinery to replace that already in use; and for incidental expenses relating to these various objects.....	Mar. 2, 1895	28	917	1	600, 000 00	490, 000 00
NOTE.—The increased number of stations necessitates an increased appropriation for keeping them in a proper condition of efficiency and repair.							
<i>Salaries of Keepers of Light-Houses—</i>							
Salaries, fuel, rations, rent of quarters, where necessary, and similar incidental expenses of not exceeding 1,250 light-house and fog-signal keepers and laborers attending other lights.....	Mar. 2, 1895	R. S. 28	908 917	4673 1	}	700, 000 00	690, 000 00
NOTE.—The increase over the sum appropriated last year is necessary because of the increased number of lights authorized by Congress, which have been or are new being built and made ready for lighting.							
<i>Expenses of Light-Vessels—</i>							
Seamen's wages, rations, repairs, salaries, supplies, and temporary employment and incidental expenses of light-vessels.....	Mar. 2, 1895	28	917	1	350, 000 00	285, 000 00
NOTE.—The old light-vessels are requiring more and more repairs from year to year. One light-vessel has been established upon a new station. The expenses of maintaining and repairing light-vessels this year must therefore be considerably more than they were last year.							
<i>Expenses of Buoyage—</i>							
Expenses of establishing, replacing, and maintaining buoys of any and all kinds, spindles, and day beacons, and for incidental expenses relating thereto.....	Mar. 2, 1895	28	917	1	500, 000 00	415, 000 00
NOTE.—The reserve supplies have been drawn upon heavily. The Board has been unable to grant many requests to place buoys to meet the new wants of our increasing commerce. It may be able to keep in place the buoys now established, but it can not add materially to the number unless the funds asked are provided.

<i>Preservation of Collections, National Museum—Continued.</i>							
without delay, since much important material illustrating the ethnology and natural history of our continent is being secured by professional collectors and sold to foreign museums, and as a consequence much that it is a duty for American museums to preserve is passing beyond our control, and American students will be compelled still more than at present to pursue their researches in the museums of foreign countries. An increase in the staff is also very desirable, although many scientific specialists continue to give their services to the Museum free of compensation, even this aid does not enable the staff to perform properly the current work. Clerks are serving for smaller salaries than those in similar positions in the Executive Departments. The extent and value of the collections, which now include over three million specimens, makes the responsibility for their care much more onerous than in the past, and more watchmen, laborers, and cleaners are urgently required.							
<i>Repairs, National Museum—</i>							
Repairs to buildings, shops, and sheds, National Museum, including all necessary labor and material.....	Mar. 2, 1895	28	924	1	\$8,000 00	\$4,000 00
NOTE.—The sum of \$4,000, appropriated for the current year, is being expended in repairs of the roof and exposed woodwork of the buildings, gutters, down spouts, etc., and in temporarily repairing the old wooden floors, and in replacing broken and cracked glass. The Museum building erected in 1881, and at that time regarded simply as a temporary structure, up to this time has cost very little in repairs, and the expense has been paid for out of the appropriation for furniture and fixtures until last year. The building is now fourteen years old, and from this time on a larger expenditure will be necessary to keep it in order. The full sum of \$8,000 asked for is necessary to put the buildings in good condition. Should this sum be appropriated, the sum required for a few years to come will be smaller.							
<i>Rent of Workshops, National Museum—</i>							
Rent of work shops for the National Museum.....	Mar. 2, 1895	28	924	1	2,000 00	900 00
NOTE.—The temporary wooden sheds immediately adjacent to the sidesouth of the Smithsonian Building and to the storage rooms for alcohol combustibles, have been pronounced dangerous and unsafe by the Board of Fire Underwriters, who in their report, say that they would not be permitted outside of a Government reservation. These can not be removed unless other space for shops and storage is provided. The sum of \$900, heretofore appropriated, is entirely expended for the rent of shop and storage room in place of that the Museum formerly had in the so-called Armory building. The additional sum is urgently needed to remove a source of danger.							
<i>Postage, National Museum—</i>							
Postage stamps and foreign postal cards for the National Museum	Mar. 2, 1895	28	924	1	500 00	500 00
<i>Galleries, National Museum—</i>							
The erection of galleries, in two or more halls of the National Museum; said galleries to be constructed of iron beams, supported by iron pillars, and protected by iron railings, and provided with suitable staircases; the work to be done under the direction of the Architect of the Capitol, and in accordance with the approval of the Secretary of the Smithsonian Institution	Submitted.....				8,000 00	
NOTE.—The erection of these galleries will add materially to the area available in the present Museum building for exhibition and storage purposes. Such galleries were provided for in the original plans of the building. They can be supported in such a manner as not to detract from the appearance of the halls or to interfere with the installation of the collections.							
<i>National Zoological Park, Smithsonian Institution—</i>							
Continuing the construction of roads, walks, bridges, water supply, sewerage, and drainage, and for grading, planting, and otherwise improving the grounds; erecting and repairing buildings and inclosures; care, subsistence, transportation, and purchase of animals, including salaries or compensation of all necessary employees, and general incidental expenses not otherwise provided for.....	Mar. 2, 1895	28	924	1	75,000 00	60,000 00
Total under Smithsonian Institution.....						401,500 00	300,125 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. Contingent Expenses, Shipping Service—							
For office rent, furniture, stationery, and necessary incidental expenses of shipping commissioners to be expended under the direction of the Secretary of the Treasury.....	June 26, 1884	23	59	27	}	18,000 00	
	June 19, 1886	24	80	1			
	Submitted						
NOTE.—Under section 27, act of June 26, 1884, the Treasury paid salaries of shipping commissioners and their clerks, rent and necessary expenses from a fund derived from fees collected by them. The fees were abolished June 19, 1886. For the proper discharge of his duties each commissioner requires an office and an adjoining room for the accommodation of masters and seamen. It is estimated that \$6,000 will be required properly to furnish at the outset offices and sailors' shipment rooms for the 21 commissioners, \$6,000 for repairs, supplies, and annual maintenance, and \$6,000 for annual rent for 18 commissioners, making \$18,000 for the first year and \$12,000 annually thereafter.							
Quarantine Service—							
Maintenance and ordinary expenses, including pay of officers and employees of quarantine stations at Delaware Breakwater, Reedy Island, Cape Charles and supplemental station, South Atlantic Station, Southport, Brunswick, Key West (hereafter to be known as the Tortugas Quarantine Station), Gulf, San Diego, San Francisco, and Port Townsend. MISCELLANEOUS OBJECTS.							
Survey of Northern and Northwestern Lakes— Surveys, additions to and correcting engraved plates, to be available until expended..... Printing and issuing charts for use of navigators, and electrotyping plates for chartprinting.....	Mar. 2, 1895do.	28	950	1	\$25,000 00 3,000 00	28,000 00	27,000 00
Military Telegraph, Colorado— Construction of a military telegraph line between Fort Logan, Colo., and the headquarters of the Department of the Colorado, at Denver, Colo.	Submitted.....					800 00	
NOTE.—Fort Logan is the only large military post not having direct telegraphic communication. The necessity of this construction was made evident during the summer of 1894.—A. W. Greely, Chief Signal Officer.							
Cable, Alcatraz Island, California— Purpose of restoring communication by cable between Alcatraz Island and Angel Island, California.....	Submitted.....					6,000 00	
NOTE.—The fortification on Alcatraz Island is one of the most important defenses of the harbor of San Francisco, and is now without any electric communication whatever, the cable having been destroyed and worn out by the action of time and interference from shipping.—A. W. Greely, Chief Signal Officer.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1896.
		Vol. or R. S.	Page.	Sec.			
Transportation of Reports and Maps to Foreign Countries— Transportation of reports and maps to foreign countries through the Smithsonian Institution.....	Mar. 2, 1895	28	950	1	\$100 00	\$100 00
Artificial Limbs— Furnishing artificial limbs and apparatus, or commutation therefor, and transportation.....	Aug. 15, 1876 Mar. 2, 1895	R. S. 19 28	929 203 950	4787 4791 1, 2 1	575,000 00	130,000 00
<p>NOTE.—There are in the files of this office at the present time 9,930 cases entitled to benefit under the laws relating to artificial limbs during the fiscal year ending June 30, 1897. Three thousand one hundred and sixty-one are cases of amputated leg, the commutation for each of which is \$75, and 6,769 are cases of other amputation, and loss of use of limbs, the commutation for each of which is \$50. These require a total of \$575,525, but deaths occurring among the beneficiaries will probably reduce the amount needful as commutation to \$560,000. To this, however, should be added about \$15,000 for transportation in those cases, about 350, who will probably elect to receive the artificial limb in kind.—Geo. M. Sternberg, Surgeon-General, U. S. Army.</p>							
Appliances for Disabled Soldiers— Furnishing surgical appliances to persons disabled in the military or naval service of the United States, and not entitled to artificial limbs or trusses for the same disabilities.....	Mar. 2, 1895	28	950	1	2,000 00	2,000 00
Support and Medical Treatment of Destitute Patients— Support and medical treatment of ninety-five medical and surgical patients who are destitute, in the city of Washington, under a contract to be made with the Providence Hospital by the Surgeon-General of the Army.....	Mar. 2, 1895	28	950	1	19,000 00	19,000 00
Garfield Memorial Hospital— Maintenance, to enable it to provide medical and surgical treatment to persons unable to pay therefor.....	Mar. 2, 1895	28	950	1	25,000 00	19,000 00
<p>NOTE.—The communication of Mr. Justice Harlan, president of the hospital, requesting the insertion of this estimate, and explaining the necessity for the increased amount asked for, will be found in Appendix 8.</p>							
Expenses of Military Convicts— Payment of costs and charges of State penitentiaries for the care, clothing, maintenance, and medical attendance of United States convicts confined in them.....	Mar. 2, 1895	28	951	1	2,000 00	3,000 00
Prevention of Deposits, Harbor of New York— Pay of inspectors, deputy inspectors, office force, and expenses of office, and maintenance of launches { Active, Alert, and Lookout.....	June 29, 1888 Aug. 18, 1894 Mar. 2, 1895	25 28 28	209 360 951	1-6 3 1	} \$18,000 00		
Pay of crew and maintenance of steamer Argus.....	Same acts				10,000 00		
Pay of crew and maintenance of steamer Nimrod.....do.....				10,000 00		
Pay of crew and maintenance of steamer Daniel S. Lamont.....do.....				12,000 00		
Pay of crew and maintenance of one steam tug under construction (see note).....	Submitted.....				12,000 00		
						62,000 00	90,000 00
<p>NOTE.—The sundry civil act of March 2, 1895, appropriated \$45,000 for the purchase or construction of one steam tug. The said tug is now under construction, and this estimate is for pay of crew and maintenance thereof when completed.—W. P. Cralghill, Brig. Gen., Chief of Engineers.</p>							
Publication of Official Records of the War of the Rebellion— Continuing the publication of the Official Records of the Union and Confederate armies, including the atlas of maps and plans, in accordance with the plan approved by the Secretary of War August 3, 1880; and for the compensation of such temporary expert services in connection with the preparation, publication, and distribution of said records as may be deemed necessary by the Secretary of War, and for the purchase of stationery and for additional rent, not exceeding \$1,800, and for traveling expenses of the agent for collection of records, to be disbursed under such regulations as the Secretary of War may prescribe, not exceeding \$500..... Artillery School, Fort Monroe, Va.— To provide means of instruction at the United States Artillery School, by the purchase of text-books, drawing materials, and stationery; chemical apparatus, artillery, engineering, mechanical, and electrical instruments, models, machines, and material, and repairs for same, and for other necessary expenses of the school.....	Mar. 2, 1895	28	951	1		\$6,538 35	\$5,000 00
NOTE.—For statement of items composing the above estimate, see Appendix T.							
Cavalry and Light Artillery School, Fort Riley, Kans.— To provide means of instruction at the United States Cavalry and Light Artillery School, by purchase of text-books, books of reference, drawing materials and stationery, instruments, maps, models, machines, materials, and repairs to same, required in the course of instruction in the art and science of war, and for other necessary expenses of the school	Jan 29, 1887 Submitted.....	24	372	1	\$1,850 00		
For the purchase of one job-printing press, paper cutter, type, ink, etc., for printing and binding pamphlets, reports, etc., and such other printing and binding material as may be necessary to properly equip a job-printing office and bindery	do.....				650 00		
NOTE.—The United States Cavalry and Light Artillery School was established under the act of Congress, approved January 29, 1887, and the small appropriations asked for in this estimate is necessary to provide the means of instruction by the purchase of text-books, books of reference, instruments, models, etc., required for use in theoretical and practical instruction at the school; for a job-printing plant, and for binding professional and scientific periodicals and papers.						2,500 00	
Infantry and Cavalry School, Fort Leavenworth, Kans.— To provide means for theoretical and practical instruction at the United States Infantry and Cavalry School, by the purchase of text-books, books of reference, professional and scientific papers and periodicals; printing and binding current papers, instruction manuals, etc., and rebinding library books; purchase of instruments, materials, models, maps, stationery, office, library, and section room furniture, and repairs to same, and for other necessary expenses of the school.....	Mar. 2, 1895	28	951	1		5,000 00	1,500 00
NOTE 1.—The increased appropriation asked for is necessary to properly equip this school with much-needed instruments and materials. Many of the limited number of instruments used by the Department of Engineering are old and almost unserviceable, having been in constant use for over fourteen years. The general enlargement of this institution (a large addition to the academic building having been completed this summer) necessitates the purchase of additional material which can not be had from any other source, and can not be supplied with the small amount (\$1,500) appropriated for the current fiscal year.—H. S. Hawkins, Colonel Twentieth Infantry, Commandant.							
NOTE 2.—For statement of items composing the above estimate, see Appendix U.							
National Home for Disabled Volunteer Soldiers— Central Branch, at Dayton, Ohio: Current expense, namely: Pay of officers and noncommissioned officers of the Home, with such exceptions as are hereinafter noted, and their clerks and orderlies; also payments for chaplains and religious instruction, printers, bookbinders, telegraph and telephone operators, guards, policemen, watchmen, and fire company; for all property and materials purchased for their use, including repairs not done by the Home; for necessary expenditures for articles of amusement, boats, library books, magazines, papers, pictures, and musical instruments, and for repairs not done by the Home; for librarians and musicians; and for stationery, advertising, legal advice, and for such other expenditures as can not properly be included under other heads of expenditure	Mar. 3, 1875 Mar. 3, 1879 July 5, 1884 Mar. 3, 1885 Mar. 2, 1887 Mar. 3, 1887 Oct. 2, 1888 Aug. 18, 1894 Aug. 23, 1894 Mar. 2, 1895	R. UNDER THE DEPARTMENT OF THE INTERIOR.							
COLLECTING THE REVENUE FROM PUBLIC LANDS.							
<i>Salaries and Commissions of Registers and Receivers—</i> Salaries and commissions of registers and receivers of district land offices, at not exceeding \$3,000 per annum each..... Mar. 2, 1895	R. S. 28	392 936	2237, 2238 2240 1	}	490, 000 00	500, 000 00
NOTE.—The estimate submitted for compensation of registers and receivers is based upon the salaries earned, and fees and commissions collected and covered into the Treasury by them during the fiscal year ending June 30, 1895. The accompanying detailed exhibit shows the earnings, amount paid registers and receivers, and net revenue to the United States for the fiscal year ending June 30, 1895. (See Appendix W.)							
<i>Contingent Expenses, Land Offices—</i> Clerk hire, rent, and other incidental expenses of the district land offices.....	Mar. 2, 1895	28	936	1	150, 000 00	150, 000 00
NOTE.—The foregoing estimate includes the salaries of clerks, office rent, registration fees, and a variety of other incidental expenses pertaining to the running of the local land offices, such as binding plats, rebinding old and dilapidated plat books worn by constant handling and use, the purchase of furniture, safes, typewriters, etc. The amount of the estimate is the same as the amount appropriated for the current fiscal year ending June 30, 1896, and is deemed the smallest sum with which the exigencies of the local offices can be met.							
<i>Expenses of Depositing Public Moneys—</i> Expenses of depositing money received from the disposal of public lands.....	Mar. 2, 1895	R. S. 28	713 936	3617 1	}	3, 000 00	3, 000 00
<i>Depredations on Public Timber, Protecting Public Lands, and Settlement of Claims for Swamp Lands and Swamp-Land Indemnity—</i> To meet expenses of protecting timber on public lands, and for the more efficient execution of the law and rules relating to the cutting thereof; of protecting public lands from illegal and fraudulent entry or appropriation, and of adjusting claims for swamp lands and indemnity for swamp lands.....	Mar. 2, 1895	28	936	1	150, 000 00	90, 000 00
Provided, That agents and others employed under this appropriation shall be allowed per diem, subject to such rules and regulations as the Secretary of the Interior may prescribe, in lieu of subsistence, at a rate not exceeding \$3 per day each and actual necessary expenses for transportation. NOTE.—To properly investigate and report upon cases of unlawful cutting and removal of the public timber (in some of the							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1897—Continued.

<i>Depredations on Public Timber, etc.—Continued.</i>							
States and Territories amounting to many millions of feet each year), to investigate and report upon applications for permits to cut public timber under the act of March 3, 1891 (26 Stat., 1093), and to examine the timber areas with a view to the selection of such tracts as may seem desirable and necessary to embrace in forest reservations provided for in section 24 of the act of March 3, 1891 (26 Stat., 1095), also to investigate and report upon attempted fraudulent and illegal acquisition of public lands, and to make personal examination and report as to the character of lands selected by the public land States as swamp, or appropriated alleged swamp lands for which the States apply for other public lands as indemnity, the amount estimated herein is necessary, and should be sanctioned by appropriation. A less amount will be inadequate for the service.							
<i>Expenses of Hearings in Land Entries—</i>							
Expenses of hearings held by order of the Commissioner of the General Land Office to determine whether alleged fraudulent entries are of that character or have been made in compliance with law.....	Mar. 2, 1895	28	936	1	\$10,000 00	\$10,000 00
NOTE.—The foregoing estimate is to defray the expenses of hearings ordered by the General Land Office in cases of alleged fraudulent or illegal entries. These entries are suspended upon the reports of investigations made by special agents; hearings are then ordered to be held, and all parties in interest notified thereof. The expenses to be borne by the United States are those of its own witnesses and the taking of testimony to establish the fraudulent or illegal character of the entry.							
<i>Reproducing Plats of Surveys, General Land Office—</i>							
To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of surveys on file and other plats constituting a part of the records of said office, and to furnish local land offices with the same.....	Mar. 2, 1895	28	936	1	10,000 00	2,000 00
NOTE.—The necessary reproduction of the great number of official plats of surveys in this office, defaced and mutilated by constant handling and use to such an extent as to almost render them unavailable in furnishing certified copies under the provisions of the act of July 2, 1864 (13 Stat., 375), will require an increase over the appropriation for the current fiscal year ending June 30, 1896, of not less than the amount submitted herein. The importance of the work is imperative, and the full amount of the estimate should be sanctioned by appropriation.							
<i>Transcripts of Records and Plats—</i>							
Furnishing transcripts of records and plats under the provisions of the act of July 2, 1864 (13 Stat., 375), to be expended under the direction of the Secretary of the Interior.....	Mar. 2, 1895	28	936	1	5,000 00	5,000 00
NOTE.—The money paid in to the receiving clerk of the General Land Office, and covered into the Treasury by him under the provisions of the act of July 2, 1864, during the fiscal year just ended, amounted to \$10,210.44.							
Total Public Lands Service, exclusive of surveying.....						818,000 00	760,000 00
SURVEYING THE PUBLIC LANDS.							
<i>Surveying Public Lands—</i>							
Surveys and resurveys of public lands, \$400,000, at rates not exceeding \$9 per linear mile for standard and meander lines, \$7 for township, and \$5 for section lines, except that the Commissioner of the General Land Office may allow for the survey and resurvey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding \$13 per linear mile for standard and meander lines, \$11 for township, and \$7 for section lines, and in cases of exceptional difficulties in the surveys, when the work can not be contracted for at these rates, compensation for surveys and resurveys may be allowed by the said Commissioner at rates not exceeding \$18 per linear mile for standard and meander lines, \$15 for township, and \$12 for section lines: <i>Provided</i> , That in the States of California, Idaho, Montana, Oregon, and Washington there may be allowed for the survey and resurvey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding \$25 per linear mile for standard and meander lines, \$23 for township, and \$20 for section lines, and it shall	Mar. 2, 1895	R. 		Vol. or R. S.	Page.	Sec.			
<p><i>Surveying Public Lands—Continued.</i></p> <p>be lawful for the Commissioner of the General Land Office, when deemed expedient, to authorize surveys and resurveys at a reasonable compensation, by the day, instead of by the mile, and when surveys or resurveys are required involving an expenditure not exceeding \$250, the said Commissioner may authorize the same to be made for a specified sum for the entire work. And the sum hereby appropriated is made a continuous appropriation, and the same shall be available for use and the purposes intended until the appropriation shall have been exhausted.....</p> <p>And of the sum hereby estimated not exceeding \$75,000 may be expended for examination of public surveys in the several surveying districts in order to test the accuracy of the work in the field and to prevent payment for fraudulent and imperfect surveys returned by deputy surveyors, and for examinations of surveys heretofore made and reported to be defective or fraudulent, and inspecting mineral deposits, coal fields, and timber districts, and for making such other surveys or examinations as may be required for identification of lands for purposes of evidence in any suit or proceeding in behalf of the United States: <i>Provided further</i>, That such portions of the public lands as may from time to time be designated by the Commissioner of the General Land Office shall, upon the order of the Secretary of the Interior so directing, be surveyed under the supervision of the Director of the Geological Survey, by such persons as may be employed by or under him for that purpose, and that so much of the money herein appropriated as may be necessary to carry this provision into effect is hereby made available for that purpose; and all such surveys shall be executed under the rectangular system now provided by law, and under instructions to be issued by the Secretary of the Interior, as now provided by law: <i>Provided</i>, That when any survey shall have been so made and plats and field notes thereof prepared, they shall be approved and certified to by the Director of the Geological Survey and three copies thereof shall be returned to the General Land Office for filing in that office and in the offices of the surveyors-general and local land office of the district wherein the land is situated, and such surveys, field notes, and plats shall have the same legal force and effect as heretofore given to like acts of surveyors-general: <i>Provided</i>, That none of the moneys appropriated for the surveys of public lands shall be expended by the Director of the Geological Survey, except in the surveying of such lands as shall be designated by the Commissioner of the General Land Office and the Commissioner shall, in making such designation, be governed by the existing laws relating thereto: <i>Provided</i>, That whenever surveys of the public lands are executed by the Geological Survey, as herein authorized, all provisions of law inconsistent with the above provisions are hereby declared to be inoperative: <i>And provided further</i>, That such additional employees as may be necessary for the execution of the public surveys when made by the Geological Survey, shall be residents of the State or Territory wherein such surveys are executed.</p> <p>NOTE.—Special attention is invited to the proposed provision in the foregoing estimate for surveying public lands, making the appropriation continuous and available for use until the same shall have been exhausted. It frequently occurs that owing to unavoidable causes surveys are so long delayed that final action thereon and upon the accounts of the deputy surveyors can not be taken until the appropriation has, under the law, lapsed to the Treasury, thus necessitating a reappropriation of the amounts found due for work performed, and consequent long delays in payment, greatly to the detriment of the surveyors. Again it has been held by the Comptroller of the Treasury that when extensions of surveying contracts are granted after the expiration of the time fixed in the contracts for the completion of the work, such extensions are in the nature of new contracts, and that the liability for services performed under such extensions should be paid out of the appropriations for the fiscal years in which such extensions were granted, under such circumstances that portion of the work executed under the extensions being deemed chargeable to a later appropriation than that to which the contract was originally chargeable, the service loses the benefit of just so much of the prior appropriation, as the same is not available for new contracts after the expiration of the fiscal year for which the ap-</p>

<i>Surveying Public Lands—Continued.</i>							
proportion was made. If the surveying appropriation be made continuous, delayed surveys may be paid for at any time, and the necessity for reappropriation of amounts found due to surveyors subsequent to the lapsing of an appropriation, as is now frequently the case, will be obviated, and work performed under extended contracts would still be payable from the appropriation to which such contracts were originally made chargeable, all of which would prove a source of great convenience to the General Land Office and to the accounting officers of the Treasury in settling surveying accounts. It is proper to state here that this recommendation is made upon the suggestion of the Comptroller of the Treasury in a letter to the Secretary of the Interior dated March 23, 1896. The Comptroller states that if the suggestion meets with the Commissioner's approval his office will cooperate with this office in bringing about such a result. I most earnestly recommend the adoption of the Comptroller's suggestion and trust that the same may be incorporated in the appropriation act.

<i>Current Expenses, Government Hospital for the Insane—</i>							
Support, clothing, and treatment, in the Government Hospital for the Insane, of the insane from the Army and Navy, Marine Corps, Revenue Cutter Service, and inmates of the National Home for Disabled Volunteer Soldiers, persons charged with or convicted of crimes against the United States who are insane, all persons who have become insane since their entry into the military or naval service of the United States, who have been admitted to the hospital and who are indigent, and for the indigent insane of the District of Columbia..	Mar. 2, 1895	R. S. 28	938 940	4838- 4858 1	}	\$264, 451 00	\$260, 740 00
NOTE.—This estimate is based on a probable average number of 1,675 of the above classes at a per capita cost of \$220 per annum. For a number of years Congress has divided the amount of this appropriation between the sundry civil and the District bill. Following the rule of previous years, the increase in the District appropriation being based on the increase in the number of District patients during the past year, the amount in that bill will be \$104,049, leaving \$264,451 to be provided in the sundry civil bill. Of this sum it is asked that not exceeding \$1,500 may be used to defray the expense of the return of patients to their friends.

DISTRICT OF COLUMBIA.							
GENERAL EXPENSES.							
NOTE.—An explanation of the increases in the following estimates of the Commissioners of the District of Columbia, together with the schedules of streets, etc., recommended for improvement, and the estimated receipts for the fiscal year ending June 30, 1897, will be found in Appendix X.							
Salaries, Offices of the District of Columbia—							
Executive office:							
Two Commissioners, at \$5,000 each.....	June 11, 1878 Mar. 3, 1881 Mar. 2, 1895	20 21 28	103 460 745	2, 3 1 1	\$10,000 00		
One Engineer Commissioner, to make salary \$5,000 (decrease of \$844).....	Same acts.....				924 00		
One secretary of the District of Columbia, who shall hereafter be appointed by the President of the United States, by and with the advice and consent of the Senate, and possess the qualifications as to citizenship of the United States and residence in said District, that are now prescribed by law for the Commissioners of said District appointed from civil life, and shall take an oath and give a bond such as are now required by law from said Commissioners appointed from civil life, for the faithful discharge of duty. He shall hold said office for four years and until his successor shall have been appointed and qualified, and during any absence from said District, or disability of either of the Commissioners appointed from civil life, shall discharge all the duties of such Commissioner. He shall keep a record of the acts and correspondence of the Commissioners of the District of Columbia sitting as a board, and shall perform such other germane duties as the Board of Commissioners may from time to time prescribe. He shall have official charge, custody, and use of the seal of the District of Columbia, adopted by the law of the Legislative Assembly of said District entitled "An act adopting a seal for the District of Columbia," approved August 3, 1871. In the event of the absence from the District of Columbia, or the disability of said Secretary, he shall, with the approval of the said Board of Commissioners, designate a suitable person, who shall execute a bond and oath like those required of him, to act in his stead during such absence or disability (increase of \$840, submitted)..... <i>Expenses of Treasury Notes, Act July 14, 1890—</i>							
That the Secretary of the Treasury is hereby directed to purchase, from time to time, silver bullion to the aggregate amount of four million five hundred thousand ounces, or so much thereof as may be offered in each month, at the market price thereof, not exceeding one dollar for three hundred and seventy-one and twenty-five hundredths grains of pure silver, and to issue in payment for such purchases of silver bullion Treasury notes of the United States to be prepared by the Secretary of the Treasury, in such form and of such denominations, not less than one dollar nor more than one thousand dollars, as he may prescribe; [Repealed by act of November 1, 1893,] and a sum sufficient to carry into effect the provisions of this act is hereby appropriated out of any money in the Treasury not otherwise appropriated. That the Treasury notes issued in accordance with the provisions of this act shall be redeemable on demand, in coin, at the Treasury of the United States, or at the office of any assistant treasurer of the United States, and when so redeemed may be reissued; but no greater or less amount of such notes shall be outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom then held in the Treasury purchased by such notes; and such Treasury notes shall be a legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract, and shall be receivable for customs, taxes, and all public dues, and when so received may be reissued; and such notes, when held by any national banking association, may be counted as a part of its lawful reserve. That upon demand of the holder of any of the Treasury notes herein provided for the Secretary of the Treasury shall, under such regulations as he may prescribe, redeem such notes in gold or silver coin, at his discretion, it being the established policy of the United States to maintain the two metals on a parity with each other upon the present legal ratio, or such ratio as may be provided by law.....	July 14, 1890 Nov. 1, 1893	26 28	289 4	1-2 1	\$250,000 00	\$250,000 00	\$270,899 30
<i>Coinage of Silver Bullion—</i>							
That the Secretary of the Treasury shall each month coin two million ounces of the silver bullion purchased under the provisions of this act into standard silver dollars until the first day of July, eighteen hundred and ninety-one, and after that time he shall coin of the silver bullion purchased under the provisions of this act as much as may be necessary to provide for the redemption of the Treasury notes herein provided for, and any gain or seigniorage arising from such coinage shall be accounted for and paid into the Treasury. That the silver bullion purchased under the provisions of this act shall be subject to the requirements of existing law and the regulations of the mint service governing the methods of determining the amount of pure silver contained, and the amount of charges or deductions, if any, to be made. That so much of the act of February twenty-eighth, eighteen hundred and seventy-eight, entitled "An act to authorize the coinage of the standard silver dollar and to restore its legal-tender character," as requires the monthly purchase and coinage of the same into silver dollars of not less than two million dollars, nor more than four million dollars' worth of silver bullion, is hereby repealed..... Expenses of Regulating Immigration (Customs)— That there shall be levied, collected, and paid a duty of one dollar for each and every passenger not a citizen of the United States who shall come by steam or sail vessel from a foreign port to any port within the United States. The said duty shall be paid to the collector of customs of the port to which such passenger shall come, or if there be no collector at such port, then to the collector of customs nearest thereto, by the master, owner, agent, or consignee of every such vessel, within twenty-four hours after the entry thereof into such port. The money thus collected shall be paid into the United States Treasury, and shall constitute a fund to be called the immigrant fund, and shall be used, under the direction of the Secretary of the Treasury, to defray the expense of regulating immigration under this act, and for the care of immigrants arriving in the United States, for the relief of such as are in distress, and for the general purposes and expenses of carrying this act into effect. The duty imposed by this section shall be a lien upon the vessels which shall bring such passengers into the United States, and shall be a debt in favor of the United States against the owner or owners of such vessels; and the payment of such duty may be enforced by any legal or equitable remedy: <i>Provided</i> , That no greater sum shall be expended for the purposes hereinbefore mentioned, at any port, than shall have been collected at such port..... APPENDIX.

APPENDIX.

APPENDIX A.

In Relation to the Estimates for Salaries and Expenses, Department of State (pages 18 and 19), and for Foreign Intercourse (pages 93 to 102).

DEPARTMENT OF STATE, Washington, October 8, 1895.

SIR: I have the honor to submit the following explanations concerning the estimates of this Department for the fiscal year ending June 30, 1897, herewith transmitted:

CLERICAL FORCE.

I have asked for ten clerks at \$900 each—a restoration of the two dropped in the appropriations for the current fiscal year—because, contrary to expectation, it has been found that the business of the Department has been seriously retarded in consequence of the reduction. The increase of work in the Passport Office, constantly growing in volume, requires the whole services of another clerk. This branch of the service more than supports itself, turning annually into the Treasury fees amounting approximately to \$15,000.

BOOKS AND MAPS.

I have asked for an addition of \$1,000 to this appropriation.

The Department suffers much inconvenience from the inadequacy of the appropriation of \$2,000 for books and maps, etc. It is particularly undesirable that its supply of periodicals, domestic and foreign, should be curtailed. The Library is a working one—no light literature is bought—and the new publications which keep pace with current events are essential to most efficient Departmental work. The \$1,000 additional submitted restores the appropriation to the sum annually provided from 1879 to 1885, \$3,000. Twenty-five years ago the annual appropriation was \$2,500.

The request for \$1,600 to be used in the purchase of the so-called Clinton manuscripts is earnestly commended to the consideration of Congress, a moderate price for a collection of books and pamphlets of peculiar value to our Revolutionary history by reason of the ample and important annotations by Gen. Sir Henry Clinton, the commander-in-chief of the British forces in America.

RESTORING, BINDING, AND PUBLISHING INDEXES OF MANUSCRIPT PAPERS ON FILE IN THE DEPARTMENT.

The \$5,000 asked for restoring, binding, and publishing indexes of manuscript papers is designed for use in the care and preservation of the manuscript records of the Continental Congress, deposited with the Secretary of State in accordance with the act creating the "Department of Foreign Affairs;" of the manuscript papers of Hamilton, and of a portion of the manuscript papers of Washington, the Jefferson, Madison, and Monroe papers having been already restored, bound, and indexed.

The condition of these papers from age and handling renders constant care and speedy restoration indispensable to their proper preservation. The indexes contemplated are equally necessary to the use of the collections.

PEACE TRANSCRIPTS FROM EUROPEAN ARCHIVES.

The appropriation of fifteen thousand dollars (\$15,000) asked for is to provide for the purchase from Mr. B. F. Stevens of transcripts of a very large number of unpublished state papers in the archives of several European governments, relating to the early diplomatic and political history of the American Colonies and of the United States. This estimate has been repeatedly presented and an appropriation in accordance therewith recommended by my predecessors.

There are nowhere to be found within the United States records (or copies of them) showing many of the most important acts by which our independence was acquired and maintained. Mr. Stevens has devoted more than twenty years to searching and copying these foreign records. I heartily concur therefore in the recommendations heretofore made on this subject by my predecessors, which were supported by an urgent memorial from a large number of American historians and historical societies, whose communications on the subject are fully recited in Senate Executive Document No. 133, Fiftieth Congress, first session.

DIPLOMATIC SERVICE.

1. *International Bureau for Publication of Customs Tariffs.*—I have added to the annual item this sentence: "This appropriation to be available on April 1, 1896, pursuant to the convention proclaimed December 17, 1890." That convention went into operation April 1, 1891, and the quota of the United States is payable in the first quarter of the year. The Belgian Government advances the necessary sums for the maintenance of the International Bureau and is reimbursed by the other powers. It would seem to be a matter of equity and justice that that Government should receive the share due from the United States without unnecessary delay. Hence the recommendation as to the date of availability of the appropriation.

2. *Chargé d'Affaires ad interim*.—The appropriation under that head is and has been for years \$20,000. I have submitted an additional sum of \$10,000, making the total appropriation for that purpose \$30,000.

For years past the sum appropriated has not been found sufficient. In 1889, 1890, 1891, 1892, 1893, and 1894, deficiency appropriations were obtained running from \$2,000 to \$13,540.15. In only one year, however (1892), when exceptional circumstances arose, has the sum of \$30,000 been exceeded. If this sum is allowed, the Department will, in all probability, be able to pay these salaries without asking Congress to supply deficiencies.

It should be noted that while the *chargé* draws pay at the rate of one-half of the minister's compensation, as allowed by law, the salary of the latter ceases when he is absent from his post beyond sixty days and the time allowed in making the transit. In such a case there is really a saving to the Government.

3. *Protecting American Interests in the Samoan Islands*.—I have estimated for an appropriation of \$6,000, following the language of the diplomatic and consular appropriation act approved March 2, 1895. (Statutes at Large, vol. 28, p. 818.)

So long as this Government remains a party to the General Act, touching the neutrality and autonomous Government of the Samoan Islands, concluded at Berlin June 14, 1889, and proclaimed May 21, 1890, an appropriation to meet unforeseen emergencies under that particular head should be available.

4. *Expenses under Neutrality Act*.—The sum last appropriated was \$5,000. The estimate submitted calls for \$8,000, which, in view of the special difficulty and expense now attending the performance of our neutral duties, will be found rather under than in excess of the amount requested.

5. *Intercontinental Railway Commission*.—An item of \$15,000, to meet the share of the United States toward the completion and publication of the reports, maps, profiles, etc., of the Intercontinental Railway Commission, has been submitted to me.

Lieut. R. M. G. Brown, U. S. N., retired, the executive officer of the Commission, in a letter of September 26, 1895, says: "It is the intention of the Commission to publish reports embracing its own operations and those of its three surveying parties in a manner suitable to the importance of the subject involved. The reports, maps, profiles, etc., of corps No. 3 have already been printed and photolithographed; those of corps No. 2 are now in the hands of the printer, while the report, maps, etc., of corps No. 1 are in a forward state of preparation."

"It is believed that the small item of \$15,000 asked for as the share of the United States toward the completion of this important object will enable the Commission to present the results of its labors in a manner satisfactory to the several governments concerned."

The last appropriation for this object was included in the Diplomatic and Consular Appropriation Act, approved July 26, 1894, and was for \$25,000. (See Statutes at Large, vol. 28, p. 145.) That amount has been found sufficient to begin the publication, and will insure the printing of about two-thirds of the reports. The additional \$15,000 now asked is necessary to complete the work.

The importance of this valuable work, the fact that so much has already been spent on it, and that so little is now required from this Government to insure its completion, are ample reasons for making the desired allowance.

6. *International Bureau at Brussels for Repression of the African Slave Trade*.—I have submitted under this head an item appropriating the sum of four hundred dollars (\$400), or so much thereof as may be necessary to meet the share of the United States in the expenses of the Special Bureau created by article 82 of the General Act concluded at Brussels July 2, 1890, for the repression of the African slave trade and the restriction of the importation into and sale in a certain defined zone of the African continent of firearms, ammunition, and spirituous liquors for the years 1894, 1895, 1896, and 1897.

The Special Bureau closed its accounts for the first year of its service, 1892, when the share of the United States amounted to \$106.83. The second year, 1893, our share was \$93.09. (See House Executive Documents No. 72, Fifty-third Congress, second session, and No. 316, Fifty-third Congress, third session.)

These expenses are defrayed by the Belgian Government and repaid by the eighteen signatory Powers to the General Act mentioned.

No demand has as yet been made for payments for the years covered by the item, but in order to be prepared to pay upon application, the necessary appropriation must be secured in advance.

7. *Second Secretary of Legation at Mexico City*.—I cordially recommend the adoption of the submitted item, asking the appropriation of \$2,000 to pay the salary of such an officer.

The Department has heretofore asked that an appropriation for that purpose be made, but without avail. The importance of the mission and the volume of work at the City of Mexico justify the request. If allowed, the legation in Mexico would be placed upon a footing similar in this respect to the other missions of the same grade. All other first-class missions have two secretaries.

CONSULAR SERVICE.

These estimates conform to the provisions of the Diplomatic and Consular Appropriation Act of March 2, 1895 (28 Stat. at Large, 815), with the following exceptions:

1. An appropriation of \$3,000 is recommended for the compensation of a consul at Chung-King, western China.
2. It is proposed to deprive the consulate at Ningpo, China, of salary, and reduce it to a consular agency under the supervision of the neighboring consul-general at Shanghai, and raise the consular agency at Chefoo to the rank of a consulate with the same salary as is now provided for the consulate at Ningpo—\$2,500.
3. An increase of the clerk hire allowance is requested for the consul at Sonneberg, Germany, giving him a total of \$1,000, in lieu of \$800, which he now has.
4. An increase of the allowance for clerks at consulates to be expended under the direction of the Secretary of State at consulates not otherwise provided for in respect of clerk hire, from \$20,000 to \$25,000.
5. An increase of \$2,000 for interpreters and guards in Turkish dominions.
6. Rent of prison for American convicts in Madagascar, and for wages of keeper of the same, \$1,000.

CONSULATE AT CHUNG-KING.

My reasons for recommending the establishment of a consulate at Chung-King are as follows:

The recent treaty of Shimonoseki, between Japan and China, provides in article 6 that the four towns or ports of Shashih, Chung-King, Su-Chow, and Hang-Chow, in addition to those already opened to foreign trade, shall be "opened

to the trade, residence, industries, and manufactures of Japanese subjects under the same conditions and with the same privileges and facilities as exist at the present open cities, towns, and ports of China. The Japanese Government shall have the right to station consuls at any or all of the above-named places."

Under the favored nation clause of our treaty with China (treaty of 1868, article 6) we are entitled to these same privileges at the above-mentioned places. While there appears to me to be no special reason, for the time being, for stationing consular officers at Shashih, Su-Chow, or Hang-Chow, there are, I think, very strong ones for establishing a consulate at Chung-King. We have no consular officer in western China. Hankow, where we have a consul, is the farthest point west at which there is a United States officer, and this is over 800 miles from Chung-King, and as over 400 miles of this distance is unnavigable, except in native boats, it usually takes six weeks to go from Hankow to Chung-King. Travel by land between these two points is hardly ever resorted to.

American missionaries are numerous in the western provinces, and a consular officer stationed among them who could communicate for them with the high native authorities and see that they were safe-guarded in all their interests and rights under the treaty would be of great service. The recent antforeign riots in western China have shown us how desirable the presence there of such an official would be. In 1886, when there were other riots of a similar nature in the city of Chung-King itself, this want was also much felt by our legation at Peking, and we were only able to settle the claims of our citizens who had suffered loss there, through the intervention and courtesy of H. B. M. minister.

From a commercial point of view, Chung-King is of very great importance. It is the emporium of the rich and densely populated regions of western China. As a distributing center, possessing ample banking facilities, its importance can not be overrated. Since the opening of this city to direct foreign commerce in 1891, its trade has very materially increased, and there is no doubt that it will continue to do so as foreign products become better known and the resources of this part of China are better appreciated abroad. Though all our trade with this region will probably pass through the port of Shanghai and Hankow, as is done at present, still a consul at this place could render very material service to our trade.

I strongly recommend that an appropriation of \$3,000 be made for the salary of a consul at the city of Chung-King.

CONSULATE AT CHEFOO—REDUCTION OF CONSULATE AT NINGPO.

I have recommended that in the estimates the item providing for a consulate at Ningpo, with a salary of \$2,500 be altered, and that the word "Chefoo" be substituted for that of "Ningpo." In case this recommendation is approved by Congress, the consulate at Ningpo will be reduced to a consular agency and placed under the supervision of the consul-general at Shanghai.

My reasons for recommending this change are these:

Ningpo is situated only a few hours by steamer from Shanghai, and though there are quite a number of American missionaries living there or near there, their interests could just as well be looked after from the latter place as from Ningpo. The trade of the place has never been large on account of its proximity to Shanghai, and for many years past there has been a progressive diminution in it. There is no direct trade between this port and the United States and such duties as a consular officer has to perform in connection with the invoicing of goods which, leaving this consular district, go via Shanghai to the United States, can be just as well discharged by an agent as by a consul or consul-general. The Chinese Customs Report for 1894 puts the direct imports from this country at 162 taels, or about \$165, and our own reports for the last fiscal year indicate that all the export business from the Ningpo consular district to the United States is now done through Shanghai.

Ningpo is never visited by ships of war, and the duties of a consul are therefore reduced to a minimum.

The reasons for advocating the removal of this consulate to Chefoo are, that this latter port is of great importance from its position between Tientsin and Shanghai. During three of the winter months it is the only port on the coast of northern China which is not icebound. It is a rendezvous of foreign fleets in summer, that of the United States going there every year, and it is the resort of all Americans from Shanghai, Peking, and the surrounding country who can get there, on account of its salubrious summer climate.

The trade of the port with the United States though small, is much more important than that of Ningpo. In the interior cities, west of Chefoo, are also a number of American missionaries who, being obliged to have recourse to the services of a consular officer, are now compelled to go to Tientsin or Shanghai, a long and expensive journey.

The direct exports from Chefoo to the United States in the last fiscal year were \$157,685.04; from Ningpoo, none.

CLERK HIRE AT SONNEBERG.

The amount appropriated for clerk hire in the consulate at Sonneberg has been found to be inadequate. The exports from that consular district to the United States are large in quantity, varied in kind, and are all subject to ad valorem duty. The consul certifies about 5,000 invoices a year, and is required to scrutinize each with great care to detect undervaluations. His correspondence with customs officers, other consuls, and with private persons in Europe and in the United States touching official matters is large. He needs two clerks. The amount now allowed him for clerk hire, \$800, is insufficient for the employment of two competent persons; but \$1,000, the amount recommended, will be sufficient for this purpose.

The work at the Sonneberg office is quite as important and onerous as at any consulate now allowed \$1,000 a year for clerk hire.

GENERAL APPROPRIATION FOR CLERKS AT CONSULATES—NOW \$20,000; \$25,000 RECOMMENDED.

Twenty thousand dollars, the amount now available for clerk hire at consulates not specifically provided with clerk-hire allowances, is insufficient, and the official work suffers in consequence. Twenty-five thousand dollars was appropriated for this purpose for the fiscal years ending June 30, 1893 and 1894; for the years ending June 30, 1891 and 1892, the appropriation for this purpose was \$35,000. In the appropriation act for the year ending June 30, 1895, the number of consulates provided by name with clerk hire was increased by twelve, and the appropriation for distribution by the Secretary of State was, for that reason, reduced to \$20,000. The same amount was appropriated for the current fiscal year. Eighty-four consulates are now furnished with clerk hire by special appropriation. The appropriation (\$20,000) for distribution

by the Secretary of State is used by forty-three others, leaving one hundred and ninety-three consulates and commercial agencies unprovided. Five thousand dollars more would supply thirty of these offices with much needed clerical assistance, and the Government would, in my opinion, be greatly benefited by the appropriation. For these reasons I earnestly recommend that the appropriation be made \$25,000.

PRISON IN MADAGASCAR.

The administration of justice in the United States consular court in Madagascar has been hindered by the lack of jail facilities. Expensive special arrangements have to be made whenever there is occasion to imprison a person either to await trial or in pursuance of the sentence of the court. An appropriation of \$1,000 a year for the rent of a jail and for the hire of a jailer would aid the court without increasing materially the expenses incurred in keeping prisoners under the present conditions.

INTERPRETERS AND GUARDS IN TURKISH DOMINIONS.

Two additional consulates—at Erzeroum and Harpoot—were provided for by Congress in the last appropriation act. These offices have been opened, and as it has been found impracticable to fill them with officers who speak the language of the country, an interpreter for each place is indispensable. The custom of the country requires also that the consulates be supplied with guards. These expenses can not be met for less than a thousand dollars (\$1,000) at each of the two consulates. I therefore recommend that the appropriation for interpreters and guards in Turkey be increased to \$8,000.

I have the honor to be, sir, your obedient servant,

The SECRETARY OF THE TREASURY.

RICHARD OLNEY,
Secretary of State.

APPENDIX B.

In Explanation of the Estimates for the International Boundary Commission Between the United States and Mexico. (See Estimates on page 96.)

DEPARTMENT OF STATE, Washington, October 16, 1895.

SIR: I have the honor herewith to submit two items additional to the estimates of appropriations transmitted by my letter of the 8th instant.

An appropriation of twenty-five thousand dollars (\$25,000) is required by the International Boundary Commission between the United States and Mexico, appointed under the conventions of 1882 and 1889, to enable them to complete their work. This Commission was appointed in 1891 to serve with a like Commission of the Mexican Government, and the survey was begun early in 1892 at the Rio Grande and continued to the Pacific Coast. The sum now asked is for the preparation of the manuscripts, including tables and results, for the joint report, together with a map of the survey covering a belt of territory two and one-half miles wide on the American side of the boundary, to be incorporated with a similar map of Mexican territory, prepared by the Mexican section of the Commission; also the preparation of the special reports of the American section, including astronomical and geodetic tables and results, and a geographical map embracing a more extended area than will be shown on the detail map of the Joint Commission. The work will involve the employment of expert draftsmen, a clerk, the rent of an office, and the expenses of the commissioners.

In order that the work of the Joint Commission may not be delayed, and that the Mexican Commission now here, engaged in their share of the report, may not be embarrassed, I would urge that the required sum be appropriated and made immediately available.

An appropriation of ten thousand dollars (\$10,000) is solicited for the preparation of the report of Dr. E. A. Mearns, United States Army, with accompanying illustrations, of the natural history of the regions of the survey. This report is commended by the commissioners as an acceptable and important contribution to science, and I approve their recommendation that the necessary funds be provided.

Inclosing a draft of the items mentioned, I have the honor to be, sir, your obedient servant,

The SECRETARY OF THE TREASURY.

RICHARD OLNEY,
Secretary of State.

APPENDIX C.

In Relation to the Estimates for "Salaries, Office of Supervising Architect." (See page 23.)

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., October 17, 1895.

SIR: I have the honor to inclose herewith an estimate for salaries for the office of the Supervising Architect for the fiscal year ending June 30, 1897, aggregating in amount five thousand two hundred and twenty dollars (\$5,220), and for services of skilled draftsmen, civil engineers, computers, accountants, assistants to photographer, copyists, and such other service as the Secretary of the Treasury may deem necessary, and especially order, in the office of the Supervising Architect for the fiscal year ending June 30, 1897, exclusively to carry into effect the various appropriations for public buildings, to be paid for from, and equitably charged against, such appropriations, \$250,000.

In compliance with the provisions of the act of Congress approved March 2, 1895, I also inclose herewith for transmittal to Congress with the annual estimates, a list of the employees of this office and the amount paid to each during the fiscal year ending June 30, 1895.

1	Clerk class three.....	1,600	Office of Auditor for Post-Office Department.....	Office of Supervising Inspector-General of Steamboats.
1	Assistant messenger.....	720	Office of the Secretary.....	Immigration Bureau.

Statement of the condition of business in the several bureaus and offices of the War Department and the number and compensation of employees who are appropriated for in one bureau and who have been detailed for duty in another bureau for more than one year.

In compliance with the requirements of section 7 of the legislative, executive, and judicial appropriation act, approved March 2, 1895, I have the honor to report that the work of the War Department is not in arrears in any of the bureaus or offices of the Department, except in the office of the Judge-Advocate-General of the Army, who makes the following report:

The work of this office is in arrears as follows:

COPYING.

1. Twenty-one court-martial records, averaging about thirty typewritten pages each; number of pages about 630.
2. Twenty reports and opinions, averaging about five typewritten pages each, to be copied on record cards; number of pages about 100.
3. Reports, opinions, etc., from November, 1888, to July, 1894, to be copied into permanent form on record books or cards (according to the system in use); number of typewritten pages about 11,170.
4. Consolidated index from August, 1882, to July, 1894, to be copied from rough draft; number of typewritten pages about 100.

Total pages to be copied, about 12,000.

INDEXING.

1. Precedent index is about 300 record cards behind.
2. Index of reports, opinions, etc., from May 31, 1893, to July 9, 1894, to be completed.
3. Consolidated index of reports, opinions, etc., from August, 1882, to March, 1890, to be verified.
4. One hundred and thirty court-martial records to be entered and index cards of same prepared.

SORTING, CLASSIFYING, AND CARD-INDEXING RESERVATION PAPERS.

Nearly half of this work has been done, but there yet remains about 150 file boxes of these papers to be classified and card-indexed.

To bring up the work now in arrears, it is estimated, will require the services of a copyist about two years, of an indexing clerk about six months, and of a clerk capable of classifying and card-indexing the reservation papers about ten months.

All of the work specified as being in arrears is in the Mail and Record Division of this office, and the reason is the recent transfer to this office of a mass of papers heretofore accumulated in the several bureaus of the Department, which must be classified and indexed for ready reference when required.

The following employees of the War Department appropriated for in one bureau or office have been detailed for duty in another bureau or office for a period of more than one year :

From the office of the Secretary of War to the office of the Inspector-General, one hostler at a compensation of \$540 per annum.
 From the office of the Inspector-General to the office of the Secretary of War, one messenger at a compensation of \$720 per annum.
 From the office of the Chief of Engineers to the office of the Secretary of War, one clerk at a compensation of \$1,400 per annum.

The salary estimates for the clerical force of the War Department for the ensuing fiscal year have been amended in order that the foregoing employees may receive compensation on the rolls of the bureau or office in which they are now employed and where their services are required.

DANIEL S. LAMONT,
Secretary of War.

Statement of the number and compensation of employees appropriated for in one bureau or office who have been detailed to another bureau or office for a period exceeding one year. (Required by legislative act of March 2, 1895, to be published in the Annual Book of Estimates.) Based on the list of detailed employees, October 1, 1895.

DEPARTMENT OF THE INTERIOR, Washington, October 17, 1895.

OFFICE OF THE SECRETARY.

From other bureaus :

From General Land Office: Three clerks of class two, one clerk of class one.
 From Patent Office: Two laborers, at \$480 each.
 From Pension Office: One clerk of class two, two special examiners, at \$1,300 each, two messengers, at \$840 each.
 From Geological Survey: One clerk at \$900.
 Summary: Four clerks of class two, one clerk of class one, one clerk, at \$900, two special examiners, at \$1,300 each, two messengers, at \$840 each, two laborers, at \$480 each.

To other bureaus :

To General Land Office: One copyist, at \$900.
 To Office of Education: One copyist, at \$900.
 To Pension Office: One laborer, at \$660.
 Summary: Two copyists, at \$900 each, one laborer, at \$660.

OFFICE OF INDIAN AFFAIRS.

From other bureaus :

None.

To other bureaus :

To Court of Claims in connection with Indian Depredation Claims: One clerk of class one.

OFFICE OF THE ASSISTANT ATTORNEY-GENERAL.

From other bureaus :

From General Land Office: One clerk of class four.

To other bureaus :

To General Land Office: One clerk of class three.

OFFICE OF EDUCATION.

From other bureaus :

From office of the Secretary: One copyist, at \$900.

To other bureaus :

None.

PENSION OFFICE.

From other bureaus :

From office of the Secretary: One laborer, at \$660.

To other bureaus :

To office of the Secretary: One clerk of class two, two special examiners, at \$1,300 each, two messengers, at \$840 each.

GENERAL LAND OFFICE.

From other bureaus :

From office of the Secretary: One copyist, at \$900.
 From office of Assistant Attorney-General: One clerk of class three.

To other bureaus :

To Office of the Secretary: Three clerks of class two, one clerk of class one.
 To Office of Assistant Attorney-General: One clerk of class four.

OFFICE OF COMMISSIONER OF RAILROADS.

No employees detailed from or to.

GEOLOGICAL SURVEY.

From other bureaus :

None.

To other bureaus :

To Office of the Secretary: One clerk, at \$900.

PATENT OFFICE.

From other bureaus :

None.

To other bureaus :

To Office of the Secretary: Two laborers, at \$480 each.

NOTE.—The total number of employees (all bureaus of the Department of the Interior combined) appropriated for in one bureau who have been detailed to another bureau "for a period exceeding one year," as here shown in the foregoing, is 18.

Respectfully submitted,

J. W. HOLCOMBE,
Chief of Appointment Division.

DEPARTMENT OF LABOR, *Washington, D. C., October 2, 1895.*

SIR: I have the honor to hand you herewith my estimates for the Department of Labor for the fiscal year ending June 30, 1897.

In accordance with the provisions of section 2 of an act approved July 11, 1890, making appropriations for the legislative, executive, and judicial expenses of the Government, etc., I have the honor to report that there are only two of the employees of this Department who can be considered as somewhat below a fair standard of efficiency, but this condition on their part is the result of recent ill health.

In accordance with section 7 of an act approved March 2, 1895, making appropriations for the legislative, executive, and judicial expenses of the Government, etc., I have the honor to report that the business of this Department is in excellent condition. The Department of Labor has no routine work, so that it is impossible to make a report specifically in accordance with the act cited as to whether any of it is in arrears, as the Department makes its own investigations and compiles the results and reports them to Congress. In accordance with the provisions of the same section I have to report that there are no employees appropriated for in one bureau or division who have been detailed to other bureaus or divisions for any period. Our Department has never been organized into divisions, and therefore the provisions of the section cited do not apply.

I am, very respectfully,

CARROLL D. WRIGHT,
Commissioner.

The SECRETARY OF THE TREASURY.

APPENDIX F.

Statement showing the number of persons employed in the Office of the Chief of Engineers and paid from the various appropriations for Rivers and Harbors, Fortifications, and Surveys, and the amount paid to each during the fiscal year ended June 30, 1895. (28 Stat., 789.)—Estimate for 1897 on page 47.

OFFICE OF THE CHIEF OF ENGINEERS, UNITED STATES ARMY,
Washington, D. C., September 13, 1895.

Respectfully submitted to the Secretary of War.

W. P. CRAIGHILL,
Brigadier-General, Chief of Engineers.

APPENDIX G.

Explanation of Estimates for Public Buildings and Grounds for the fiscal year ending June 30, 1897. (Estimates on pages 48, 49, and 200, 201.)

As some of the foregoing estimates are larger than the amounts heretofore appropriated, and as others are for new work, it is deemed advisable to submit the following brief explanation in reference thereto:

1. One public gardener, \$2,000. I have asked for an increase in the salary of the public gardener, a position now so satisfactorily filled by Mr. George H. Brown. The duties of the office require that the gentleman who fills it shall be thoroughly skilled in the culture of trees, shrubs, and plants, and shall have a practical knowledge of civil engineering as applied to landscape gardening. Mr. Brown combines these attributes, to which he adds taste, industry, and integrity. His duties take him from one end of the city to the other. He is directly responsible for the care of the valuable collection of plants in the propagating gardens, and superintends the propagation of plants that are annually raised for the public grounds, which this year numbered about 400,000.

2. One clerk in charge of old public records of Washington City, \$1,500. These records include maps, deeds, record books, letters, etc., from the organization of the original Board of Commissioners, near the close of the last century, up to

1867, when the duties were turned over to the Chief of Engineers. They are constantly examined by attorneys and others interested in lands in Washington, and the person in charge of them is frequently required to produce them in courts. To index them properly, to be able to turn at once to the details of any question raised, requires familiarity with every paper. This work has for the last few years been intrusted to the only draftsman allowed this office, and during the past year at least one-fourth of his time has been actually employed on this duty. It is desirable that this appropriation be made, in order that the draftsman may be permitted to attend to the necessary and legitimate duties of his office.

3. For one telegraph lineman, \$1,080. The telegraph system under charge of this office includes about 8 miles of overhead wire. There are eighteen offices connected with these lines, the main battery being at this office. The lineman is constantly engaged in the care of the main and local batteries and such necessary repairs and extensions as a system of wires of this kind requires. He is industrious, efficient, and capable, and has won the confidence of all with whom he has come in contact by faithful attention to his duties.

4. An increase in the appropriation for overseers, foremen, etc., is suggested. As the city of Washington is spreading to the north, east, and west, the area of improved reservations must be increased to keep pace with private enterprise, and the small increase requested will be of the utmost advantage in continuing the ornamentation of spaces now entirely unimproved.

5. An estimate is submitted for a day watchman at Garfield Park. The park is highly improved, covers an area of about twenty-four acres, and the necessity of a watchman for its care is apparent.

6. For the care and improvement of the Monument grounds, \$6,000. It is desirable that this important improvement should progress more rapidly than heretofore. The amount (\$2,000) appropriated for 1895 was sufficient merely to maintain the park in its present condition, and did not admit of any improvements in the unfinished portions of the grounds.

7. For painting watchmen's lodges, iron fences, vases, lamps, and lamp-posts, \$1,500 is requested. There are 8 watchmen's lodges, a number of post-and-chain fences, 18 vases, over 400 lamp-posts, and the iron fence around the Executive Mansion, all of which should be painted in 1896-97.

8. For trees, tree and plant stakes, etc., and stock for nursery, \$3,000 is asked in place of the \$2,000 last granted. The larger sum is the amount appropriated annually for more than twelve years ending June 30, 1892.

9. For removing snow and ice, the sum of \$1,500 is asked. The sum usually granted, viz, \$1,200, is generally sufficient, but sometimes is not. On account of the frequent snowstorms of the past winter the appropriation of \$1,200 for this purpose was exhausted, and a further appropriation of \$500 was asked and was made by the deficiency appropriation act approved March 2, 1895, which, becoming available so late in the season, was not used.

10. Fifteen thousand dollars is asked for improvement, care, and maintenance of various reservations in place of the \$10,000 granted this year. It is proposed to improve as many as possible of the unimproved reservations. Each year from one to five are added to the list of improved reservations, and if the funds now requested become available, six or eight can be added during the fiscal year ending June 30, 1897. As reservations are thus improved the expense of the care of the whole is slightly increased, for the improvements must be maintained.

11. For the Smithsonian grounds, \$5,000 is asked, and for Judiciary Park, \$5,000, in place of \$2,500 granted last year. The increased amounts can be profitably expended during the fiscal year ending June 30, 1897, in the improvement of those parks.

12. For placing granite curbing about Franklin Park, \$5,000 is asked. The beauty of this handsome park will be greatly enhanced by placing around it a granite curbing similar to those used around parks of the same style in the larger cities elsewhere.

13. For laying asphalt walks in various reservations, \$2,000. It is proposed to replace with first-class asphalt walks the gravel paths in Washington Circle, Mount Vernon, Stanton, Folger, Henry, and Seaton parks, and to renew those in Farragut Park and Du Pont Circle. In the late fall, winter, and early spring those walks are muddy, and pedestrians seek the lawns, which are thus destroyed by trespassers. The amount of these paths which it is proposed to lay is about 1,500 square yards. Each autumn it becomes necessary to put down plank walks, which must again be removed in the spring. If asphalt walks are laid the annual expense incident to plank walks will be avoided.

14. For improvement, care, and maintenance of Henry (Armory) and Seaton parks, \$3,000. These reservations, extending from Seventh street to the Botanic Gardens, cover an area of 34 acres, with road and walk surfaces of over 10,000 square yards. They are in an advanced state of improvement. Their beauty has been marred by the depot and tracks of the Baltimore and Potomac Railroad. A mound has been constructed around the depot, upon which it is intended to plant trees and shrubs, so that in time the depot will be hidden partially from view. The materials for this mound have thus far been obtained free of expense to the United States, and it is now proposed to complete the grading of the mound and to seed and plant it. The funds requested are needed for this purpose and for the care of roads, lawns, gutters, etc., and laying out additional paths.

15. For lodges for park watchmen in Stanton, Mount Vernon, Iowa, Du Pont, Thomas, and McPherson reservations, at \$500 each, \$3,000. The watchmen in these reservations are exposed to the inclemency of the weather at all seasons of the year. Rain or shine, hot or cold, night or day, year in and out, they must be at their stations and take shelter, when necessary, either under a tree or in such a dwelling or store as will offer its hospitality. The dictates of humanity call for this appropriation.

16. The sum of \$100 is asked for repairing pedestals and cleaning statues. Several of the pedestals need repointing, and the statues are from time to time disfigured by bird lime, which must be removed.

17. An estimate is submitted for the improvement of Hancock Place, corner Pennsylvania avenue and Seventh street, \$3,000; this is a prominent place, upon the principal avenue in the city, and it is urgently hoped that funds may be appropriated for its improvement and ornamentation.

18. In accordance with the terms of the act of Congress approved August 30, 1890, and at the request of the Citizens Committee of East Washington, the use, as a children's playground, of Reservation No. 126, at the intersection of Georgia and Virginia avenues, has been authorized.

The citizens committee has requested that a fence be constructed around the reservation, which contains about 2 acres, and that trees be planted, and water introduced. An estimate of \$1,500 is submitted for this work.

19. The appropriation requested for lighting Executive Mansion and public grounds, and which is in excess of that made last year, is deemed very necessary in order to change the system in Lafayette and Franklin parks from gas to electric lights. In the interest of morality, as well as for the protection of persons visiting or passing through the parks after dark, it is desirable to make them as light as possible at night.

20. An estimate is again submitted for replacing the old and decayed telegraph poles with new and taller poles. The growth of the trees on the sidewalks renders it absolutely necessary, in order to maintain telegraphic communication over these wires, either to erect at once taller poles at a cost of about \$1,600, or to lay an underground cable at a cost of \$25,000. It appears to be the will of Congress that no more overhead wires shall be placed in this city (see District of Columbia appropriation act of July 18, 1888).

21. I recommend that the salaries of the two steam engineers at the Washington Monument be increased from \$80 and \$60 to \$90 and \$70 per month, respectively. The duties of these two men are of great importance. Upon their efficiency and intelligence depend, to a great extent, the lives of those who use the elevator. The increase asked is small, and the men deserve it. I also recommend that the pay of the two firemen be placed at \$60 per month each. That is the rate allowed firemen in the Executive Departments, and there appears to be no reason why the firemen at the Monument should receive less.

APPENDIX H.

In relation to the estimates of the Office of Naval Records of the Rebellion. (See page 50.)

NAVY DEPARTMENT, LIBRARY AND NAVAL WAR RECORDS,
Washington, D. C., August 30, 1895.

SIR: I have the honor to transmit herewith estimates for the Office of Naval War Records and for the Department Library for the fiscal year 1896-97, marked, respectively, A, B, and C.

Since my last annual report the first volume of the Official Records of the Union and Confederate navies in the War of the Rebellion has been published by this office, under authority of an act of Congress approved July 31, 1894. In accordance with this act, the distribution of the volume, comprising an edition of 10,000 copies, has been completed, as far as the lists of addresses of recipients of the congressional and departmental quotas have been received. By the terms of the law, the volumes remaining on hand after this distribution are to be sold by the Department at 10 per cent above their cost price, the proceeds of which sale are to be turned into the Treasury. There being but comparatively a small number of members thus far who have failed to send in their quota of addresses, and as these gentlemen have been allowed until the meeting of the next Congress to do so, I think the number of volumes remaining for sale will be small.

The second volume of the records is in the hands of the printer, and will soon be issued, and it is hoped that two more volumes will be ready for the press during the present fiscal year. The demand for this publication has been large, and it has been found impossible for this office to supply the numerous requests for the work. Its reception by the naval service, by the press, and by the public generally has been most gratifying, and it is to be regretted that the original edition was not larger, in order that the Department could have supplied some of the many applications which it was compelled to refuse for lack of volumes. In this connection, I desire to bring to your notice the fact that the quota allowed the Navy Department, of 1,048 copies, is not sufficient to supply the work to officers of the navy, contributors, etc., so that by your direction the volumes have been sent only to such naval officers as had seen active service during the civil war. It seems, however, only just that all officers of the navy should be supplied with the work, if they desire it, and to this end I recommend that Congress be asked to increase the quota of the Navy Department by 1,000, making the whole edition 11,000 copies.

In order to carry out properly the views of Congress in reference to this publication, I deem it essential that there be a reorganization of this office, and an increase in expert clerical assistance. It is estimated that there is enough original manuscript selected to make between twenty and thirty volumes of the records of from nine hundred to one thousand pages each. To get this material into the proper shape necessitates the reading of between seven and eight thousand volumes of original manuscript, with a view to the selection of such papers as may be pertinent to the character of the work. The papers so selected are copied, verified with the originals, carefully examined as to dates, correct spelling of geographical and proper names, and are then classified, collated, headed, and compiled, after which the volume is printed, indexed, bound, and wrapped, when it is distributed all over the country to the addresses filed in this office by members of Congress to authorized recipients of the work. This distribution of 10,000 copies of each volume, of which an accurate record must be kept, is in itself no small undertaking, and necessitates an amount of detail and attention which requires care. The correspondence also of the office in reference to the publication and distribution of the records has grown into large proportions.

To execute properly the task of publication of this important historical work, as thus briefly outlined, the force of this office is, in my judgment, entirely inadequate. During the past year, by the most assiduous and unremitting labor, we have managed to get out one volume and nearly completed another, which, although a fair beginning, is still an exceedingly small showing when the magnitude of the future work is considered. In view of the large sums which have already been supplied under authority of Congress upon the collection and preparation of these records, it would seem to be in the true interest of economy to the Government that their publication should now be pushed to completion without unnecessary delay.

An examination of the present plan of publication which has been adopted by the Department will show that the selection of original manuscript to be introduced into the records rests entirely in the hands of the Superintendent. I am of the opinion, in the interest of the true historical value of the work, that this duty could be performed to better advantage by a board of publication, to be composed of one naval officer and two civilian expert members. There seem to be strong reasons in favor of this board, chief among which may be cited that such an organization would give a definite and settled policy to the management of the publication until its completion, which changes of the naval member would not effect. That such a settled policy is vital to the success and speedy completion of the work seems to be beyond question. Another reason in favor of such a board, if properly constituted, is that the question of the selection or rejection of original manuscript for introduction into the compilation could be more fairly decided upon to the impartial interest of each side of the

conflict in the civil war, an important consideration to the historical value of the work. The plan of a board of publication has given satisfactory results in the War Department in the work of the Army War Records, a publication similar to our own.

In submitting the estimates for the next fiscal year, no increase in the regular clerical force of the office has been requested, with the exception of one item, viz, that of a laborer. The services of such a man are indispensable for the proper distribution of the volumes. The estimate for the publication fund has been increased to the sum of \$50,000, which figure is intended to cover the cost of the additional volumes for the next fiscal year, and also to establish a board of publication, as recommended in this report, and to provide for the cost of same, as well as to provide for the temporary expert clerical assistance required. It also allows for the increase of 1,000 copies in the quota of the Department, all of which is hereby respectfully submitted and recommended.

The work of collecting material for the Naval War Records has been continued during the past year, and many valuable papers have been obtained. The reports of the Union commanders are full and fairly complete. It is to be regretted, however, that the Confederate records are not equally complete, due to the great difficulty found in collecting them, and also to the fact that a large part of the archives of the Confederate Navy Department was burned at the close of the war. Frequent careful searches throughout various parts of the country, conducted by a special agent of the Department, have brought to light many duplicates of these papers, found among the personal files of participants. It is hoped that the publication of the first volume of the work will revive the interest of participants in the events referred to, and bring additional material into our possession. The search for such matter is still being vigorously continued by this office.

Since my last annual report there has been added to the Department Library 695 volumes. The small increase of books during the year has been due to decreased appropriations allowed us, Congress having appropriated for professional books and periodicals during the present fiscal year only the sum of \$500. It is recommended that the estimate for this purpose be restored to \$1,000, this amount being necessary to keep up the present high professional standard of the library, as well as to supply the Naval Intelligence Office with technical and professional information.

Very respectfully,

RICHARD RUSH,
Superintendent Naval War Records.

The SECRETARY OF THE NAVY.

APPENDIX I.

In explanation of the estimates of the Commissioner of Patents. (See pages 59 to 61.)

DEPARTMENT OF THE INTERIOR, UNITED STATES PATENT OFFICE,
Washington, August 5, 1895.

SIR: I have the honor to submit herewith an estimate of the appropriation required for the Patent Office for the fiscal year ending June 30, 1897, and to make the following explanations respecting the items in which an increased appropriation has been recommended:

I have estimated for an increase in the salary of the Commissioner's law clerk. Since the establishment of the court of appeals for the District of Columbia, having appellate jurisdiction over the Patent Office, not only in *ex parte* cases but in interferences, the work of this officer has been greatly increased. During the past two years it has been his duty to represent the Commissioner in nine *ex parte* appeals directly to this court, in four mandamus proceedings brought in the first instance against the Commissioner in the supreme court of the District, two of which went upon appeal to the circuit court of appeals, and one to the Supreme Court of the United States. There are now pending four *ex parte* appeals from this office in the court of appeals, of which the law clerk has the sole management and responsibility. By the establishment of this court his duties are much increased, and are arduous, and these are in addition to his customary work of reporting on all law propositions that are required of him by the Commissioner as regards the regular work of the office. It appears to be very clear that the additional compensation is merited, and the \$500 increase in salary should be allowed.

I have repeated the recommendation made by me in each year of my administration of this office, for the establishing and maintenance of a classification division, which also was the subject of a supplemental estimate submitted to the Secretary of the Treasury by yourself on January 22, 1895. A similar action was taken by you on April 10, 1894, forwarding to the Secretary of the Treasury my letter of January 26, 1894. I respectfully urge that this estimate may now be included and incorporated in the regular estimates to be submitted to Congress in December next. The necessity and reasons for this classification division have been set forth by me in letters addressed to yourself at various times as well as in the annual reports of this office to the Secretary of the Interior and to Congress, and hence need not be reiterated here. I have only to further remark that after a longer contact and acquaintance with the office and the patent system of this country my opinion has been confirmed that only through this work can the risk be minimized of issuing duplicate and invalid patents.

The next increase incorporated in these estimates is for the Scientific Library. The office imperatively requires the full amount of \$10,000 to properly supply the present deficiencies of the library. In this matter, also, I have on former occasions set forth so fully and in detail the need for this appropriation that a further discussion at this time seems unnecessary. Handicapped as the library has been on account of insufficient funds, it contains at the present time undoubtedly the most valuable collection of technical and scientific publications belonging to the Government, but the office has been greatly assisted in maintaining its high standard by the liberality of foreign governments and publishing houses in this country by consenting to exchanges. But a serious difficulty has arisen which threatens to restrict these exchanges on account of the small amount allowed to this office for postage. In each year this allowance has been exhausted before the expiration of the fiscal year, and the mailing of our publications has been stopped. By reason of these interruptions the office has received notices that exchanges will be discontinued, and in a number of these cases the publications received by this office have greatly exceeded in value those we send in free exchange. From 1879 to 1885 Congress provided an annual appropriation of \$5,000 for the library. This amount has been scaled until now only about \$1,500 is available for the purchase of books and periodicals, the remaining \$350 being expended in transporting our publications abroad through the Smithsonian Institution. The amounts for each of these purposes are wholly inadequate.

In order to continue the foreign exchanges and pay for the transportation of our publications abroad, I have submitted an estimate of \$2,000. Reference has herein been made to the evils which will result to the library by an arbitrary limitation in the amount available for sending our publications to foreign governments. The estimate submitted simply restores to this office the \$2,000 allowed by Congress for transportation expenses prior to the act of July 31, 1886. In the note appended under this head in the estimates I have briefly stated the urgent need for the restoration of this appropriation. The amount is absolutely necessary to the efficiency of the public service in this behalf, and the appropriation should not be withheld.

The estimate for the Official Gazette is made along the lines of the present method of producing the Gazette. It is somewhat less than that of last year by reason of the success of the office in obtaining lower bids for the work than heretofore; yet it is somewhat larger than would be required for the quantity of work of the year just closed. From the number of patents granted during the last seven weeks, and from other equally reliable indications, it is apparent that there will be issued during the fiscal year 1896-97 about 22,000 mechanical patents, as against 19,634 for the past fiscal year. I therefore estimate the cost of producing the Gazette to be \$95,900, and the cost for the photolithographic work to be \$59,000.

I desire to ask that the appropriation for the Official Gazette be recast in such manner that the Patent Office may procure the work to be done by contract by printing direct from type or from lynotypes or from electroplates made therefrom, and that the illustrations be made by photo-engraving, or by equivalent process, upon plate. Before giving out the last contract I advertised for alternative proposals for producing the Official Gazette in this manner, and received two bids on the plan now recommended, one from a well known, established house in Baltimore, the other from an enterprising business man in this city who proposed to procure a plant for the purpose of producing the Gazette, both of which guaranteed to do the work for a much lower sum of money than the Gazette had ever been produced for before, and the work was as a whole of better quality than can be produced by photolithography. The appropriation required for its production entire after this manner, including the weekly, monthly, quarterly, and annual indexes, would, in my judgment, be not more than \$86,000.

Next, the appropriation for the share of this Government in the expense of conducting the international bureau at Berne, Switzerland, has been increased in these estimates, so that the amount originally provided, viz, \$800, has been included.

Finally, an estimate of \$1,250 has been submitted to provide for temporary details of members of the examining corps to make personal investigation and study into the special industries bearing upon their work in the office. It is believed that the efficiency of the corps will be greatly increased by these practical examinations into manufactures.

As regards the new propositions in this estimate I beg to request the honor of an oral interview whenever the subject is taken up for definite action.

Very respectfully, your obedient servant,

JOHN S. SEYMOUR,
Commissioner.

The SECRETARY OF THE INTERIOR.

APPENDIX J.

Memorandum of Attorney-General as to basis of estimate of the amounts needed under the appropriations for the fiscal year 1897, together with a statement of the amounts expended during the fiscal year 1895.

SALARIES AND EXPENSES UNITED STATES COURTS, INDIAN TERRITORY.

(Estimate on page 86.)

The amount of the regular pay roll under this appropriation is :

Three judges.....	\$15, 000 00
Three marshals.....	12, 000 00
Three attorneys.....	12, 000 00
Three clerks.....	9, 000 00
Ten deputy clerks.....	12, 000 00
Eighteen commissioners.....	27, 000 00
Twelve deputy marshals (regular).....	14, 000 00
Thirty-three deputy marshals (special).....	39, 600 00
Eighteen constables.....	10, 800 00
One clerk court of appeals.....	1, 200 00
Total.....	\$152, 600 00
The amount of accounts rendered by the three marshals for expenses of deputies for the quarter ended June 30, 1895, is \$2,500, which for one year would be.....	10, 000 00
It is impossible to make any correct estimate of the expenses in the Indian Territory. The instructions issued by the Attorney-General direct that the majority of the expenses incident to the running of the courts in the three districts of the Territory—other than fees of witnesses, fees of jurors, and support of prisoners—be paid from the appropriation for salaries and expenses. All blanks have to be printed for the different officials and paid for from this appropriation, and the number of blanks already asked for is 120,000. The rents of offices for the different officials, other than regular court-houses, and the expense of supplies for the several offices are paid from this appropriation. It is perhaps fair to suggest that for incidental expenses there will be needed at least.....	
The total appropriation, therefore, which should be so worded as to include the salaries of constables, should be, from the above estimate.....	50, 000 00
	210, 600 00

Traveling Expenses, Territory of Alaska.

(Estimate on page 262.)

During the year 1895 there has been expended under this appropriation.....	428 90
The appropriation made for 1895 will perhaps be sufficient.....	500 00

ESTIMATES OF APPROPRIATIONS.

Rent and Incidental Expenses, Territory of Alaska.

(Estimate on page 262.)

The amount expended under this appropriation during the fiscal year 1895 was..... \$1,997 45
 There is no data to show that an appropriation in excess of that for 1895 will be needed, viz 2,000 00

(Estimates for the following items will be found on pages 263 and 264.)

Fees and Expenses of Marshals.

The amount of the accounts rendered during the fiscal year 1895, under this appropriation, is..... 1,685,000 00
 It is fair to presume, in view of the decision of the Comptroller relative to expenses in the Indian Territory, that during the present fiscal year the amount of accounts under this appropriation will be..... 1,635,000 00
 For which amount an appropriation should be asked of Congress.
 The appropriation for 1896, the current fiscal year, is..... 675,000 00
 So that undoubtedly a deficiency will have to be asked in the amount of..... 960,000 00

Fees of District Attorneys.

The disbursements during the fiscal year 1893, under this appropriation, were..... 290,694 35
 Disbursements during the fiscal year 1894..... 384,460 59
 The amount appropriated for the fiscal year 1895, which is now exhausted, was..... 350,000 00
 The amount of the accounts of district attorneys for the fiscal year 1895, awaiting payment and settlement in the Treasury Department, is.. 57,986 72
 Therefore a deficiency for the fiscal year 1895 is required of..... 58,000 00
 It is fair to presume that there will be needed for the fiscal year 1897..... 410,000 00
 The appropriation for 1896 is..... 250,000 00

Special Compensation of United States Attorneys.

For the fiscal year 1893 there was appropriated and disbursed for special compensation of United States attorneys..... 12,488 33
 For the fiscal years 1894 and 1895 there was appropriated \$5,000 for each year. Of this amount there has been disbursed but \$220.50, and that for the fiscal year 1894. No payments have been made from this appropriation for the fiscal year 1895. The above is in view of the decision of the Comptroller of the Treasury relative to special compensation to United States attorneys. The amount asked for, for the fiscal year 1897, must be in the discretion of the Attorney-General as to whether or not the decision of the Comptroller will govern.

Regular Assistant United States Attorneys.

The amount disbursed under this appropriation for the fiscal year 1895 is..... 121,918 95
 If the list of assistant attorneys is to be increased—this matter being within the discretion of the Attorney-General—an additional appropriation must be asked for. The amount heretofore appropriated, \$126,000, will, as noted, about cover the list of those now employed.

Special Assistant Attorneys.

The amount disbursed under this appropriation for the fiscal year 1893 was..... 56,326 36
 Fiscal year 1894..... 76,376 67
 Fiscal year 1895..... 51,458 76
 The amount appropriated for 1896 is..... 25,000 00

Disbursements under this appropriation, of course, depend upon the payment of special assistant attorneys. The number and compensation to be paid them rest with the Attorney-General.

The expenditures during the three fiscal years above named will perhaps form an estimate of the amount needed for this purpose during the fiscal year 1897.

Fees of Clerks.

The amount disbursed under this appropriation for the fiscal year 1893 was..... 289,536 78
 Fiscal year 1894..... 294,997 38
 Fiscal year 1895..... 291,251 27
 The appropriation is now practically exhausted, and there are now in the division of bookkeeping and warrants, Treasury Department, certificates under this appropriation amounting to..... 5,352 84
 There are now in the Auditor's office, awaiting settlement, accounts amounting to..... 34,184 88
 It is fair to presume, therefore, that an appropriation for the fiscal year 1897 will be needed of..... 330,000 00
 The appropriation for 1896 is..... 175,000 00

Fees of Commissioners.

The amount disbursed under this appropriation for the year 1893 was..... 296,086 72
 Fiscal year 1894..... 327,379 12
 Fiscal year 1895..... 287,200 00
 There are certificates now in the division of bookkeeping and warrants, Treasury Department, awaiting payment to the amount of..... 43,912 45
 There are accounts unsettled in the Auditor's office amounting to..... 9,597 00
 There will be needed a deficiency for the fiscal year 1895 of..... 53,509 45
 It is fair to presume that there will be needed an appropriation for the fiscal year 1897 of..... 340,000 00
 The amount appropriated for 1896 is..... 100,000 00

Fees of Jurors.

The amount of the accounts rendered by United States marshals, under the appropriation fees of jurors for the fiscal year 1895, is, in round figures..... 715,000 00
 It is fair to presume, in view of the fact that many of the courts adjourned on account of the deficiency in the appropriation for fees of witnesses, that the amount needed for the fiscal year 1895 would have been in excess of that shown by the accounts rendered, and that an appropriation for the fiscal year 1897 will be needed of..... 800,000 00
 The amount appropriated for the fiscal year 1896 is..... 600,000 00

Fees of Witnesses.

The amount of the accounts rendered by United States marshals under this appropriation for the fiscal year 1895, in round figures, was..	\$1, 395, 000 00
Owing to a deficiency in the appropriation, many witness claims were not paid. From a partial report that has been received from United States marshals there are outstanding in their hands claims at the present time amounting in round figures to.....	74, 000 00
Making a total of	1, 469, 000 00
If many of the courts had not adjourned, it is believed that the claims under this appropriation would have been in excess of the amount above named, and it is fair to presume, therefore, that an appropriation will be needed for the fiscal year 1897 of at least.....	1, 500, 000 00
The appropriation for the fiscal year 1896 is.....	750, 000 00

Support of Prisoners.

The amount of the accounts rendered by the United States marshals under the appropriation for support of United States prisoners for the fiscal year 1895 is, in round figures.....	714, 000 00
The amount of the accounts in the hands of United States marshals awaiting payment, according to the partial reports that have been received under this appropriation, is.....	51, 762 76
It is fair to presume, without considering, as a separate item, the expenses of the Fort Leavenworth Penitentiary, that there will be needed for support of prisoners for the fiscal year 1897.....	766, 000 00
The appropriation for 1896 is.....	275, 000 00
And for the Fort Leavenworth Penitentiary.....	125, 000 00

Rent of Court Rooms.

The amount disbursed under this appropriation for the fiscal year 1893 was.....	77, 846 48
For the fiscal year 1894.....	80, 956 89
For the fiscal year 1895.....	90, 499 82
It is fair to presume, in view of the additional expense incurred in the Indian Territory that there will be needed for the fiscal year 1897 at least.....	100, 000 00
The amount appropriated for the fiscal year 1896 is.....	50, 000 00

Pay of Bailiffs.

The amount of the accounts rendered by United States marshals under this appropriation for the fiscal year 1895 is, in round figures.....	194, 000 00
Owing to the deficiency in this appropriation for the fiscal year 1895 many of the courts adjourned, and from the reports already received from United States marshals there are in their hands under this appropriation claims amounting to.....	9, 627 02
Which makes a total of	203, 627 02
Unless the courts had adjourned, undoubtedly this amount would have been exceeded, and it is fair to presume that there will be needed for the fiscal year 1897 at least	220, 000 00
The appropriation for the fiscal year 1896 is	150, 000 00

Miscellaneous Expenses.

The amount of the accounts under this appropriation rendered by United States marshals during the fiscal year 1895 is, in round figures..	188, 000 00
As many of the expenses in the Indian Territory formerly paid from this appropriation are now paid from the appropriation Salaries and Expenses, United States Court, Indian Territory, and in view of the fact that marshals are required to obtain authority before incurring expenditures under the appropriation, it is fair to presume that there will be needed for the fiscal year 1897.....	200, 000 00
The amount appropriated for 1896 is.....	170, 000 00

APPENDIX K.

Statement showing wherein the Estimate for Pay, etc., of the Army for the Fiscal Year ending June 30, 1897, Varies from the Amount Appropriated for like Purposes for the Fiscal Year ending June 30, 1896.

Items.	Estimate for 1897.	Appropriated for 1896.	Increase.	Decrease.	Remarks.
Pay of officers of the line.....	\$2,863,713 82	\$2,750,000 00	\$113,713 82		Estimate based upon present organization.
Pay of officers for length of service, to be paid with current monthly pay.	797,327 98	775,000 00	22,327 98		Estimate based upon expenditures of past fiscal year.
Pay of enlisted men.....	4,296,168 00	4,170,000 00	126,168 00		Estimate made for 25,000 men, less 181 men, estimated with Military Academy.
Pay to enlisted men for length of service.....	461,448 00	440,000 00	21,448 00		Estimate based upon amount expended last year and information furnished from Adjutant General's office.
Hospital Corps.....	206,280 00	215,000 00		\$8,720 00	Estimate based upon letter from Surgeon-General, U. S. Army.
Pay of officers, Adjutant General's Department.....	47,500 00	52,500 00		5,000 00	Decrease in two majors.
Additional for length of service, Adjutant General's Department.	14,250 00	15,700 00		1,450 00	Do.
Pay of officers, Ordnance Department.....	126,300 00	127,900 00		1,600 00	Decrease difference in pay as captains and lieutenants.
Additional for length of service, Ordnance Department.....	37,890 00	38,370 00		480 00	Do.
Pay of officers, Subsistence Department.....	71,500 00	77,500 00		6,000 00	Decrease in three captains.
Additional for length of service, Subsistence Department....	21,450 00	23,250 00		1,800 00	Do.
Pay of officers, Medical Department.....	391,900 00	388,300 00	3,600 00		Additional to lieutenants who will be entitled to captains' pay on account of five years' service.
Additional for length of service, Medical Department.....	117,570 00	116,490 00	1,080 00		Do.
Pay of officers, Pay Department.....	74,000 00	84,000 00		10,000 00	Decrease in four majors.
Additional for length of service, Pay Department.....	22,200 00	25,200 00		3,000 00	Do.
Pay of retired officers.....	1,234,407 01	1,075,000 00	159,407 01		Based upon information received from Adjutant General's office.
Additional for length of service, retired officers.....	353,837 18	325,000 00	28,837 18		Estimate based upon average disbursements for past five years.
Pay of enlisted men on the retired list.....	386,287 25	325,000 00	61,287 25		Estimate based on number of retired enlisted men reported by the Adjutant General, U. S. Army.
Senior veterinary surgeons.....	4,800 00	4,000 00	800 00		Additional amount required to pay the number authorized by law.
Pay, etc., paymasters' clerks, paymasters' messengers, traveling expenses of same, and expert accountant, Inspector General's Department.	81,363 81	80,000 00	1,363 81		Estimate based upon expenditures of past year.
Expenses of courts-martial, courts of inquiry, and compensation of reporters and witnesses attending the same.	6,740 82	6,148 09	592 73		Do.
Commutation of quarters to officers on duty without troops at stations where there are no public quarters.	210,725 48	175,000 00	35,725 48		Do.
Travel pay, retained pay, clothing not drawn, and interest on deposits payable to enlisted men on discharge.	792,515 28	790,000 00	2,515 28		Do.
	12,620,204 63	12,079,358 09	578,896 54	38,050 00	
	12,079,358 09		38,050 00		
	540,846 54		540,846 54		

APPENDIX L.

Detailed estimate for "Pay of the Navy." (Estimate on page 129.)

Estimate of the amount required to pay the officers of the United States Navy for the fiscal year ending June 30, 1897.

ACTIVE LIST.

Grade.	Sea duty.			Other duty.		
	No.	Pay per annum.	Total.	No.	Pay per annum.	Total.
5 Rear-admirals.....	3	\$6,000	\$18,000	2	\$5,000	\$10,000
1 Rear-admiral (chief of bureau).....				1	6,000	6,000
1 Commodore (chief of bureau).....				1	5,000	5,000

APPENDIX N.

Statement (prepared in accordance with Statutes at Large, Vol. 24, page 512) of persons employed on contingent force at public buildings in course of construction, etc., showing names, occupation, time of service, rates of compensation, and total amount of compensation during the fiscal year ended June 30, 1895.

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., November 7, 1895.

SIR: In accordance with the requirements of an act of Congress approved March 3, 1887 (ch. 362, p. 512, Vol. 24, U. S. Statutes at Large), I have the honor to inclose herewith a statement of the persons employed upon public buildings throughout the United States, and paid from the appropriations for their construction, showing where said persons were employed, in what capacity, the length of time, rate of compensation, and total amount of compensations during the fiscal year ended June 30, 1895, for transmission to Congress with the estimates of appropriations.

I have the honor to be, respectfully, yours,

SCOTT NESBIT,
Chief of Appointment Division.

The SECRETARY OF THE TREASURY.

APPENDIX P.

In Relation to the Estimates for the Revenue Cutter Service. (See page 232.)

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., October 4, 1895.

SIR: I have the honor to transmit herewith an estimate for an appropriation required for the Revenue Cutter Service during the fiscal year ending June 30, 1897, in detail, showing, separately, the amount required for pay of officers, rations for officers, pay of crews, rations for crews, clothing for crews, fuel, repairs and outfits, ship chandlery and engineers' stores, and for traveling and contingent expenses, pay of pilots, and commutation of quarters, as required by chapter 410 of the public acts of the Fiftieth Congress of the United States, passed at the second session (25 Stat., 907), and also, in accordance with the same act, herein include a statement showing the authorized number of officers in the Revenue Cutter Service, their rank and pay, as follows:

ACTIVE LIST.

36 Captains, at \$2,500 per annum.....	\$90,000
36 First lieutenants, at \$1,800 per annum.....	64,800
36 Second lieutenants, at \$1,500 per annum.....	54,000
11 Third lieutenants, at \$1,200 per annum.....	13,200
25 Cadets, at \$500 per annum.....	12,500
26 Chief engineers, at \$1,800 per annum.....	46,800
26 First assistant engineers, at \$1,500 per annum.....	39,000
26 Second assistant engineers, at \$1,200 per annum.....	31,000
222 Officers—annual pay.....	351,500

Provided, That hereafter the active list of commissioned officers of the Revenue Cutter Service shall not exceed thirty-six captains, thirty-six first lieutenants, thirty-six second lieutenants, thirty-six third lieutenants and cadets, twenty-six chief engineers, twenty-six first assistant engineers, and twenty-six second assistant engineers, or two hundred and twenty-two in all. And all vessels of the Revenue Cutter Service shall have such number of forward officers and enlisted men of all ratings, not exceeding the number of petty officers and men now authorized by law, as in the opinion of the Secretary of the Treasury, may be necessary to efficiently man them for service.

PERMANENT WAITING ORDERS LIST.

9 Captains, at \$1,250 per annum.....	\$11,250
6 First lieutenants, at \$900 per annum.....	5,400
2 Second lieutenants, at \$750 per annum.....	1,500
1 Third lieutenant, at \$600 per annum.....	600
12 Chief engineers, at \$900 per annum.....	10,800
6 First assistant engineers, at \$750 per annum.....	4,500
3 Second assistant engineers, at \$600 per annum.....	1,800
39 Officers—annual pay.....	35 850

I also report the number of men constituting the crews of the vessels in the Revenue Cutter Service:

On vessels on the Atlantic, Pacific, and Gulf coasts:		Annual wages.	On vessels on the Great Lakes, calculated as in commission eight months in the year:		Annual wages.
20 Petty officers, at \$45 per month.....		\$10,800 00	9 Petty officers, at \$40 per month.....		\$2,880 00
47 Petty officers, at \$40 per month.....		22,560 00	3 Petty officers, at \$35 per month.....		840 00
6 Petty officers, at \$38 per month.....		2,736 00	6 Petty officers, at \$30 per month.....		1,440 00
16 Petty officers, at \$35 per month.....		6,720 00	4 Seamen, at \$40 per month.....		1,280 00
12 Petty officers, at \$32 per month.....		4,608 00	6 Seamen, at \$27.50 per month.....		1,320 00
32 Petty officers, at \$30 per month.....		11,520 00	16 Seamen, at \$25 per month.....		3,200 00
3 Seamen, at \$55 per month.....		1,980 00	20 Seamen, ordinary, at \$20 per month.....		3,200 00
16 Seamen, at \$45 per month.....		8,640 00	7 Stewards and cooks, at \$35 per month.....		1,960 00
13 Seamen, at \$40 per month.....		6,240 00	3 Stewards and cooks, at \$30 per month.....		720 00
12 Seamen, at \$30 per month.....		4,320 00	3 Boys, at \$15 per month.....		360 00
30 Seamen, at \$28 per month.....		10,080 00	13 Boys, at \$12 per month.....		1,248 00
32 Seamen, at \$27.50 per month.....		10,560 00	7 Oilers, at \$35 per month.....		1,960 00
70 Seamen, at \$25 per month.....		21,000 00	2 Firemen, at \$45 per month.....		720 00
36 Seamen, ordinary, at \$24 per month.....		10,368 00	7 Firemen, at \$30 per month.....		1,680 00
83 Seamen, ordinary, at \$20 per month.....		19,920 00	1 Coal-passers, at \$40 per month.....		320 00
12 Stewards, at \$40 per month.....		5,760 00	7 Coal-passers at \$25 per month.....		1,400 00
38 Stewards, at \$35 per month.....		15,960 00	3 Buglers, at \$25 per month.....		600 00
10 Cooks, at \$35 per month.....		4,200 00			
18 Cooks, at \$30 per month.....		6,480 00			
35 Boys, at \$15 per month.....		6,300 00	913 Men—total annual pay.....		296,064 00
79 Boys, at \$12 per month.....		11,376 00			
15 Oilers, at \$40 per month.....		7,200 00	Pilots employed on vessels of the Revenue Cutter Service:		
30 Oilers, at \$35 per month.....		12,600 00	2 Pilots, at \$119.12½ per month.....		2,859 00
1 Fireman, at \$75 per month.....		900 00	5 Pilots, at \$109.12½ per month.....		6,547 50
1 Fireman, at \$60 per month.....		720 00	10 Pilots, at \$100 per month.....		12,000 00
9 Firemen, at \$50 per month.....		5,400 00	1 Pilot, at \$109.12½ per month, eight months.....		873 00
7 Firemen, at \$45 per month.....		3,780 00	2 Pilots, at \$100 per month, eight months.....		1,600 00
13 Firemen, at \$35 per month.....		5,460 00	4 Pilots, at \$84.12½ per month.....		4,038 00
32 Firemen, at \$30 per month.....		11,520 00	1 Pilot, at \$65 per month.....		780 00
2 Coal-passers, at \$40 per month.....		960 00	2 Pilots, at \$60 per month.....		1,440 00
13 Coal-passers, at \$28 per month.....		4,368 00			
31 Coal-passers, at \$25 per month.....		9,300 00	27 Pilots—total annual pay.....		30,137 50
22 Buglers, at \$25 per month.....		6,600 00			

The estimate herewith submitted calls for an increase in the appropriation over that for the present year of \$77,500. Of this additional sum, \$35,850 is for the pay of 39 officers on the "Permanent waiting orders list," so placed under the operation of the act of Congress approved March 2, 1895. Of the remainder (\$41,650) \$39,650 will be required to provide for the running expenses, exclusive of the salaries of officers, of new vessels now in course of construction, one for the Great Lakes and one for the New England Coast, which will be commissioned during the period for which this estimate provides, and \$2,000 for the annual salary of a naval constructor. There will always be need for the indispensable services of an expert in naval construction and marine architecture, and I respectfully urge that the item of salary for such an officer be authorized.

The onerous and responsible duties devolving upon the Engineer in Chief of the Revenue Cutter Service demand, for their proper execution, administrative capacity and professional knowledge and ability of the first order. The "Engineer in Chief" of this Service is assigned as such from the list of chief engineers, by the Secretary of the Treasury, under authority of the legislative act approved July 1, 1894. I most earnestly recommend that when a chief engineer of the Revenue Cutter Service is so assigned he shall thereafter receive the duty pay and have the relative rank of a captain of the Revenue Cutter Service.

The lowest estimate (\$1,012,500) has been submitted that is deemed sufficient to meet the new demands upon the appropriation which will be required during the fiscal year 1897.

Respectfully, yours,

The SECRETARY OF THE TREASURY.

C. F. SHOEMAKER.
Captain, Revenue Cutter Service, Chief of Division.

APPENDIX Q.

In Explanation of the Estimates for the Coast and Geodetic Survey. (See pages 234 to 238.)

TREASURY DEPARTMENT, OFFICE OF THE COAST AND GEODETIC SURVEY,
Washington, D. C., September 20, 1895.

SIR: I have the honor to transmit herewith the estimates of appropriations required for the service of the United States Coast and Geodetic Survey and Office of Construction of Standard Weights and Measures for the fiscal year ending June 30, 1897:

The amount asked for "field expenses" is \$169,000 as against \$110,500 appropriated for 1895-96, an increase of \$58,500. An increase of appropriation under this head is necessary for the rapid and economical prosecution of surveys urgently demanded in the interest of commerce along our coasts and for the advancement of other important field operations of the Survey. With a less amount the parties of the Survey can not be employed to full advantage, as it is possible for them to remain in the field only for a portion of the available working months, while the expense of fitting out and transporting parties to the field and return is the same for a short as for a long season. The vessels engaged in the hydrographic portions of the work should be employed almost continuously to keep pace with the demand for surveys and examinations in various important localities, but this will be impracticable with the amount appropriated for the current year.

The original survey of the Chesapeake Bay was made many years ago, and since then the erosive action of the tides has washed away entire points, eaten into the shore and deposited the material in the channel, so that neither the shore lines nor depths of water shown upon the charts of this bay agree with the true condition of affairs at the present time. These charts are therefore defective and misleading, and hence the necessity of an entire resurvey of Chesapeake Bay.

An item for \$5,000 has been inserted for continuing the boundary survey between Alaska and British Columbia and the Northwest Territory.

An appropriation of \$50,000 is also asked to commence the construction of a new vessel for work on the coast of Alaska and among the Aleutian Islands. A suitable vessel for this work is urgently needed to replace the Coast and Geodetic Survey steamer *Hassler*, which has recently been condemned as unfit for further service.

The item for repairs of vessels is \$25,000, as against \$38,000 for the current year, a decrease of \$13,000.

The items of the estimate for pay of field force are identical with those of the appropriation for 1895-96, except that an addition of \$1,500 is asked for the pay of temporary aids. A slight increase in the number of those employed under this designation will be advantageous in enabling the Survey to secure the service of qualified young men who are willing to remain permanently in the service with the hope of advancement to a higher grade.

In the appropriation for pay of office force an addition of \$200 per annum to the pay of one of the carpenters is asked. The master carpenter originally received \$1,600 per annum, which the last appropriation reduced to \$1,200. The present incumbent is a skillful joiner as well as carpenter, and as the duties of this position deserve a higher compensation than that now paid, an increase from \$1,200 to \$1,400 has been recommended.

It is proposed to increase the force of copper-plate engravers by the addition of one at \$1,400 and one at \$1,000, and to increase the appropriation for extra engravers by the amount of \$100. The paragraph under the head of office expenses containing an item for extra engraving is reduced, however, by the amount of \$2,500, as the proposed increase of force will lessen the amount of extra engraving to be done under contract.

Under the paragraph for "electrotypers and photographers, plate printers and their helpers," etc., it is proposed to increase the pay of four employees from \$1,000 to \$1,100 each, and the pay of three employees from \$700 to \$750 each. The pay of these employees has been reduced by former appropriations below the standard paid for the same character of work elsewhere, and the rates herein recommended are not yet up to the full standard rates.

In the force of computers it is recommended that one be increased from \$1,200 to \$1,600 and one from \$1,400 to \$1,600, in order that the rates of pay may conform more nearly to the value of the services performed by individuals.

It is believed that these increases will add considerably to the efficiency of the office force.

The items of the estimates for Office of Construction of Standard Weights and Measures are the same as those of the appropriation for the current year, except that an increase of \$300 is asked in the salary of the adjuster, whose services are well worth the increased amount recommended.

Respectfully, yours,

W. W. DUFFIELD,
Superintendent.

The SECRETARY OF THE TREASURY.

APPENDIX R.

Detailed Estimate for "Pay of Assistant Custodians and Janitors." (See page 245.)

Amount estimated to be required for the "Pay of Assistant Custodians and Janitors, 1897," for the following-named buildings, completed and to be completed prior to June 30, 1897, under the control of the Treasury Department.

APPENDIX S.

In Relation to the Estimate for the Garfield Memorial Hospital. (See page 250.)

THE GARFIELD MEMORIAL HOSPITAL, September 5, 1895.

SIR: I have the honor to request, on behalf of the directors of the Garfield Memorial Hospital, that you will include the following item in your estimates to be submitted to Congress for the fiscal year ending June 30, 1897:

"*The Garfield Memorial Hospital.*—For maintenance, to enable it to provide medical and surgical treatment to persons unable to pay therefor, \$25,000."

The last appropriation of \$19,000 was not sufficient to cover the cost of maintenance. The demands made on our institution during the last fiscal year ending June 30, 1895, were more than twofold greater than ever before.

During the last year 1,114 patients were admitted, an increase of 658 over the previous year.

On July 12, 1894, a free dispensary was opened, and since that time 1,600 new patients have been treated.

Needed improvements can not be considered until there is a betterment in our financial condition.

The average daily cost for maintenance of patients is less than it has ever been before.

Patients are admitted and treated without reference to color, creed, or nationality.

I have the honor to be, your obedient servant,

JOHN M. HARLAN,
President.

Hon. DANIEL S. LAMONT,
Secretary of War.

APPENDIX T.

In Relation to the Estimate for "Artillery School, Fort Monroe, Va." (See page 251.)

STATEMENT OF ITEMS ESTIMATED FOR THE ARTILLERY SCHOOL, FORT MONROE, VA., FOR THE FISCAL YEAR ENDING JUNE 30, 1897.

Artillery School Library:

For the purchase of professional and scientific works for the instruction of student officers, and for professional and scientific papers, periodicals, etc..... \$400 00

Department of Military Science:

For the purchase of text-books and pamphlets, occasional publications, maps and books of reference..... 175 00

Photographic Studio:

For purchase of photographic chemicals, plates, and other photographic supplies for current work..... 150 00

Secretary of the staff of the United States Artillery School:

For current papers and instruction manuals, including papers, ink, and printing material, etc..... 225 00

For binding books, papers, instruction manuals, and preservation of professional library, such as leathers, cloth for covers, and mounting maps, gilding, thread, and other bookbinding material, etc..... 200 00

Total..... 425 00

Division of Noncommissioned Officers:

For the purchase of text-books in mathematics, surveying, mechanical engineering, for instruction purposes..... 150 00

To enlisted men for extra-duty pay in scientific departments, at not more than 50 cents per day:

One printer in charge of printing office, lithographic office, bookbindery, and Artillery School records, one clerk, three printers, one book-binder, one machinist, one engineer, one fireman, one carpenter, three electricians, one assistant in charge of surveying and engineering instruments, one chemist, one photographer, one assistant librarian, and one janitor..... 2,488 35

Department of Artillery:

For the purchase of books, periodicals, works of reference, etc..... 100 00

Chemical Laboratory:

For the purchase of chemical apparatus..... 125 00

For the purchase of chemicals..... 150 00

Total..... 275 00

Electrical Department:

Electrical instruments and material for instruction purposes..... 1,250 00

For maintenance of lines and batteries, and material for repair and operation of same..... 150 00

Total..... 1,400 00

Department of Steam and Mechanism:

For the purchase of text and reference books, plates, etc..... 150 00

For the purchase of machinery and machine tools for instruction purposes..... 250 00

Total..... 400 00

Repair shops:

For the purchase of material and necessary tools for metal and carpenter work for the repair and preservation of engineering, electrical, and artillery apparatus in the use of the several departments of the school, etc..... 300 00

Department of Engineering:

For the purchase and repair of instruments, drawing material, text and reference books, maps and plans, for the instruction of officers in military engineering, and for current expenses..... 125 00

Department of Ballistics—

For the purchase of instruments and material necessary for the instruction of student officers in ballistics..... 150 00

RECAPITULATION.

Artillery School Library.....	\$100 00
Department of Military Science.....	175 00
Photographic Studio.....	150 00
Secretary staff of United States Artillery School (printing, lithographing, and binding).....	425 00
Division of Noncommissioned Officers.....	150 00
Extra-duty pay, etc.....	2,488 35
Department of Artillery.....	100 00
Chemical Laboratory.....	275 00
Electrical Department.....	1,400 00
Department of Steam and Mechanism.....	400 00
Repair shops.....	300 00
Department of Engineering.....	125 00
Department of Ballistics.....	150 00
Total.....	6,538 35

ROYAL T. FRANK,
Colonel First Artillery, Commandant.

APPENDIX U.

Statement of items estimated for the United States Infantry and Cavalry School, Fort Leavenworth, Kans., for the fiscal year ending June 30, 1897. (See page 251.)

Department of Engineering:	
Purchase of instruments and materials for the theoretical and practical instruction of student officers in military engineering and repairs to same, purchase of necessary tools and materials for military field engineering.....	\$1,600 00
Department of Military Art:	
Purchase of text-books, books of reference, maps, and materials for making and mounting maps, models, etc., used in the theoretical and practical instruction of student officers in the art and science of war.....	475 00
Department of Law:	
Purchase of text and reference books.....	150 00
Department of Infantry:	
Purchase of text and reference books, models, and materials.....	125 00
Department of Cavalry:	
Purchase of text and reference books, models, and materials.....	300 00
Department of Military Hygiene:	
Purchase of text and reference books.....	50 00
Infantry and Cavalry School Library:	
Purchase of professional and scientific works for the instruction of student officers, and for professional and scientific papers and periodicals, etc.....	630 00
Printing and binding current papers, instruction manuals, reports, etc., including paper, inks, and printing material, and rebinding of library books.....	440 00
Purchase of drawing materials, stationery, office library, and section-room furniture.....	500 00
To enlisted men for extra-duty pay, at not more than 50 cents per day:	
Two printers, one skilled draftsman, and one assistant librarian.....	730 00
Total.....	5,000 00

H. S. HAWKINS,
Colonel Twentieth Infantry, Commandant.

APPENDIX V.

Explanation to accompany the Estimates of the National Home for Disabled Volunteer Soldiers for the fiscal year ending June 30, 1897. (See pages 251 to 254.)

Statement of officers, members, and employees of the Board of Managers, National Home for Disabled Volunteer Soldiers, and their compensation and allowances, for year ending June 30, 1896.

President, \$4,000 per annum and traveling and other actual expenses incurred while upon business of the Home.
First vice-president, traveling and other actual expenses incurred while upon business of the Home.
Second vice-president, traveling and other actual expenses incurred while upon business of the Home.
Secretary, \$2,000 per annum and traveling and other actual expenses incurred while upon business of the Home.
Managers, traveling and other actual expenses incurred while upon business of the Home.
General Treasurer, \$3,000 per annum and mileage while upon business of the Home.
Inspector-general, \$2,500 per annum and mileage while upon business of the Home.
Assistant inspector-general \$2,000 per annum and mileage while upon business of the Home.
Clerks (four), office of president and general treasurer, one at \$1,500 per annum and three at \$1,000 each per annum.
Messenger (president's office) \$144 per annum.

Managers' clerks.

Gen. W. J. Sewell, \$400 per annum.
Col. S. G. Cooke, \$400 per annum.
Gen. J. C. Black, \$240 per annum.
Maj. A. W. Barrett, \$360 per annum.
Gen. C. J. Anderson, \$100 per annum.

Agents.

Boston, Mass., \$50 per month.
Chicago, Ill., \$50 per month.
New York, N. Y., \$50 per month.
Washington, D. C., \$50 per month.

Statement of Officers of the Branches of the National Home for Disabled Volunteer Soldiers, appointed under section 4829, Revised Statutes, and their compensation and allowances, year ending June 30, 1896.

Officers.	Pay.	Forage.	Allowances.
<i>Central Branch.</i>			
Governor.....	\$3,300 00	2	Quarters, fuel, light.
Treasurer.....	2,650 00	1	Do.
Surgeon.....	2,400 00	1	Do.
Quartermaster.....	1,800 00	1	Do.
Commissary of subsistence.....	1,500 00	1	Do.
Assistant adjutant-general.....	1,500 00	1	Do.
Inspector.....	1,200 00	1	Do.
Chaplain (Protestant).....	1,500 00	1	Do.
<i>Northwestern Branch.</i>			
Governor.....	2,750 00	2	Quarters, fuel, light.
Treasurer.....	2,125 00	1	Do.
Surgeon.....	2,000 00	1	Do.
Quartermaster and commissary.....	1,650 00	1	Do.
Adjutant.....	900 00	1	Do.
<i>Eastern Branch.</i>			
Governor.....	2,750 00	2	Quarters, fuel, light.
Treasurer.....	2,125 00	1	Do.
Surgeon.....	2,000 00	1	Do.
Quartermaster and commissary.....	1,650 00	1	Do.
<i>Southern Branch.</i>			
Governor.....	2,750 00	2	Quarters, fuel, light.
Treasurer.....	2,125 00	1	Do.
Surgeon.....	2,400 00	1	Do.
Quartermaster and commissary.....	1,650 00	1	Do.
Chaplain (Protestant).....	1,200 00	1	Do.
<i>Western Branch.</i>			
Governor.....	2,750 00	2	Quarters, fuel, light.
Treasurer.....	2,125 00	1	Do.
Surgeon.....	2,400 00	1	Do.
Quartermaster and commissary.....	1,650 00	1	Do.
Chaplain (Protestant).....	1,200 00	1	Do.
<i>Pacific Branch.</i>			
Governor.....	2,750 00	2	Quarters, fuel, light.
Treasurer.....	1,025 00	1	Do.
Surgeon.....	2,000 00	1	Do.
<i>Marion Branch.</i>			
Governor.....	2,750 00	2	Quarters, fuel, light.
Treasurer.....	2,000 00	1	Do.
Surgeon.....	2,000 00	1	Do.

NOTE.—Where practicable each officer is allowed quarters, fuel, and light, and in some cases, forage for horses, but no commutation therefor. There are no allowances for contingent or other expenses.

Statement of expenditures for salaries of officers and employees of the Board of Managers, and for outdoor relief and incidental expenses, National Home Disabled Volunteer Soldiers, year ending June 30, 1895.

DETAILED OBJECTS OF EXPENDITURE.

Traveling expenses, attending meetings, and official visits to the several branches of the Home:	
Board of Managers, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	\$6,213 57
Gen. W. B. Franklin, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	565 12
Gen. W. J. Sewell, viz:	
Railroad tickets, berth, seats, hotel bills, portorage, carriages, and meals en route.....	89 00
Gen. John C. Black, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	231 81
Gen. M. T. McMahon, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	366 80
Col. John L. Mitchell, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	134 15
Gen. A. L. Pearson, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	268 00
Gen. Francis Fessenden, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	295 79
Col. George W. Steele, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	389 13
Maj. A. W. Barrett, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	568 70
Gen. Charles M. Anderson, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	301 80
Col. S. G. Cooke, viz:	
Railroad tickets, berths, seats, hotel bills, portorage, carriages, and meals en route.....	860 04

Total.....	35,604 43

Explanatory statement of the changes in the estimates of the National Home for Disabled Volunteer Soldiers for the fiscal year ending June 30, 1897.

No change is recommended in the wording of the appropriation for current expenses.

A change is, however, recommended in the wording of the appropriation for subsistence so that it may include "fuel for cooking, and aprons, jackets and caps for kitchen and dining room employees," thus placing the whole cost of subsistence under one head.

The wording of the appropriation for household is recommended to be changed so as to omit the words "including fuel, cooking" and adding the words "steam boilers," and changing the word "purchased" to "required." Insert words "and soap" between "gas" and "makers," so that it will read "gas and soap makers." Erase sentence beginning "also for all labor and material for upholstery shops, broom and soap shops."

Under the head "Hospital" insert the word "and" before "coffins" and erase the words "and materials" immediately after "coffins."

Under the head "Repairs" insert the words "construction and" so that it will read "for construction and repairs." Insert the words "and brick" after "stone," making the sentence read "stone and brick masons," and after the word "masons" insert "harness makers." At the end of the sentence defining the appropriation, add "also for roads, and other improvements of a permanent character."

Under the appropriation for farm, erase "harness makers."

Central Branch: Average present year 1894, 4,699; for year 1895, 4,767.—Since the beginning of the current fiscal year the average present has risen to 5,025, and every available place has been fitted with beds, but many men are sleeping on floors at this time. The estimate for household has been increased \$4,180, on account of an increase in the cost of fuel. Hospital is increased \$1,100 on account of the natural increase of expenses under this head. Transportation has been increased \$500, and repairs diminished \$4,432.

The Board has estimated \$19,950 for additional barracks at this branch.

Northwestern Branch: Average present year 1894, 2,089; for year 1895, 2,230.—Since the beginning of the current fiscal year the average present has fallen off to 2,204 on account of members absent on furlough. Their return will bring the number above that of the last fiscal year. The estimate for subsistence is increased \$523.75, and that for household is diminished \$5,000. That for farm is increased \$2,500.

The crowded state of the branch induced the Board to ask for new barracks costing \$25,000.

Eastern Branch: Average present year 1894, 1,687; for year 1895, 1,777.—Since the beginning of this fiscal year the number has risen to 1,867, and 69 members are sleeping on the floors. Appropriation for current expenses is slightly diminished. Subsistence is increased \$8,720, on account of increased membership. Transportation is increased \$200 for the same reason. The Board asks \$9,000 for new barracks, and \$2,800 for a barn, a structure absolutely necessary.

Southern Branch: Average present year 1894, 2,871; for year 1895, 2,999.—Since the beginning of this fiscal year the number has risen to 3,037; 33 are sleeping on the floors and 187 in tents. The appropriation for current expenses is recommended to be increased the sum of \$1,188.83 above that of last year, due to the enlargement of the branch. That for subsistence to \$204,765, \$7,655 over last year; that for hospital to \$33,575.21, an increase of \$6,075.21; and that for repairs to \$27,500, an increase of \$2,500; and for farm \$2,000, all due to the same cause. The appropriation for household is diminished \$4,083.11.

The Board asks for additional barracks, \$31,000; storehouse, \$10,000; addition to latrine, \$3,500; additional boilers, \$3,500; gasoline lighting plant (the one in use being worn out), \$6,000. These items are all of extreme necessity.

Western Branch: Average number present year 1894, 2,188; for year 1895, 2,261.—Since the beginning of this fiscal year the number present has fallen to 2,215, but 83 have lately gone out on furlough who will soon return. The appropriation for subsistence is diminished \$4,087.50 from that for the current year; that for hospital \$500, and that for repairs is increased \$4,000, and for farm \$4,000. The two latter increases are believed to be necessary. The Board asks \$75,000 for new barracks; \$8,000 for a quartermaster's storehouse; \$5,300 for an insane ward; \$5,200 for a guardhouse, all of which structures are considered necessary on account of increased necessities of the branch.

Pacific Branch: Average present for 1894, 1,000; for 1895, 1,233.—The average present at this time is 1,340. The completion of new barracks, enlarging the capacity of the branch, requires increases in several items of appropriation.

Current expenses increase \$2,702.77; subsistence, \$5,968.75; household, \$5,000; hospital, \$1,800; and farm, \$3,000. The Board asks \$22,500 for barracks; \$8,000 for a storehouse; \$9,200 for a boiler house and stack; \$6,000 for shops; \$1,000 for morgue; and \$850 for granary and wagon shed, all of which are necessary for the requirements of the branch.

Marion Branch: Average present for 1894, 1,064; for 1895, 1,233.—At the present time the average present is 1,401. The enlargement of the capacity of the branch requires additional appropriations. For current expenses the additional amount required is \$523.80; for subsistence, \$7,600; for household, \$2,500; for hospital, \$2,500; for transportation, \$500; for repairs, \$5,000; and for farm, \$4,500. The Board also asks \$66,000 for additional barracks; \$2,500 for boiler house; \$2,000 for gateway and lodge at entrance of the grounds; \$5,000 for a gas well and connections; \$1,300 for leasing additional gas land; \$5,000 for a stable.

The above items are considered necessary for the proper enlargement and maintenance of the branch.

Clothing for all the branches: Increased \$20,000, due to the increased membership of the Home.

Salaries for officers and employees of the Board of Managers, etc.—The Board asks for an increase of \$500 in the salary of the general treasurer, making it \$3,500. This officer disburses over \$3,000,000 annually. His labors are incessant and engrossing, and he is also obliged to give bond satisfactory to the Secretary of War for \$100,000. To obtain this bond costs him \$500 per annum, reducing his salary by that amount. It is the opinion of the Board that the net salary should not be reduced below \$3,000, and the increase of \$500 is therefore asked.

The clerical services for the officers of the president and general treasurer are not sufficient for the work, and an increase of \$1,000 is necessary.

The salaries of managers' clerks are not sufficient. They now amount to \$1,500, and an increase of \$900, making the amount \$2,400, is asked.

The increased work of the managers, due to the great increase in membership of the branches, justifies this increase.

The amount for rent and incidental expenses is not sufficient, and an increase of \$500 is asked for in this appropriation.

APPENDIX W.

Statement showing the total amount of fees and commissions collected at the several local land offices during the fiscal year ended June 30, 1895; also the net revenue arising therefrom, after deducting the amounts earned and paid to registers and receivers as compensation for services rendered during same period. APPENDIX X.

In Relation to the Estimates for the District of Columbia. (See pages 267 to 284.)

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
Washington, October 24, 1895.

SIR: The Commissioners of the District of Columbia herewith transmit their estimates of the appropriations that will be needed for the support of the government of said District for the fiscal year to end June 30, 1897, amounting to \$7,491,357.47, payable out of the general revenues, and \$215,047.75, payable out of the revenues of the water department of said District; estimates of the revenues of said government, exclusive of the receipts of the water departments, and schedules of the proposed work on sundry streets, avenues, and roads.

The estimated receipts embrace an estimate of the assessor of receipts from taxes and other miscellaneous private sources, amounting to \$3,225,081.56; an estimate of the auditor of a probable surplus of \$500,000 of the revenues of the prior fiscal years which will be applicable to the appropriations for 1897, and the estimated unexpended balances of appropriations for the fiscal year 1895, amounting to \$28,149.56, which will also be available to meet the 1897 appropriations.

The following items are included as recommended by the Department of Justice, viz: "Defending suits in claims against the District of Columbia" (U. S. Stats. at L., vol. 24, p. 253).

"Support, maintenance, and transportation of convicts transferred from the District of Columbia" (vol. 26, p. 408).

"The force necessary for the care and protection of the court-house in the District of Columbia" (vol. 28, p. 202).

"The salary of the warden of the jail" (ibid).

"The maintenance of the United States jail in the District of Columbia, and for the support of prisoners therein" (vol. 28, p. 417).

The following items are included as recommended by the Superintendent of the Columbia Institution for the Deaf and Dumb, and the Superintendent of Charities of the District of Columbia, viz:

"Columbia Institution for the Deaf and Dumb" (vol. 25, p. 962), and for the "care of feeble-minded children" (vol. 26, p. 393).

The item "For the support of the insane" (vol. 20, pp. 230 and 395) is included as recommended by the Superintendent of the Government Hospital for the Insane, and by the Superintendent of Charities of the District of Columbia.

The items for the sinking fund and interest on the bonded and funded indebtedness of the District of Columbia and of the Water Department are included as submitted by the Treasurer of the United States, who is by law charged with the management of the District debt.

The Commissioners have made no changes in the foregoing items as submitted to them for the reason that the officers making those estimates have better facilities than they for forming a judgment on the subject, and no occasion to change them appears.

The estimates for the militia are submitted as furnished by the commanding general. In this case the Commissioners have no discretion, as the law (vol. 25, p. 780) requires them to include in their annual estimates the estimates as made by that officer.

The estimates of appropriations herewith submitted do not include all the items which the Commissioners deem necessary to meet pressing municipal needs, but the Commissioners have followed the policy of confining the estimated expenditures within the estimated receipts, which has been uniformly observed by this office since the establishment of the present form of government for the District. But while adhering to that precedent, the Commissioners have supplemented those estimates by a schedule of additional municipal works and services which they have been compelled by the limited revenues to omit from their regular estimates, and whose postponement would seriously prejudice the public interests. The Commissioners earnestly recommend that provision therefor be made as soon as practicable. (For the said supplemental estimates see page 284.)

The Commissioners express their regret for the delay in submitting these estimates, which has been practicably unavoidable.

Very respectfully,

JOHN W. ROSS,
President Board of Commissioners, District of Columbia.

**STATEMENT OF THE PROCEEDS OF SALES OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY
TO THE FOLLOWING PROVISIONS OF LAW:**

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned Navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "Proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the appendix to the Book of Estimates.—(Revised Statutes, pages 713, 722, sections 3618, 3672; act February 27, 1877, 19 Stat., 249.)

When covered into Treasury.	No. of warrant.	By whom sold.	Kind of property sold.	Bureau in charge of property.	Amount of each kind of property.	Total amount.
